The Next Generation of Travel is Coming to India Before Any Other Country On the Planet

Communications Plan The Full Explainer

vacario India · Fall 2026 Integrated Sales, Marketing and Promotions Plan. Every communication channel explained, every workflow defined, the customer lifecycle and journey mapped end to end, sales lifecycles for properties, travel agencies and enquiries, corporate travel and MICE added, and each flow checked against how India's and the world's leading travel platforms work.

How to read this document

Text marked **FROM THE PLAN** is quoted from the Fall 2026 plan. Everything marked **ADDED** is new: a proposed operating version for the team to review, adjust and approve. Owners are roles, time limits and KPI targets are proposals, and nothing here replaces a decision by the accountable owner. Benchmarks describe other companies' public programmes as checked in September 2026; confirm before quoting them outside the company.

01

VACARIO INDIA · COMMUNICATIONS EXPLAINER

The plan on one page

vacario™ uses seven communication channels. The plan asks that each has clear, measurable objectives and a set of tactics or strategies to meet them. This document turns that requirement into a working system: who says what, to whom, through which touchpoint, in which order, and how we know it worked.

“One company, one source of truth, and one clearly defined communications path from strategy through execution.”

FROM THE PLAN

#	CHANNEL	THE FLOW, AS WRITTEN IN THE PLAN
01	Consumer Communications	Vacario → Traveler → App engagement → Booking → Trip → Review / content → Repeat booking
02	Supply Communications	Vacario → Owners + managers + hotels + suppliers → Inventory → Availability / pricing → Booking
03	Creator Communications	Vacario → Influencers / creators → Content → Followers → Vacario → Booking
04	Destination & Merchant Communications	Vacario → Tourism boards + attractions + restaurants + experiences + merchants → Offers / content → Traveler
05	Corporate Communications	Vacario → Investors + media + governments + strategic partners + employees
06	Lifecycle Communications	No single flow in the plan: “Communication shouldn’t stop once somebody joins, spends, sells or sponsors.” Stages added here: Join → Activate → Engage → Reward → Retain or win back
07	Internal Communications	Systems and routines across Canada, India, the Philippines and every function. Path added here: Strategy → Priorities & budgets → Weekly reviews → Daily execution → Reporting → Knowledge base

The plan says “7 communications channels” and then “Below are the 6 Communications Channels” before listing seven. This document uses seven.

What this document adds

ADDED

A defined customer lifecycle and journey

Nine stages with measurable entry and exit rules, the at-risk and lapsed states, a yes/no decision path, a journey map with pain points and fixes, mind maps and a trip timeline.

Every workflow defined

Each channel’s workflow, step by step: definition, owner, trigger, time allowed and output, drawn as a swimlane with one column per team.

Sales lifecycles and new workflows

Property onboarding, travel-agency partners and enquiry-to-booking sales cycles; plus lead management, campaign launch, referrals, reviews, customer support, consent, promotions, business trips and MICE events.

Measurement and rollout

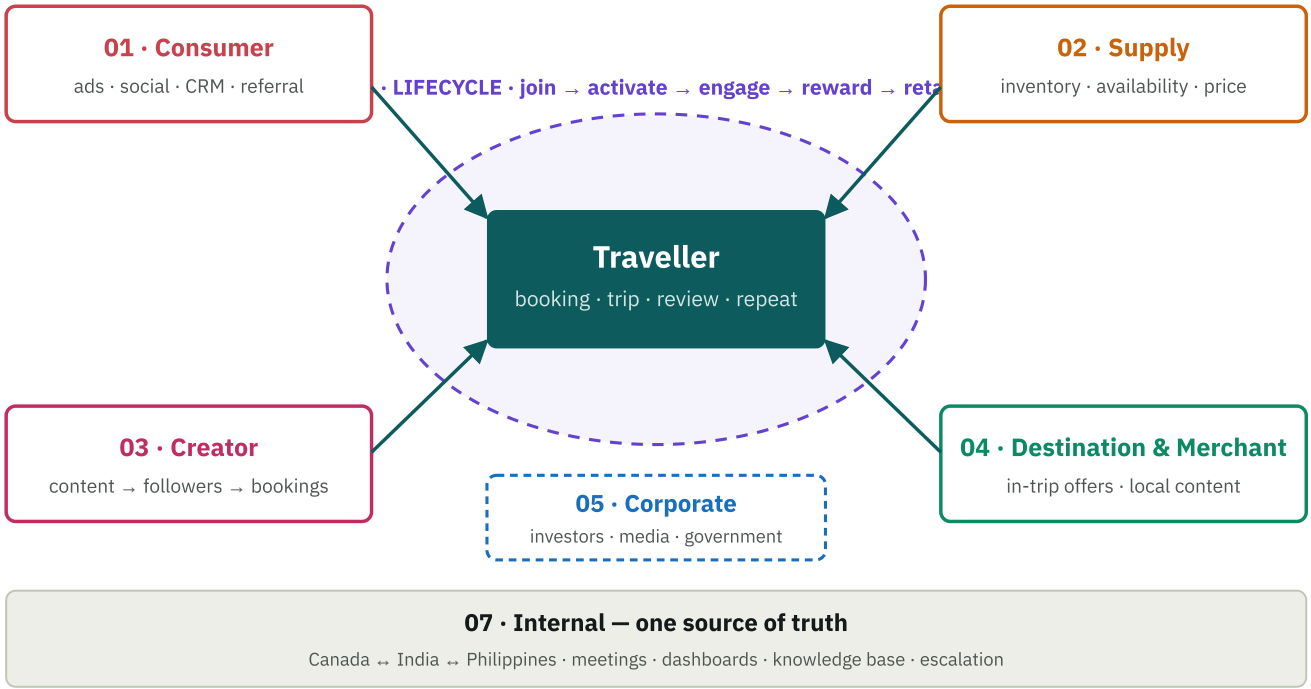

A KPI dictionary with formulas, a north-star measure, an operating rhythm, ownership (RACI) and a 13-week rollout plan.

02

VACARIO INDIA · COMMUNICATIONS EXPLAINER

How the communications system fits together

Four channels feed the traveller’s booking directly. Lifecycle wraps around every audience once they join. Corporate earns the trust and capital the others depend on. Internal runs underneath, keeping one set of priorities and one set of numbers.

The seven channels around the traveller

Who hands what to whom

FROM	TO	WHAT MOVES
Supply	→ Consumer	New inventory and destinations to promote
Creator	→ Consumer	Content for ads, CRM and the app feed
Consumer	→ Destination & Merchant	Travellers and trip dates for in-trip offers
Consumer	→ Lifecycle	Guests after the trip
Supply / Creator	→ Lifecycle	Partners after go-live and onboarding
Destination & Merchant	→ Corporate	Tourism board partnerships to announce
All channels	→ Internal	Results, issues, decisions needed
Internal	→ All channels	Priorities, budgets, one set of numbers
Corporate	→ Internal	Staff briefed before any release

One north star

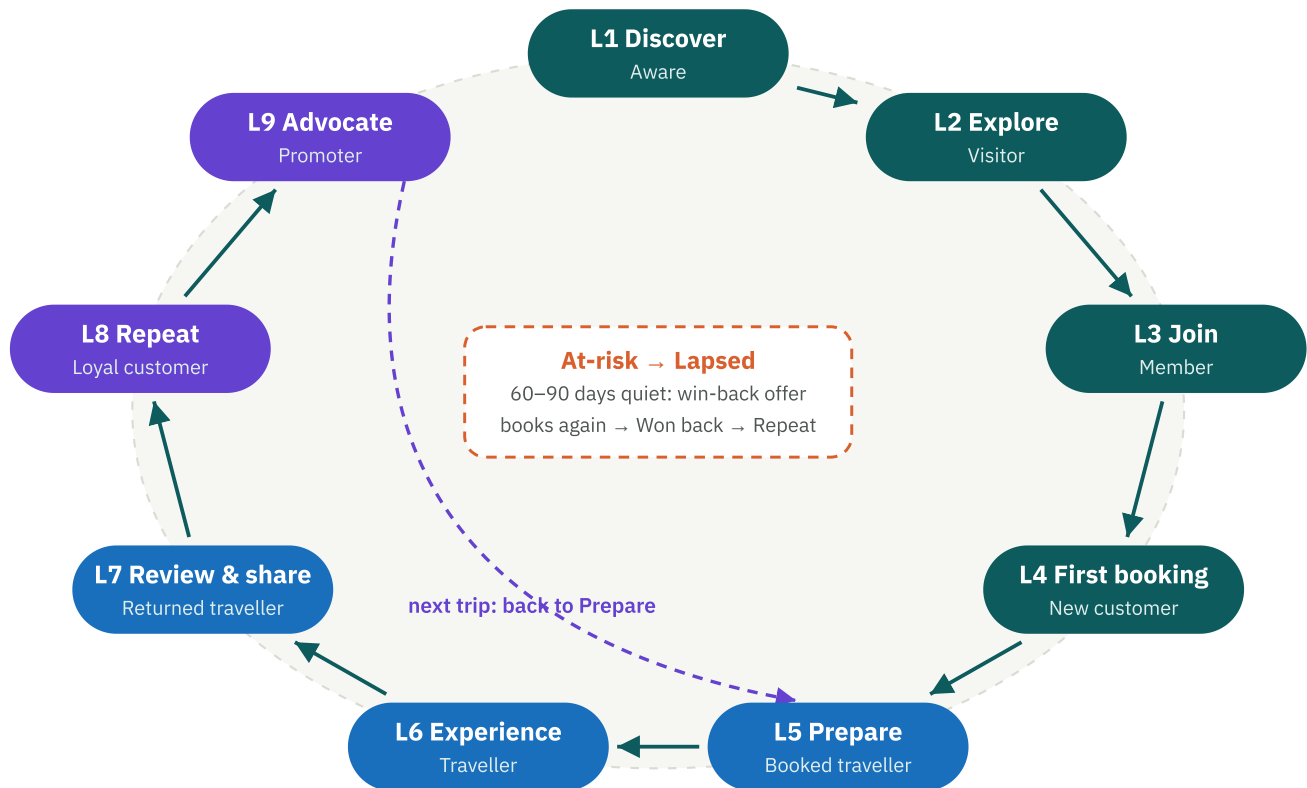

ADDED

Every KPI ladders up to one number the whole company can quote: **completed bookings × average booking value**, the gross booking value of trips actually taken. New travellers (Consumer, Creator), bookable inventory (Supply), revenue per trip (Destination & Merchant) and people who stay (Lifecycle) drive it; Corporate and Internal make everything else possible.

03 CUSTOMER LIFECYCLE · ADDED

The customer lifecycle

The lifecycle describes where each traveller is in their relationship with Vacario, from first seeing the brand to recommending it. Every stage has a measurable entry rule, so the team can count how many people are in it, and an exit rule, so everyone knows what moves a person on. Every message, owner and KPI hangs off these stages.

The customer lifecycle loop · L1-L4 winning a customer (teal) · L5-L7 the trip (blue) · L8-L9 keeping them (violet) · dashed: the loop back and the at-risk path

The stages, defined

Read each stage as a contract between teams: when someone meets the entry rule, the named owner is responsible for moving them to the exit, using the messages and touchpoints listed, and is measured by the KPIs shown.

L1

AWARE

Discover · owner: Performance marketing

ENTERS WHEN

Has seen Vacario at least once: an ad, a creator post, press, a friend's link.

THE CUSTOMER THINKS

“Where could I go next? Is this a brand I can trust?”

KEY MESSAGES

Next-generation travel, India first · Real stays, real prices, real reviews

PAIN POINT → OUR ANSWER

Too many choices, not sure who to trust → **Real stays and real reviews in every ad and creator post**

Benchmark: MakeMyTrip's Myra plans trips conversationally in eight Indian languages.

LEAVES WHEN

Visits the app or site.

OUR JOB

Inspire with real destinations and stays, and earn the first visit.

CHANNELS AND TOUCHPOINTS

Consumer **Creator** **Corporate** Search and social ads, YouTube, creator posts, PR, OOH

KPIS

Reach · Cost per install (CPI)

KPIs

Referral share · NPS by audience

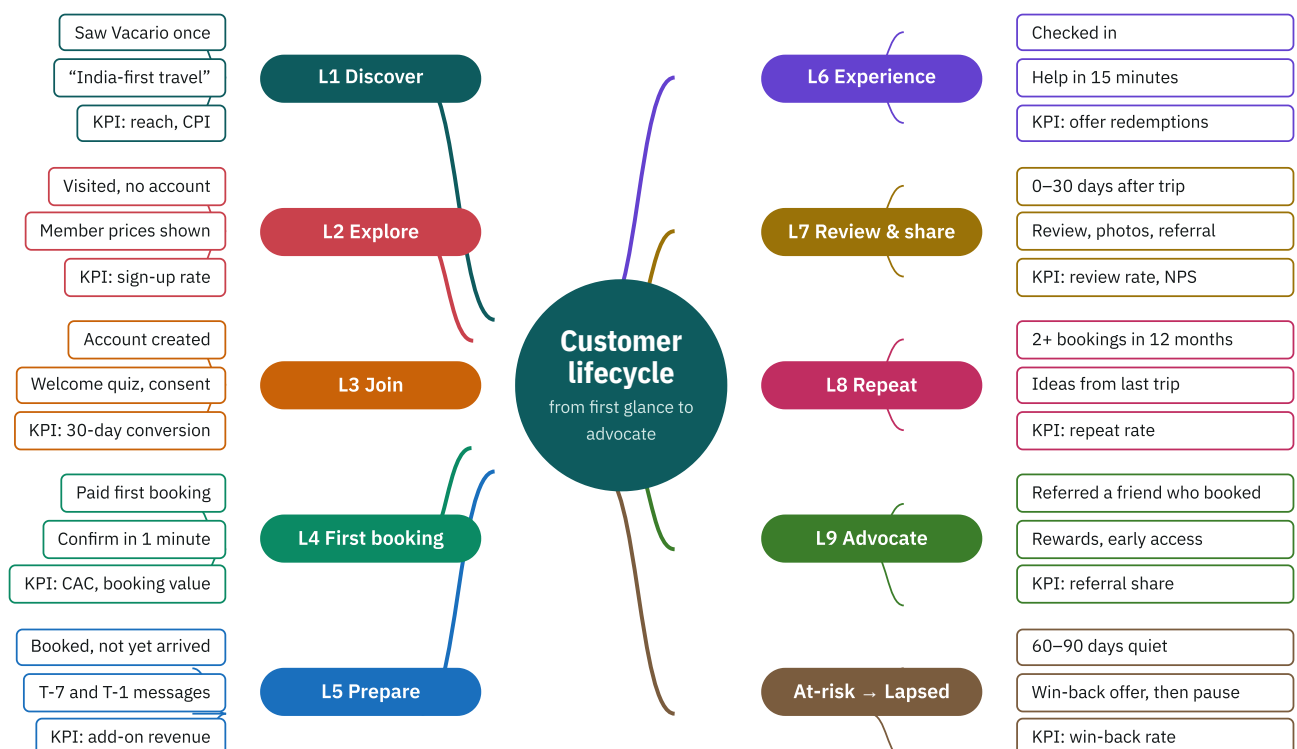

Benchmark: MMTBLACK gives top customers priority support and upgrades.

When customers go quiet

STATE	RULE	WHAT WE DO	KPI
At-risk	A member with no app visit in 60 days and no upcoming trip, or a customer with no booking in 9 months.	Personal offer or message within 7 days of the flag; ask what changed.	Win-back rate
Lapsed	No booking in 18 months and no visit in 90 days, after two win-back attempts.	Move to a quarterly “what’s new” message only, to protect deliverability and respect the customer.	Share of base lapsed
Won back	An At-risk or Lapsed customer who books again.	Treat as Repeat; note what brought them back in the knowledge base.	Win-back rate

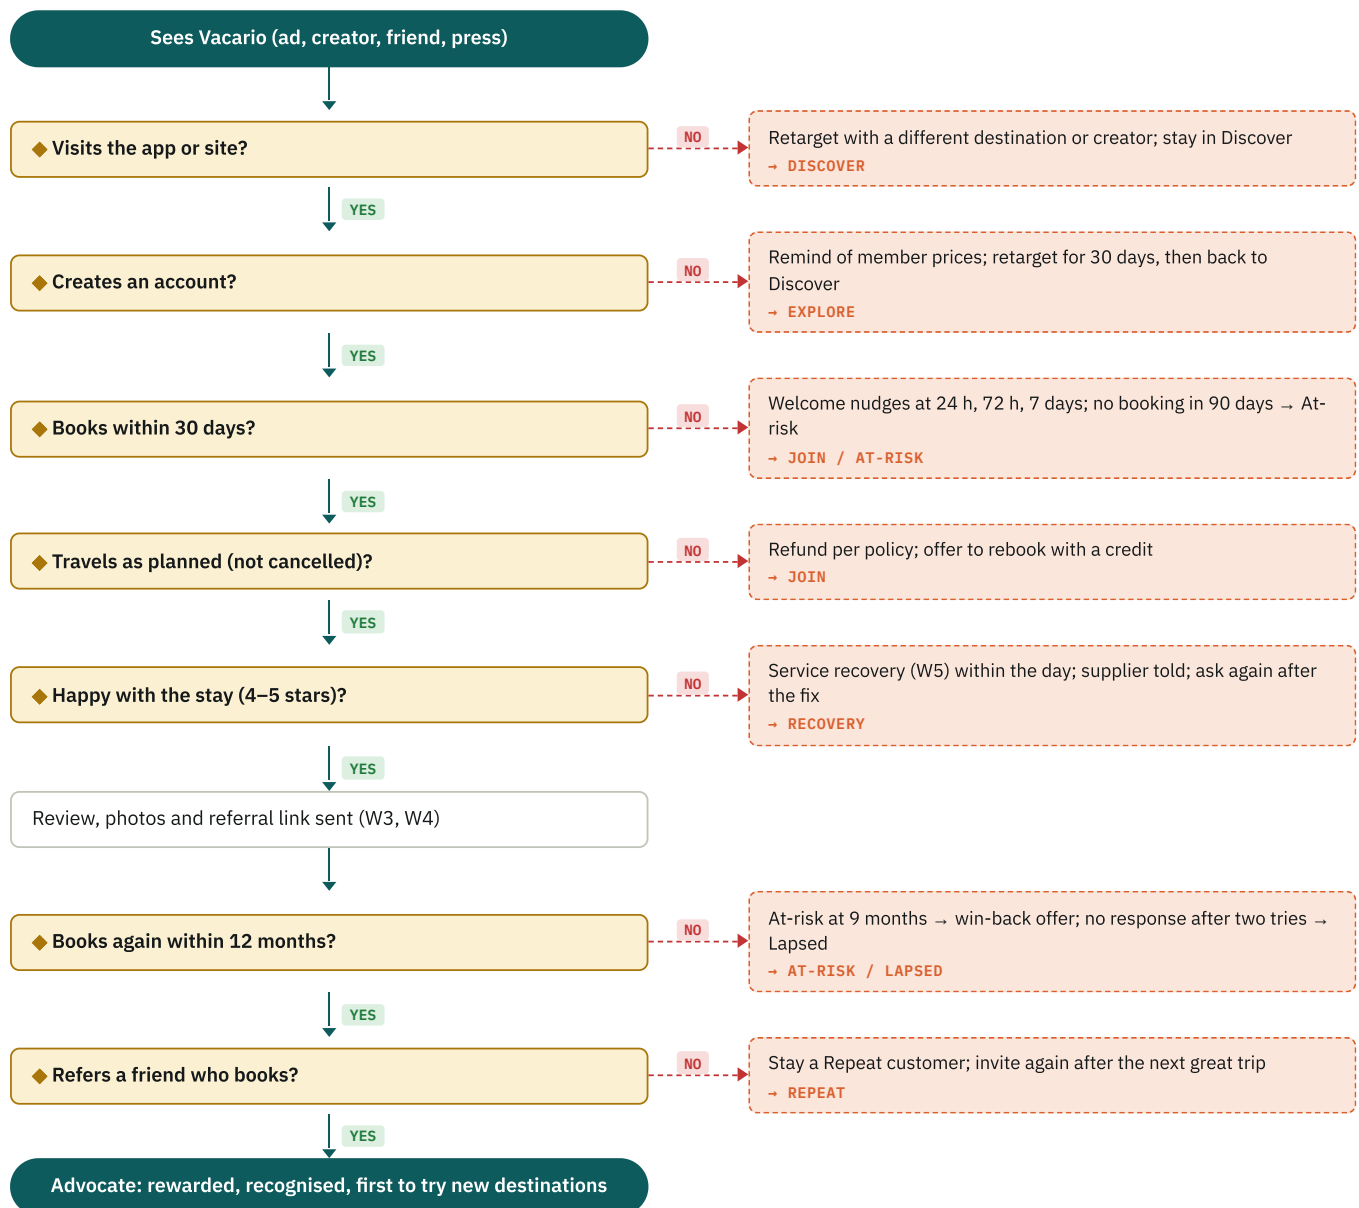

The lifecycle as a mind map

The same nine stages on one page: for each, who is in it, what we say, and what we measure.

The traveller’s path, yes or no

At every stage the traveller either moves on or doesn’t. This decision path shows exactly what happens on each “no”, so no one is left without a next step.

The traveller's path, decision by decision · gold = yes/no question · follow "yes" down, "no" to the right

Segments

The stages are the same for everyone; the messages change by who is travelling.

SEGMENT	WHAT THEY CARE ABOUT	PEAK MOMENTS
Families	Space, safety, kid-friendly stays and activities	School holidays, Diwali, summer
Friends and groups	Value per head, fun, split payments	Long weekends, New Year
Couples and honeymooners	Romance, privacy, special touches	Wedding season, Valentine's week
Solo and young professionals	Easy, social, workation-friendly	Long weekends, monsoon
Pilgrimage and heritage	Trusted stays near temples and sites, elders' comfort	Festival calendars
NRIs visiting home	Family stays, easy payments, trusted hosts	December, summer

Contact rules

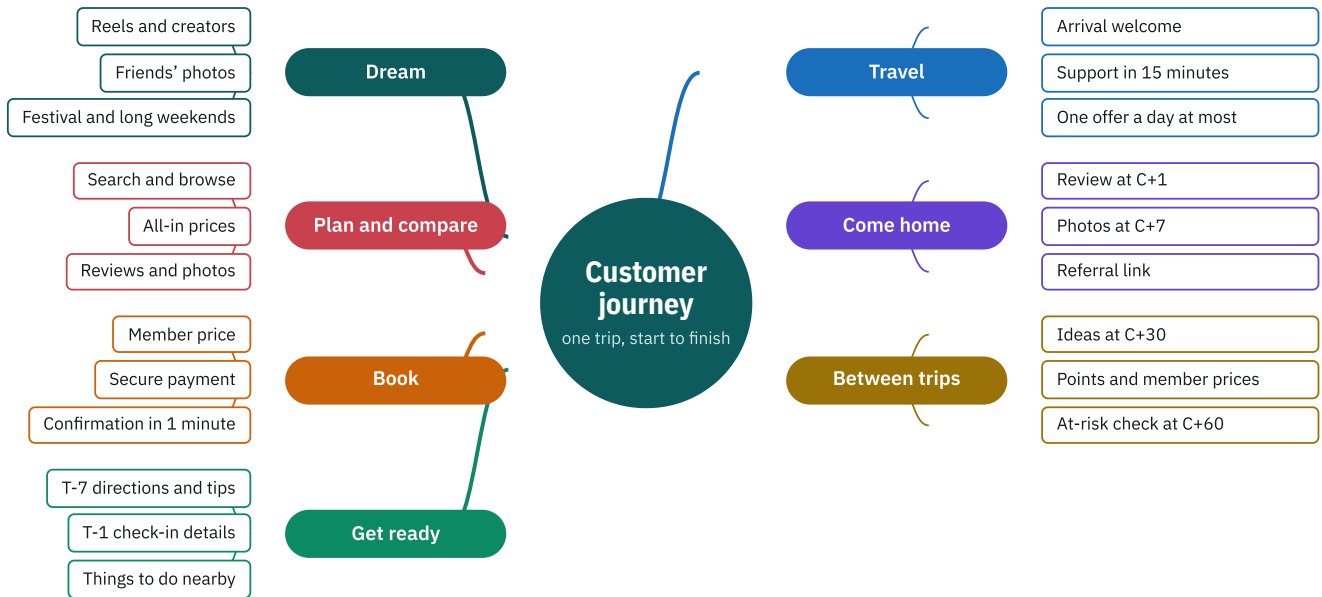

Lifecycle owns the calendar of who hears what, and every channel follows these rules.

Frequency	At most one marketing message a day per person, across all touchpoints; at most three marketing WhatsApp messages a week.
Quiet hours	No marketing messages between 9 pm and 9 am IST. Service messages (booking, safety) may go any time.
Consent first	WhatsApp, SMS and push marketing only to people who opted in for that touchpoint. Consent is recorded with time and wording.
Service beats sales	Nobody with an open complaint gets a marketing message until it is resolved.
One voice	Lifecycle owns the calendar of who gets what; other channels book slots in it instead of sending directly.
Language	English plus the traveller's chosen language (for example Telugu or Hindi) where templates exist.

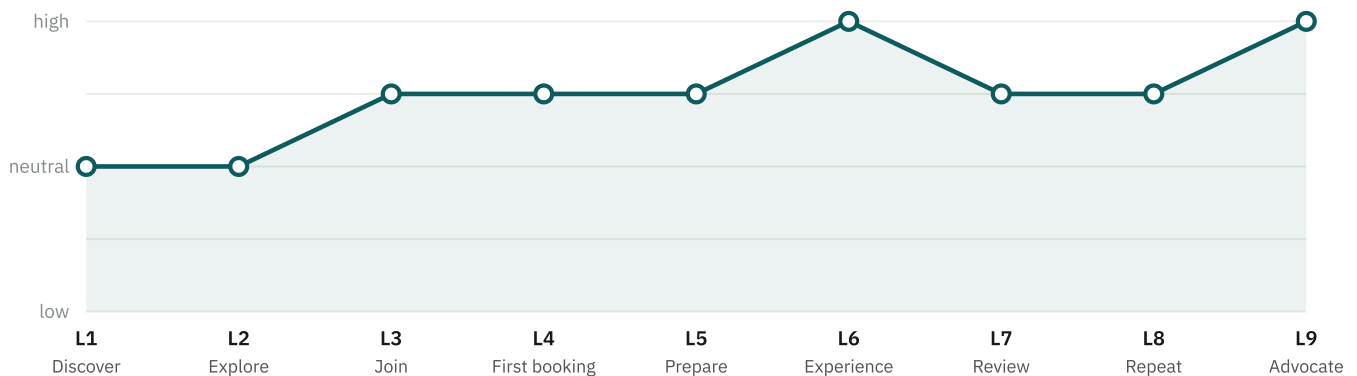

04 CUSTOMER JOURNEY · ADDED

The customer journey

The lifecycle says where a customer is; the journey says what one trip feels like from their side. Designing messages around the journey means each one arrives when it is useful, not when it suits us.

How the traveller feels along the way

How the traveller feels at each stage (1 low – 5 high, a planning estimate to test with research) · the dips are where pain points sit

The journey map, stage by stage

Four phases, nine stages. For each: what the traveller wants and does, what they think and feel, where they meet us, what goes wrong, what we do about it, what we say, and how we measure it.

Before the trip · Win the traveller: inspiration, trust, a first booking

05

LIFECYCLE · ADDED

Partner lifecycles

The plan says communication should not stop once someone sells or sponsors. Suppliers, creators and merchants have lifecycles too, handled by the Lifecycle channel with the same five steps: join, activate, engage, reward, retain.

PARTNER	STAGES	WARNING SIGNS	WHAT WE DO
Supplier	Prospect → Signed → Live → Performing → Top partner	No bookings in 60 days, falling availability, repeat cancellations	Quarterly review, promotion invite, content refresh
Creator	Scouted → Signed → Posting → Converting → Ambassador	No post in 45 days, late content, low conversion	Re-brief, new destination, tier review
Merchant / sponsor	Mapped → Offer signed → Live → Redeeming → Renewed	Few redemptions, late settlement, no report	Better timing, results report, renewal 60 days early

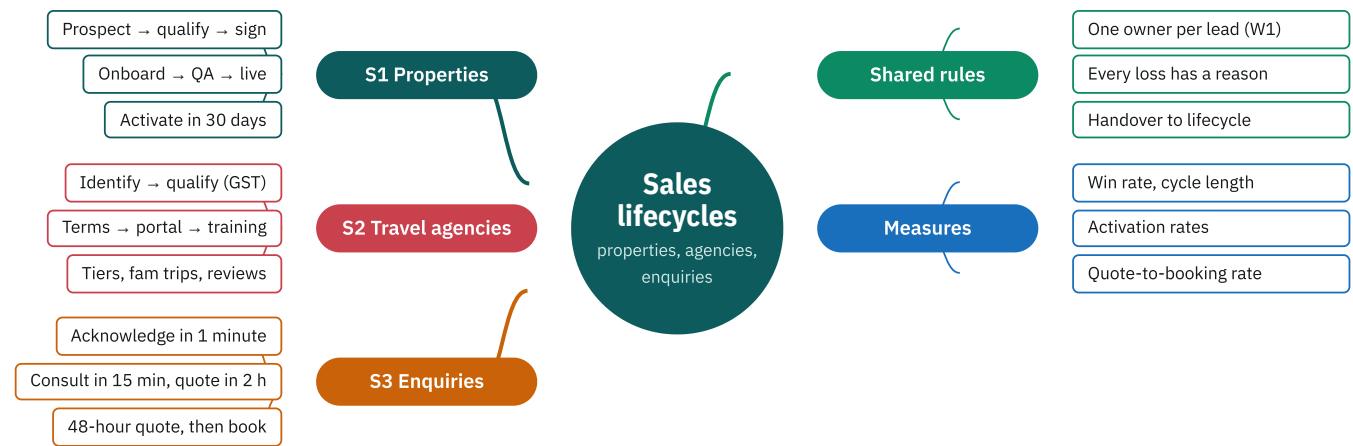

Each partner track, stage by stage

STAGE	GUEST	SUPPLIER	CREATOR	MERCHANT / SPONSOR
Join	Welcome series, preferences	Welcome pack, portal login	Creator kit, link and code	Partner welcome, offer setup
Activate	First booking	Listing live in 14 days	First post published	First offer redeemed
Engage	Trip ideas, festival offers	Monthly statement	Monthly earnings, briefs	Redemption and reach report
Reward	Points, member prices	Top Partner badge, placement	Tier upgrade, hosted trips	Featured placement, case study
Retain	60-day win-back	Quarterly review	Re-brief after 45 quiet days	Renewal 60 days early

SALES LIFECYCLES · ADDED

06 Sales lifecycles: properties, travel agencies and enquiries

Three sales cycles bring in what the customer lifecycle depends on: properties to sell (S1), travel agents who sell for us (S2), and the enquiries our campaigns generate (S3). Each is defined the same way: stages with owners and time limits, a yes/no decision path, a workflow, and KPIs.

#	CYCLE	FEEDS
S1	Property onboarding	Supply channel → bookable inventory for every traveller
S2	Travel agency partners	Consumer bookings through agents, especially tier-2 and tier-3 cities, families, groups and pilgrimages
S3	Enquiry to booking	Customer lifecycle: an accepted quote becomes a First booking (L4) and moves to Prepare (L5)

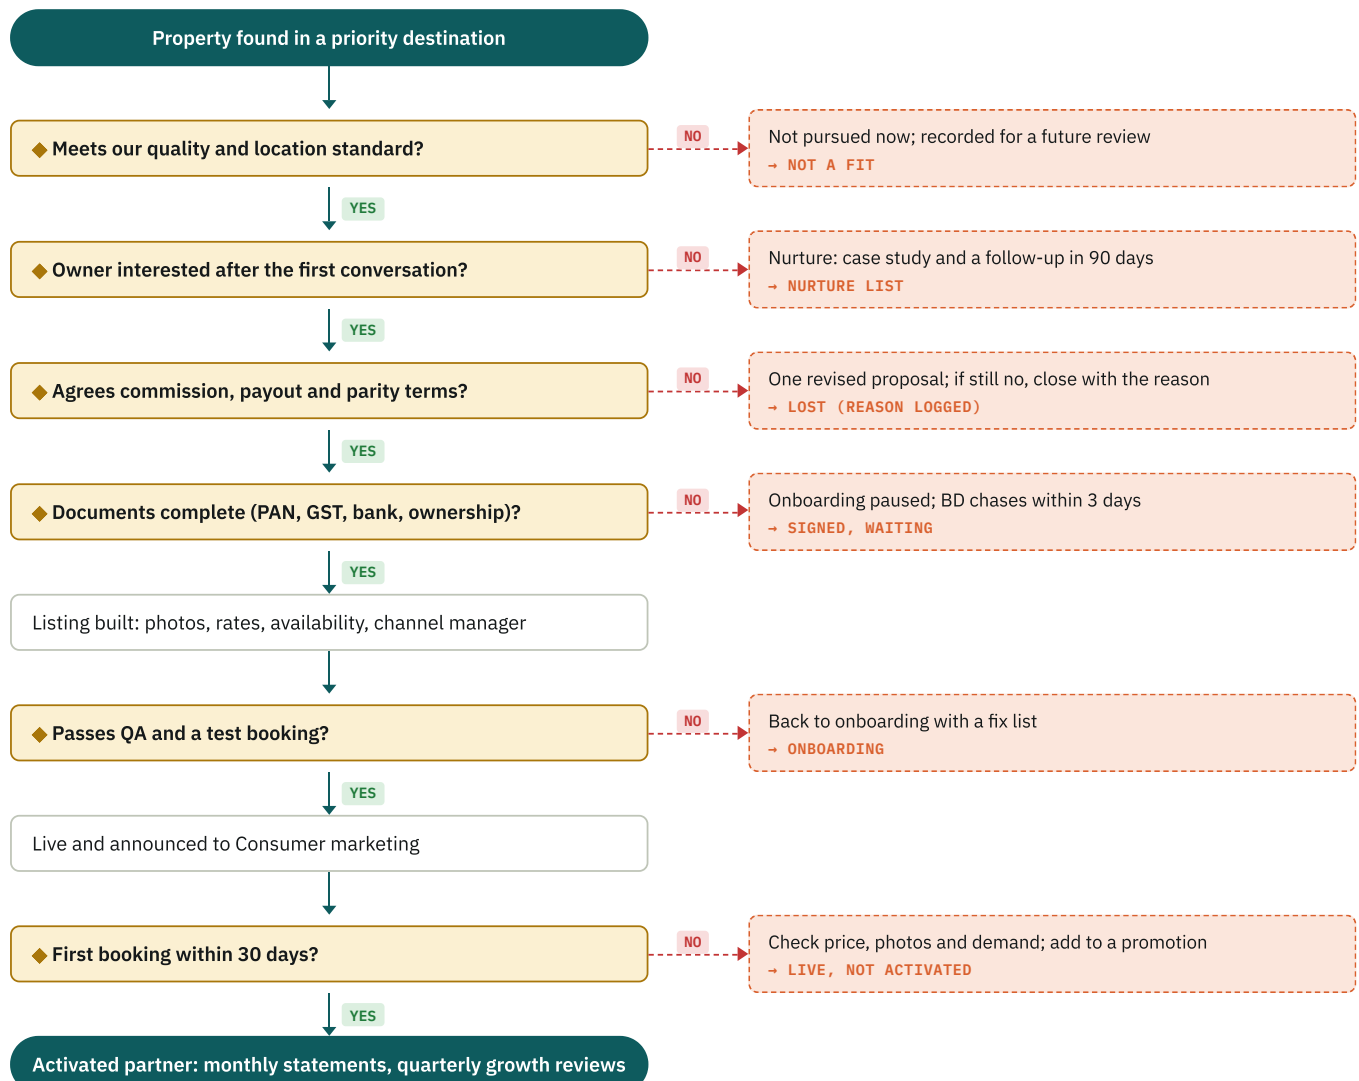

S1 · Property onboarding sales cycle

Supply is a B2B sale. Every property Vacario lists goes through the same cycle: found, contacted, qualified, signed, onboarded, live, and then grown. Defining the stages lets the team forecast signings, spot where deals stall and shorten the time to a first booking.

Stages

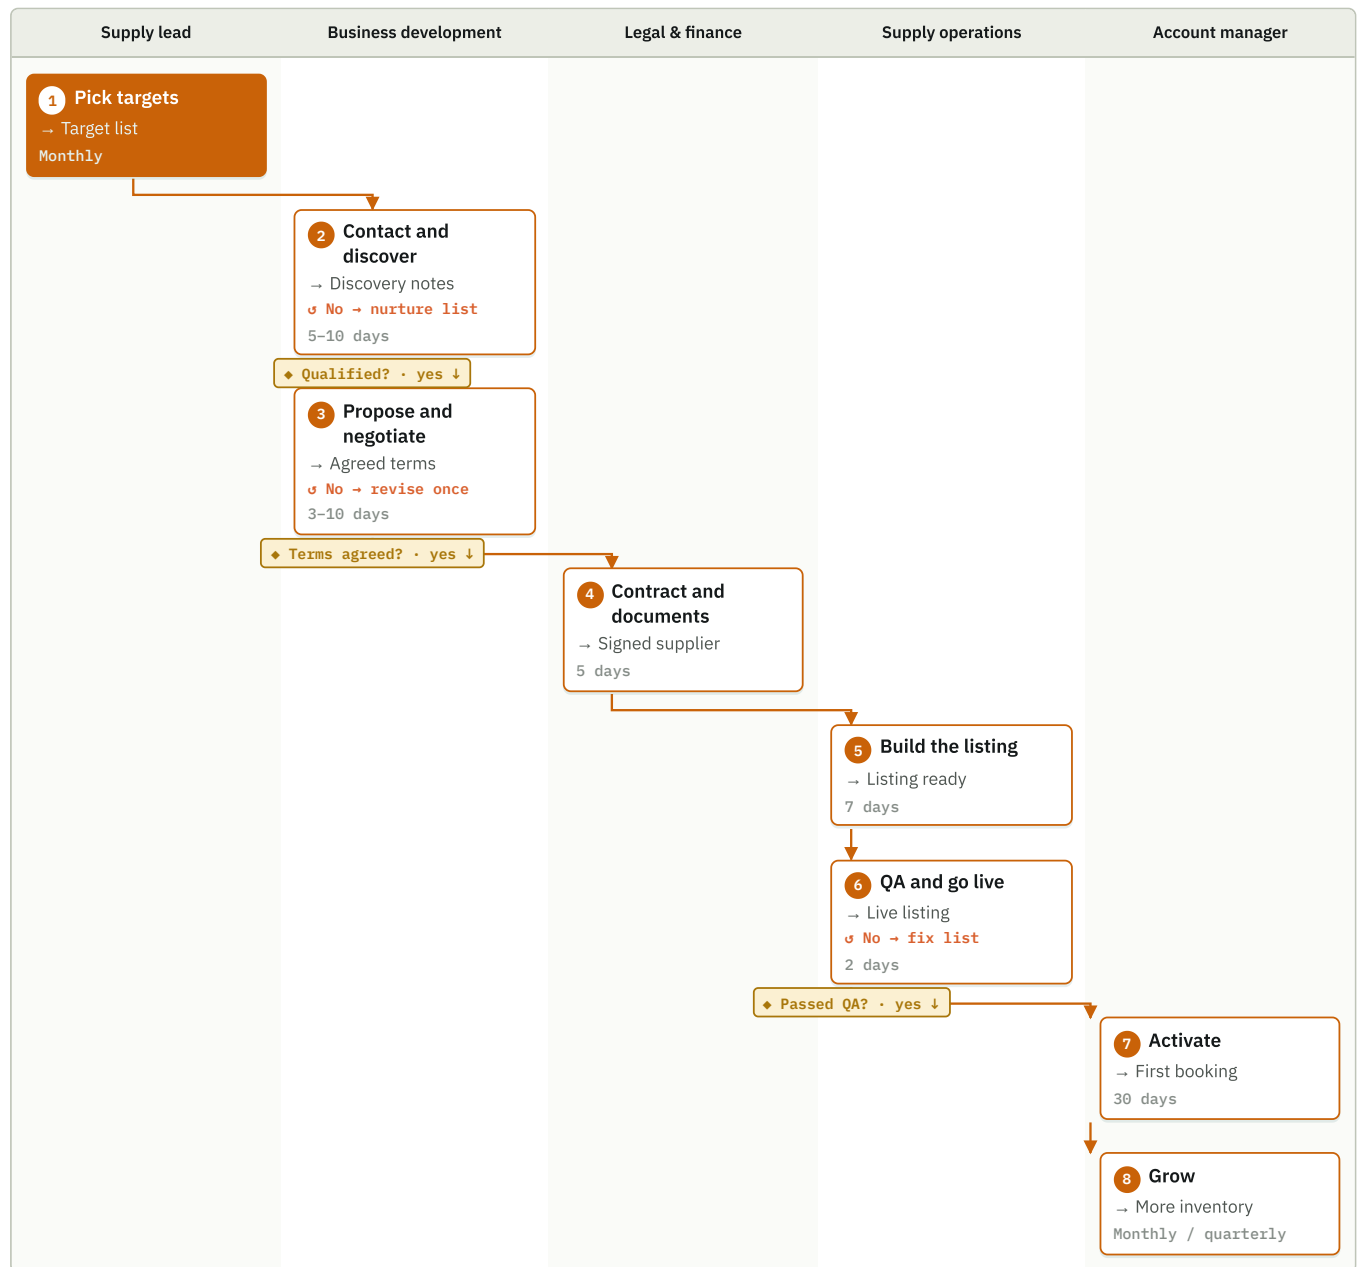

#	STAGE	DEFINITION	OWNER	TIME ALLOWED
1	Prospect	Property found in a priority destination where demand exceeds supply	Supply lead	Target list by day 5 of the month
2	Contacted	First call, visit or message with the Vacario pitch	Business development	Within 5 working days
3	Discovery	Understand rooms, rates, current OTAs, pain points, decision-maker	Business development	Within 10 days of contact
4	Qualified	Meets quality, location and legal standards; decision-maker interested	Business development	Decision at discovery
5	Proposal	Commission, payout schedule, marketing support, onboarding plan	Business development	Within 3 days of qualifying
6	Negotiation	Terms agreed; rate parity and cancellation policy set	BD + finance	Within 10 days
7	Signed	Contract signed; PAN, GST and bank details collected	Legal & finance	Within 5 days of agreement
8	Onboarding	Photos, descriptions, amenities, rates, channel manager or API connected	Supply operations	Within 7 days of signing
9	Live	QA and a test booking passed; listing switched on and announced to marketing	Supply operations	Within 2 days of onboarding
10	Activated	First booking within 30 days of going live	Account manager	30 days
11	Growing	Monthly statements, promotions, quarterly reviews, more rooms and properties	Account manager	Ongoing

Yes or no

Property onboarding, decision by decision · gold = yes/no question · follow "yes" down, "no" to the right

Workflow

S1 · Property onboarding sales cycle · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Pick targets	Destinations and property types where demand exceeds supply.	Supply lead	Monthly	Target list
2	Contact and discover ⚡ Qualified? No → nurture list	Pitch, then learn rooms, rates, current OTAs and the decision-maker.	Business development	5-10 days	Discovery notes
3	Propose and negotiate ⚡ Terms agreed? No → revise once	Commission, payouts, parity, marketing support.	Business development	3-10 days	Agreed terms
4	Contract and documents	E-sign; PAN, GST, bank and ownership details.	Legal & finance	5 days	Signed supplier
5	Build the listing	Content, rates, availability, channel manager or API.	Supply operations	7 days	Listing ready

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
6	QA and go live ♦ Passed QA? No → fix list	Checks and a test booking, then switch on.	Supply operations	2 days	Live listing
7	Activate	Watch for a first booking; boost if none.	Account manager	30 days	First booking
8	Grow	Statements, promotions, quarterly reviews.	Account manager	Monthly / quarterly	More inventory

KPIs

Sales cycle length	Median days from first contact to signed contract
Contact-to-qualified rate	$\text{Qualified} \div \text{contacted} \times 100$
Win rate	$\text{Signed} \div \text{qualified leads closed} \times 100$
Time to live	Median days from signing to live listing
Activation rate	$\text{Live listings with a booking within 30 days} \div \text{listings gone live} \times 100$
Cost to acquire a supplier	$\text{Supply team and outreach cost} \div \text{suppliers signed}$

Benchmark: Booking.com lets a property register, get reviewed and go live itself, then manage rates and availability in its partner extranet. Vacario pairs a similar self-serve portal with a named account manager, because personal help is how a new platform wins owners from established ones.

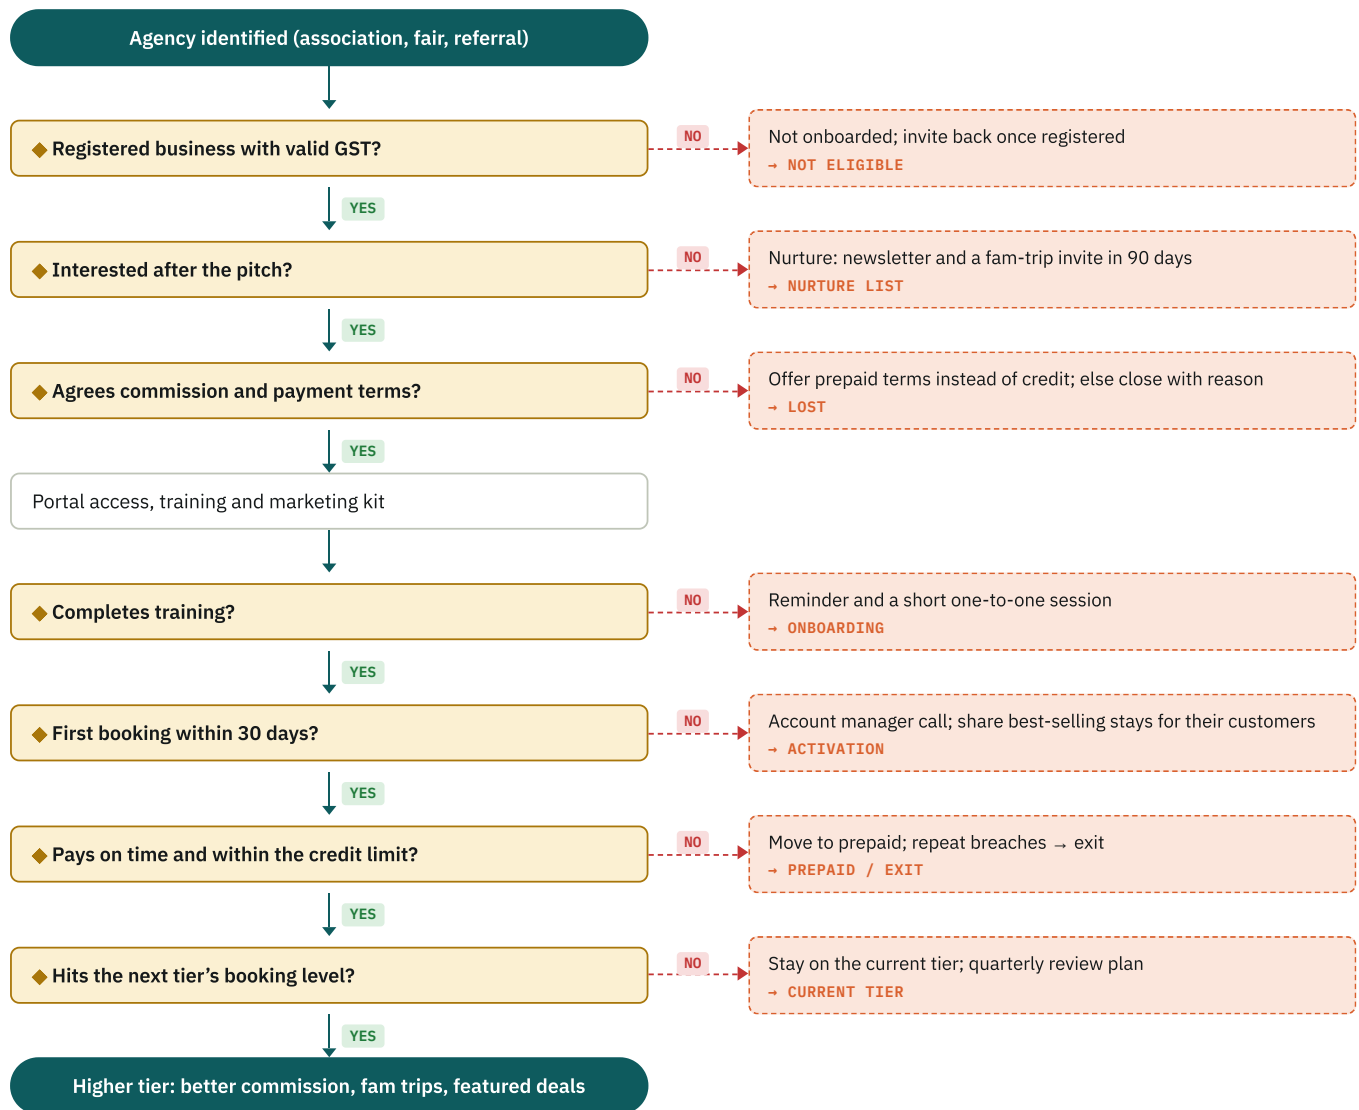

S2 · Travel agency partner lifecycle

Many Indian travellers, especially in tier-2 and tier-3 cities and for families, groups and pilgrimages, still book through a local travel agent. Recruiting agents to sell Vacario stays for a commission (a B2B2C channel) reaches them without Vacario paying for each customer up front. This lifecycle takes an agency from first contact to a productive, loyal partner.

Stages

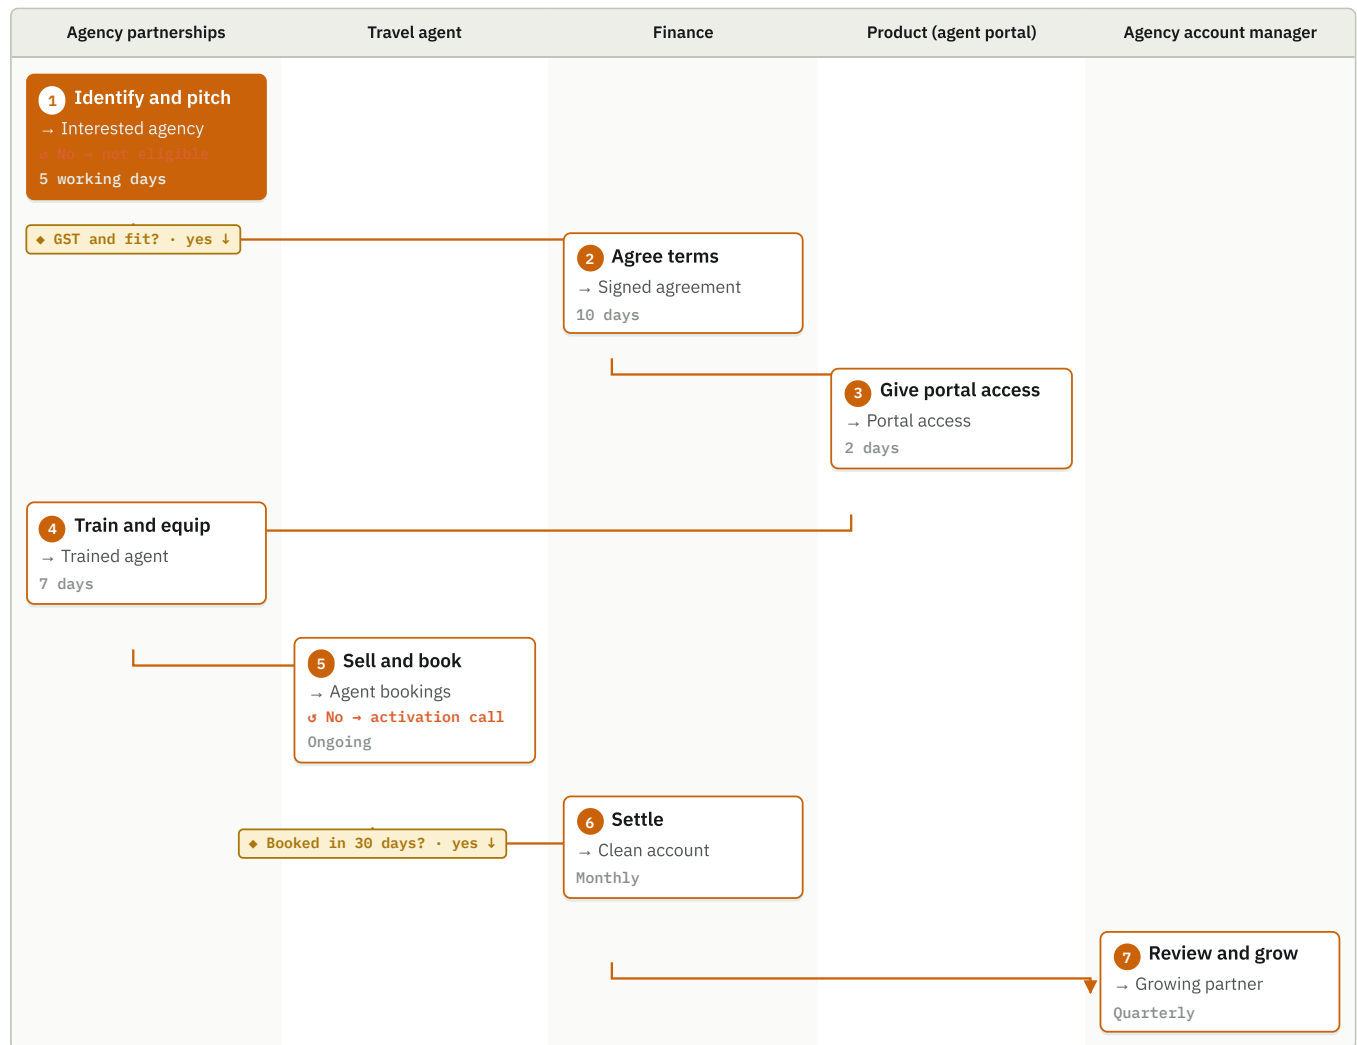

#	STAGE	DEFINITION	OWNER	TIME ALLOWED
1	Identify	Agencies found through travel-agent associations, trade fairs, referrals and search, prioritised by region and customer type	Agency partnerships	Monthly target list
2	Outreach	Pitch: inventory, commission, easy booking portal, marketing support	Agency partnerships	Within 5 working days
3	Qualify	Registered business with GST, active customer base, fits Vacario's regions and segments	Agency partnerships	At first meeting
4	Agreement	Commission tiers, payment terms (prepaid or credit limit), brand-use rules	Partnerships + finance	Within 10 days
5	Onboard	Agent portal login, training session, marketing kit, first-booking incentive	Agency partnerships	Within 7 days of signing
6	Activate	First booking through the portal	Agency account manager	Within 30 days
7	Grow	Tiered commission, familiarisation ("fam") trips, co-branded campaigns, featured deals	Agency account manager	Monthly
8	Review	Quarterly performance review: bookings, cancellations, payments, feedback	Agency account manager	Quarterly
9	Retain or exit	Renew and move up a tier, or exit agencies with poor payment or conduct records	Partnerships + finance	Annually

Yes or no

A travel agency partner, decision by decision · gold = yes/no question · follow "yes" down, "no" to the right

Workflow

S2 · Travel agency partner lifecycle · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Identify and pitch ♦ GST and fit? No → not eligible	Associations, fairs, referrals; pitch inventory and commission.	Agency partnerships	5 working days	Interested agency
2	Agree terms	Commission tiers, prepaid or credit limit, brand rules.	Finance	10 days	Signed agreement
3	Give portal access	Login, agent rates, booking and commission view.	Product (agent portal)	2 days	Portal access
4	Train and equip	Training session, marketing kit, first-booking incentive.	Agency partnerships	7 days	Trained agent
5	Sell and book ♦ Booked in 30 days? No → activation call	Agent books stays for customers through the portal.	Travel agent	Ongoing	Agent bookings
6	Settle	Collect payments, pay commission monthly, watch credit limits.	Finance	Monthly	Clean account
7	Review and grow	Quarterly review, tier moves, fam trips, co-branded campaigns.	Agency account manager	Quarterly	Growing partner

KPIs

Active agents	Agents with at least one booking in the last 90 days
Agent activation rate	$\text{Agents booking within 30 days} \div \text{agents onboarded} \times 100$
Agent booking share	$\text{Bookings through agents} \div \text{all bookings} \times 100$
Bookings per active agent	$\text{Agent bookings} \div \text{active agents (monthly)}$
Commission cost per booking	$\text{Commission paid to agents} \div \text{agent bookings}$
Days sales outstanding	Average days agents take to pay

Benchmark: Expedia’s Travel Agent Affiliate Program (TAAP) gives travel agencies their own booking platform with agent rates and tiered commission paid monthly, and serves tens of thousands of agencies. Vacario’s agent portal follows the same model, starting with regional agencies in its priority states.

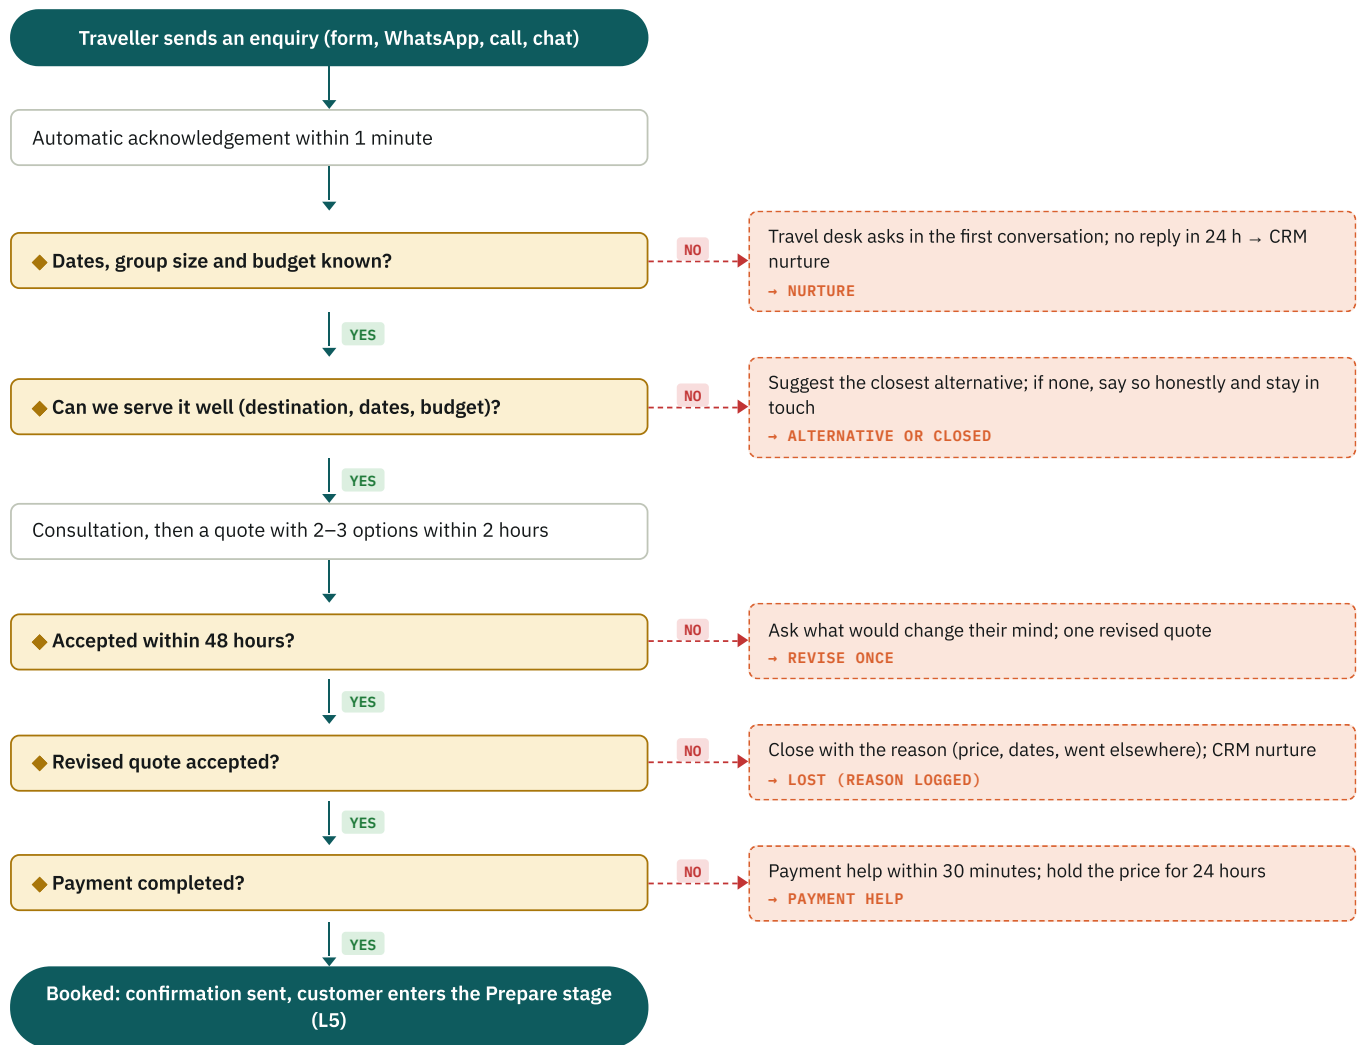

S3 · Enquiry-to-booking sales cycle

Campaigns, creators, WhatsApp and the website generate enquiries from travellers who want help: a family trip, a honeymoon, a group, a package. These are warm leads; the difference between a fast, personal answer and a slow one is usually the booking. Workflow W1 captures and routes every lead; this cycle is what the travel desk does next.

Stages

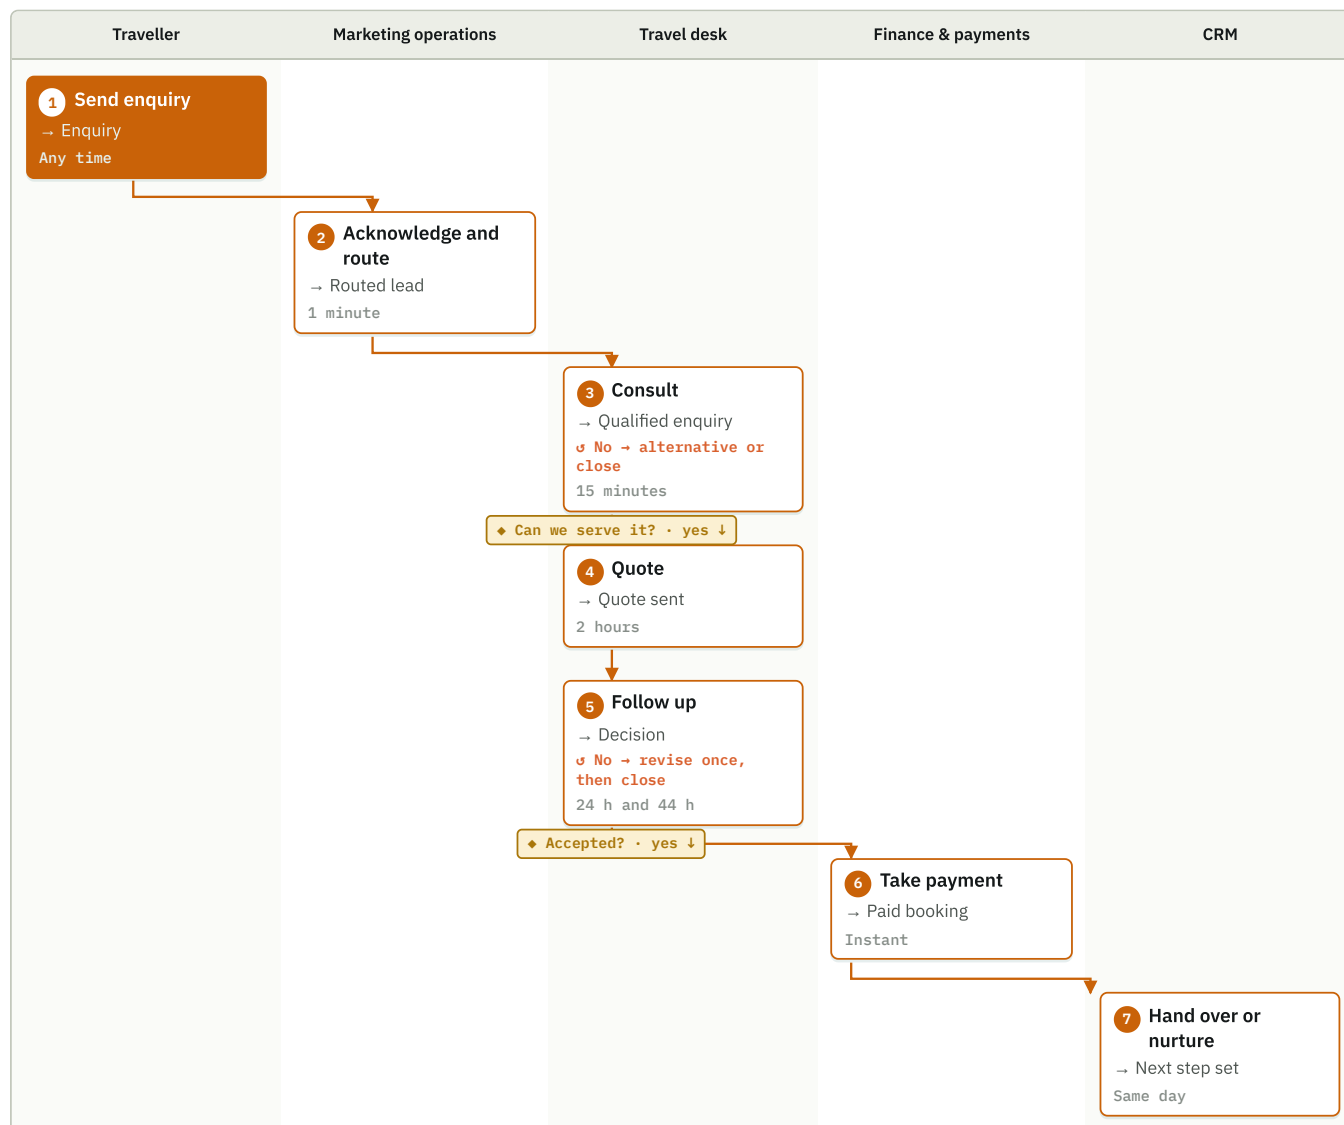

#	STAGE	DEFINITION	OWNER	TIME ALLOWED
1	Enquiry	Traveller asks through a form, WhatsApp, call, chat or social message	Traveller	Any time
2	Acknowledged	Automatic reply confirming receipt and when a person will call	Marketing operations	Within 1 minute
3	Qualified	Dates, group size, budget, destination and occasion captured	Travel desk	First conversation
4	Consultation	A travel expert calls or chats to understand what would make the trip great	Travel desk	Within 15 minutes in working hours
5	Quote	Itinerary with 2–3 options and an all-in price, valid for 48 hours	Travel desk	Within 2 hours
6	Follow-up	Answer questions, adjust options, remind before the quote expires	Travel desk	At 24 and 44 hours
7	Decision	Traveller accepts, asks for changes, or declines	Traveller	Within 48 hours
8	Booked	Payment link paid; confirmation sent; handed to the customer lifecycle (Prepare)	Travel desk + finance	Instant after payment
9	Closed or nurtured	Lost enquiries closed with a reason; open ones nurtured by CRM	CRM	Same day

Yes or no

An enquiry, decision by decision · gold = yes/no question · follow "yes" down, "no" to the right

Workflow

S3 · Enquiry-to-booking sales cycle · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Send enquiry	Form, WhatsApp, call, chat or social message.	Traveller	Any time	Enquiry
2	Acknowledge and route	Auto-reply; lead record; routed by W1.	Marketing operations	1 minute	Routed lead
3	Consult ♦ Can we serve it? No → alternative or close	Call or chat; capture dates, group, budget, occasion.	Travel desk	15 minutes	Qualified enquiry
4	Quote	2–3 options, all-in prices, valid 48 hours.	Travel desk	2 hours	Quote sent
5	Follow up ♦ Accepted? No → revise once, then close	Answer questions, adjust, remind before expiry.	Travel desk	24 h and 44 h	Decision
6	Take payment	Payment link; help if it fails.	Finance & payments	Instant	Paid booking
7	Hand over or nurture	Booked → Prepare stage; lost → reason and nurture.	CRM	Same day	Next step set

KPIs

Enquiries by source	Count of enquiries per source (ads, creators, WhatsApp, web, referrals)
Response time	Median minutes from enquiry to first human reply
Enquiry-to-quote rate	$\text{Quotes sent} \div \text{enquiries} \times 100$
Quote-to-booking rate	$\text{Bookings} \div \text{quotes sent} \times 100$
Time to quote	Median hours from enquiry to quote
Cost per enquiry	$\text{Spend on enquiry-generating campaigns} \div \text{enquiries}$

Benchmark: Indian OTAs’ corporate and holiday products route enquiries to dedicated teams and use conversational assistants (MakeMyTrip’s Myra) to move from question to payment in one conversation. Vacario’s enquiry cycle uses a person for the consultation and quote, with WhatsApp as the main thread.

NEW LINE · ADDED

Corporate travel: business trips and MICE

Corporate travel is a different customer from a leisure traveller. The company pays, an employee travels, a travel manager or HR team sets the policy, a manager approves exceptions, and finance needs GST-compliant invoices and monthly reports. It comes in two forms: business trips (individual travel for work) and MICE (meetings, incentives, conferences and exhibitions: groups and events). It is not one of the seven channels in the plan, and it is different from the plan’s Corporate Communications channel, which speaks to investors, media and government. It is proposed here as a new line that draws on Supply (hotels, venues), Consumer (the traveller’s experience), Lifecycle (account renewal) and Internal (approvals and reporting).

Who is involved

Travel manager / admin	Sets the policy, owns the account, wants control and savings
Traveller (employee)	Wants an easy, comfortable trip and quick help
Approver (manager)	Wants to approve exceptions quickly and see why
Finance / accounts	Wants correct GST invoices, one monthly statement, spend reports
Event owner (MICE)	Wants a successful event on budget with no surprises
Vacario account manager	Owns the relationship, reviews and renewal
Vacario corporate desk	Books, changes and supports trips 24/7

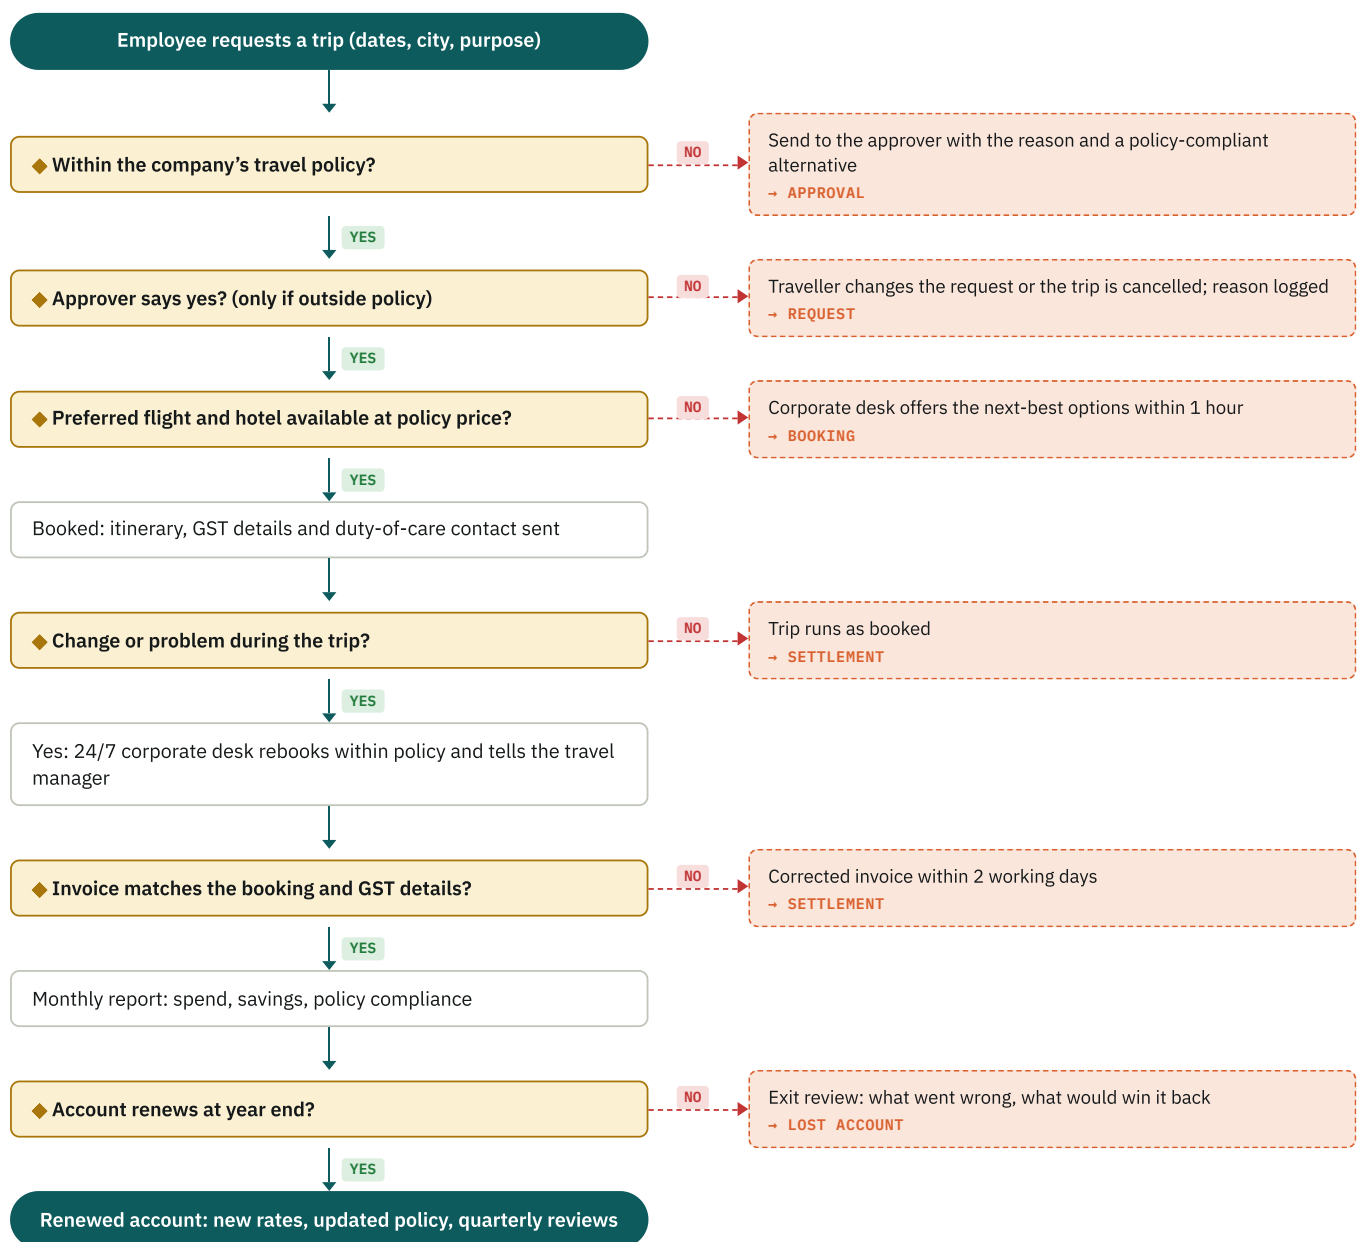

The business-trip lifecycle

#	STAGE	DEFINITION	OWNER	TIME ALLOWED
B1	Account setup	Company signs; travel policy, approvers, GST details and billing loaded	Account manager	Within 10 working days of signing
B2	Request	Employee asks for a trip through the app, email or the corporate desk	Traveller	Any time
B3	Policy check	Request checked against the policy (fare class, hotel cap, advance booking)	Corporate desk	Instant (automatic) or 1 hour
B4	Approval	Only trips outside policy go to the approver, with the reason and a compliant alternative	Approver	Within 4 working hours

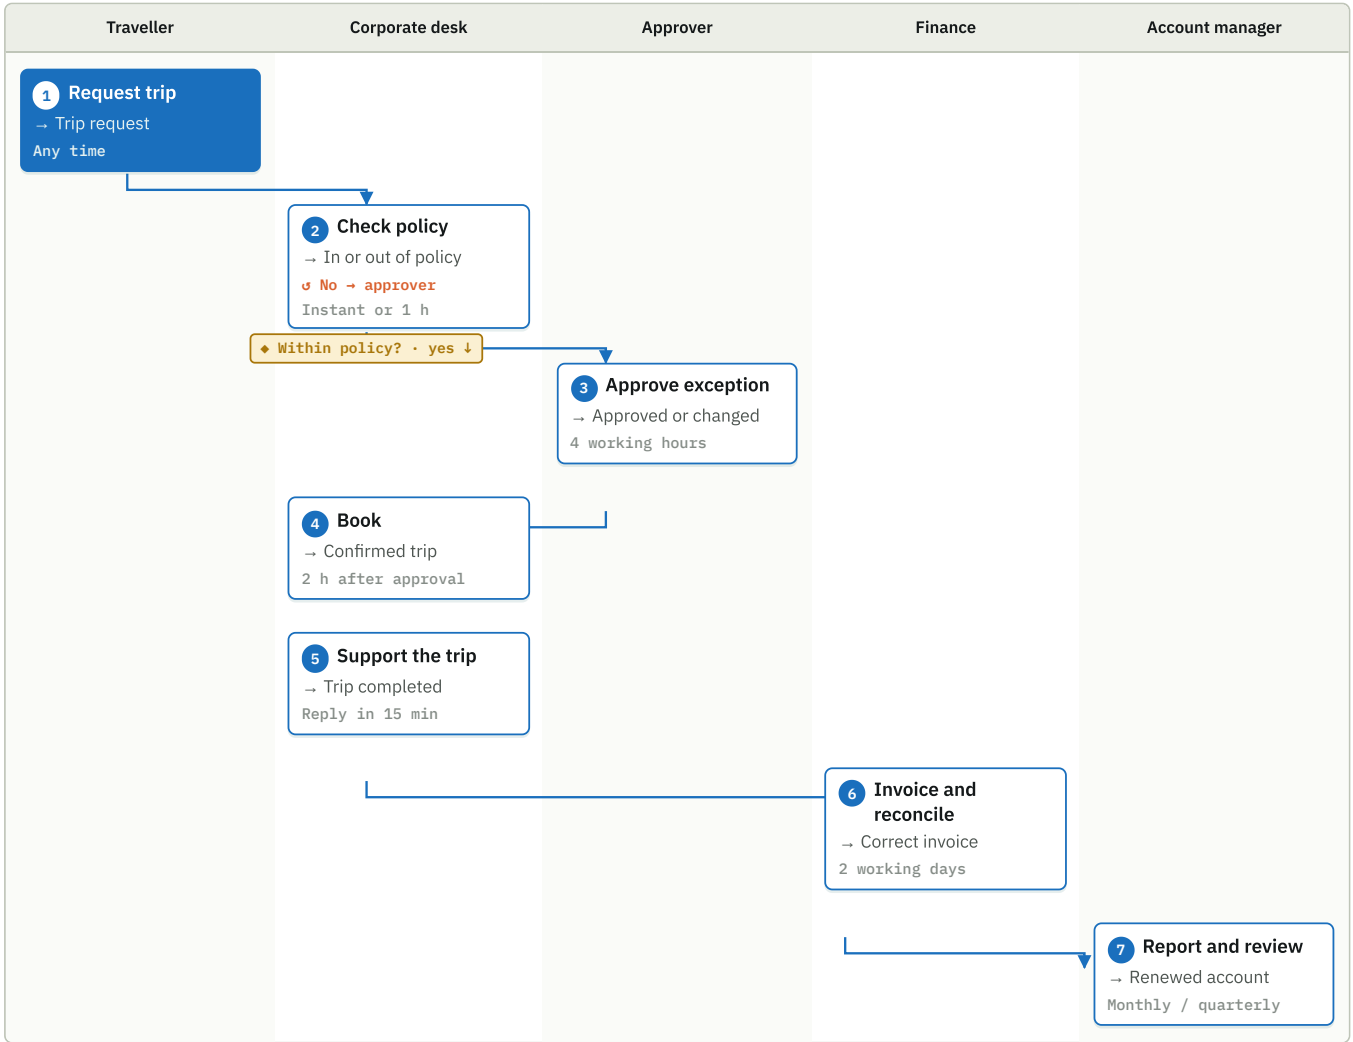

#	STAGE	DEFINITION	OWNER	TIME ALLOWED
B5	Booking	Flights, hotel and transfers booked; itinerary and GST details confirmed	Corporate desk	Within 2 hours of approval
B6	Pre-trip	Itinerary, local contacts, duty-of-care information and travel advisories	Corporate desk	T-2 and T-1
B7	In-trip support	24/7 help with delays, changes and problems; travel manager kept informed	Corporate desk	Reply within 15 minutes
B8	Settlement	GST invoice per trip, monthly consolidated statement, expense data	Finance	Invoice within 2 working days of check-out
B9	Reporting	Monthly spend, savings, policy compliance, traveller feedback	Account manager	By day 5 of each month
B10	Review and renewal	Quarterly business review; rates and policy updated; annual renewal	Account manager	Quarterly; renewal 60 days early

Business trip, yes or no

A business trip, decision by decision · gold = yes/no question · follow “yes” down, “no” to the right

Business-trip workflow (W8)

W8 · Business trip · one column per team

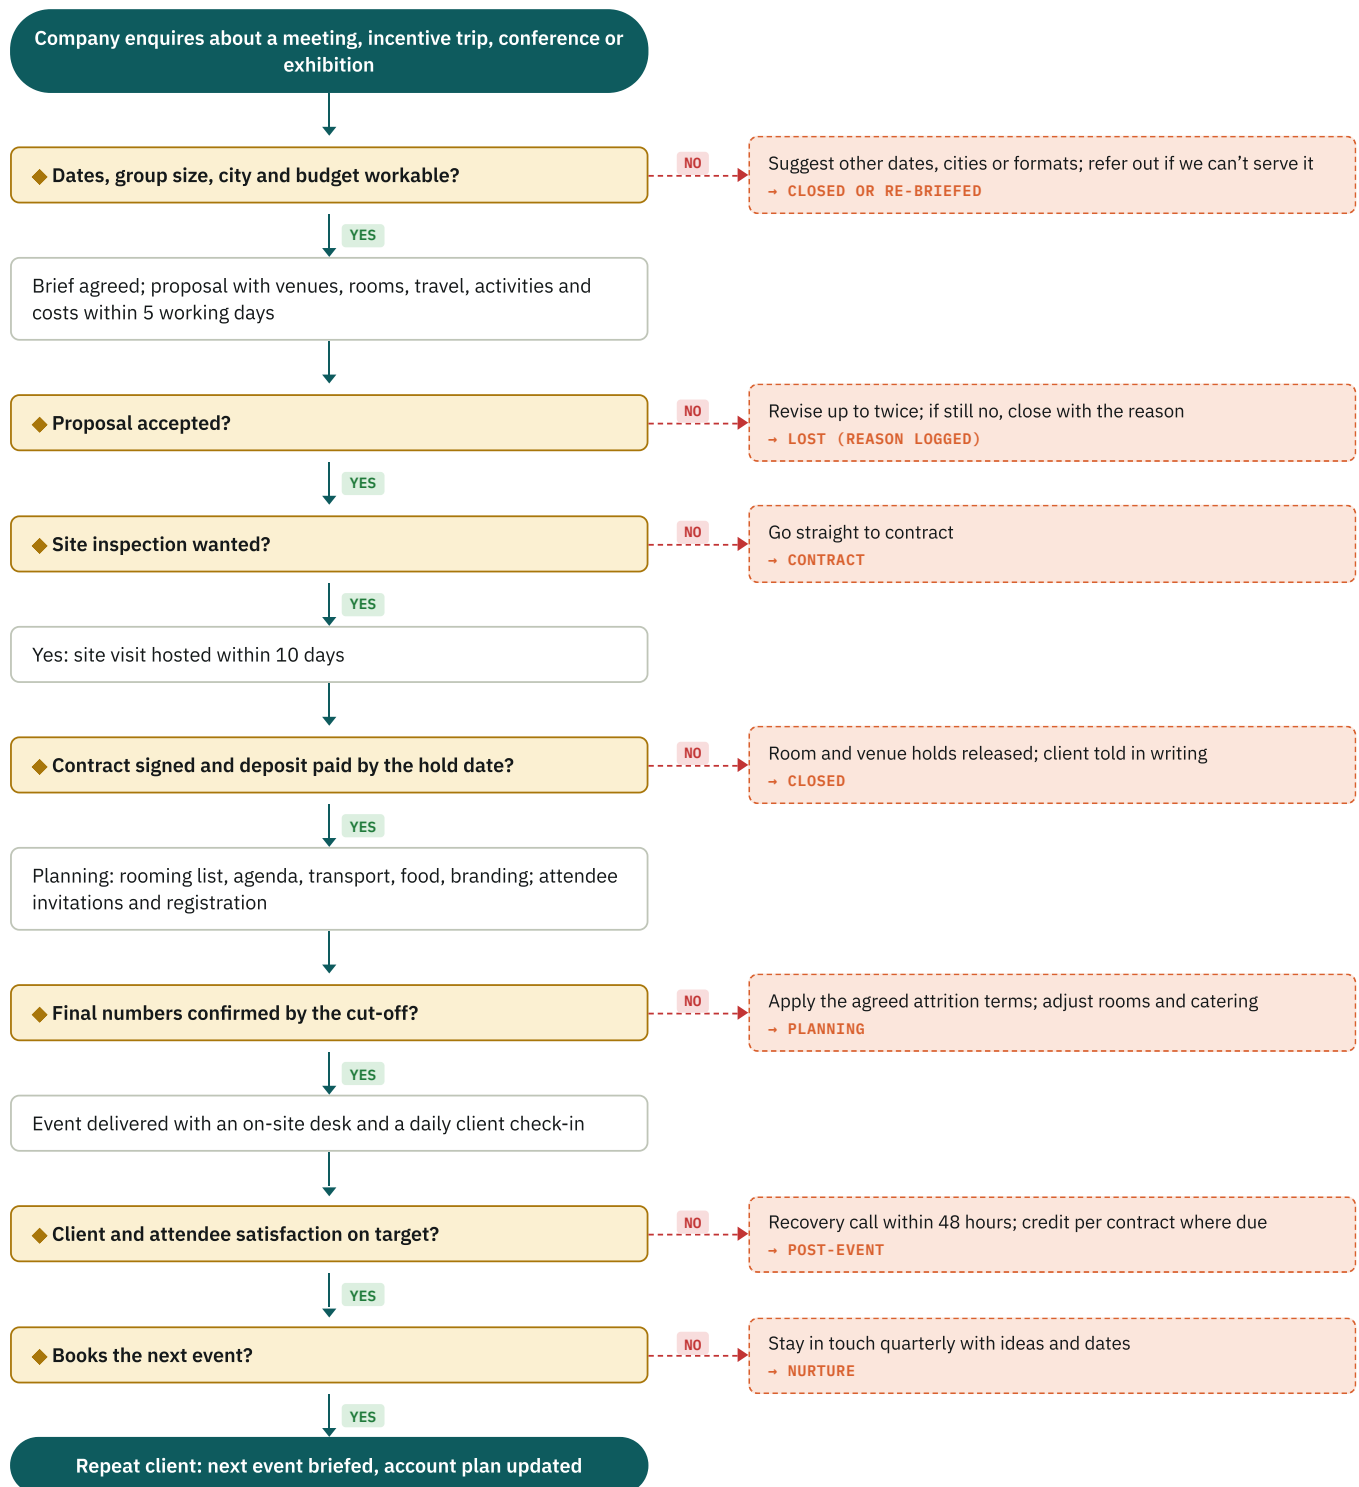

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Request trip	Dates, city and purpose through app, email or desk.	Traveller	Any time	Trip request
2	Check policy ⚡ Within policy? No → approver	Fare, hotel cap, advance booking checked.	Corporate desk	Instant or 1 h	In or out of policy
3	Approve exception	Approver sees reason and a compliant alternative.	Approver	4 working hours	Approved or changed
4	Book	Flights, hotel, transfers; itinerary with GST details.	Corporate desk	2 h after approval	Confirmed trip
5	Support the trip	Pre-trip info, 24/7 changes and help.	Corporate desk	Reply in 15 min	Trip completed
6	Invoice and reconcile	GST invoice per trip; monthly statement.	Finance	2 working days	Correct invoice
7	Report and review	Spend, savings, compliance; quarterly review; renewal.	Account manager	Monthly / quarterly	Renewed account

The MICE event lifecycle

MICE covers meetings, incentive trips, conferences and exhibitions: groups travelling for a company event. It is longer, higher-value and more complex than a business trip, with contracts, deposits and cut-off dates.

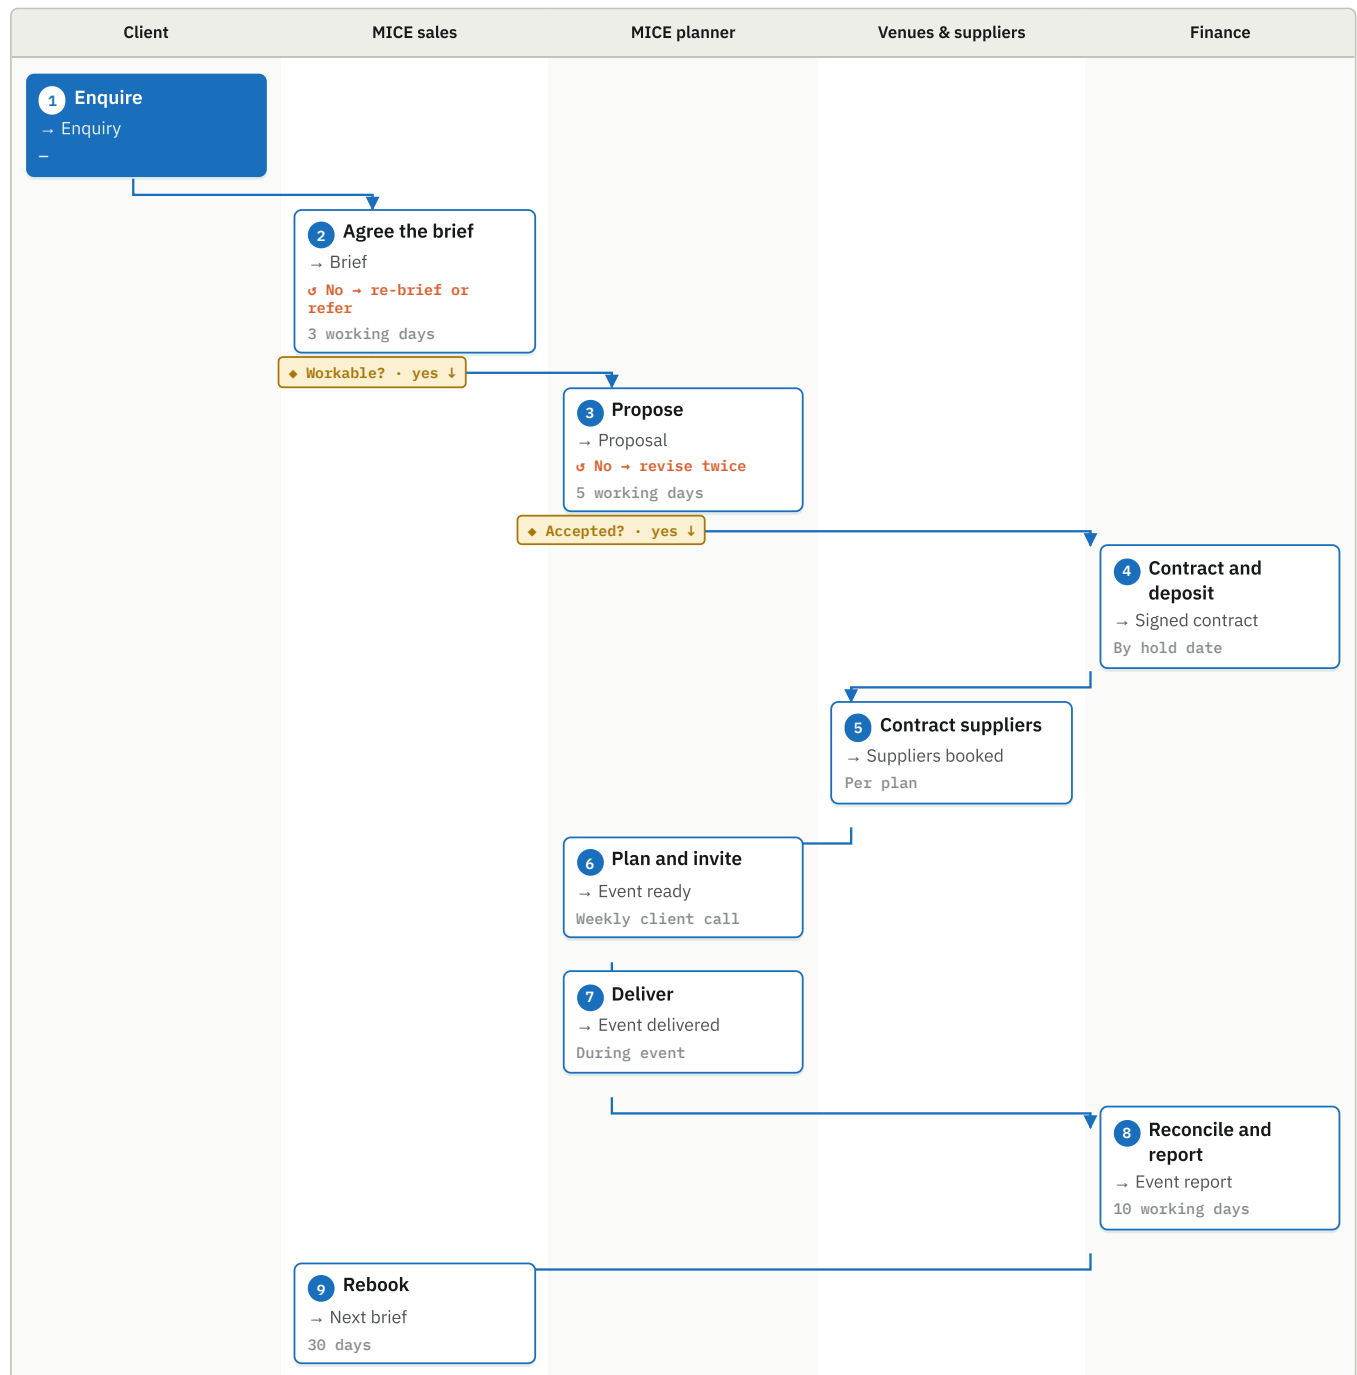

#	STAGE	DEFINITION	OWNER	TIME ALLOWED
M1	Enquiry	Company asks about a meeting, incentive trip, conference or exhibition	MICE sales	Reply within 1 working day
M2	Brief	Objectives, dates, group size, city options, budget, format, special needs	MICE sales	Brief agreed within 3 working days
M3	Feasibility	Can we deliver it well? Venues, rooms, flights and dates checked	MICE planner	2 working days
M4	Proposal	Venues, rooms, travel, activities, food, branding and full costs	MICE planner	Within 5 working days of the brief
M5	Site inspection	Optional visit to shortlisted venues with the client	MICE planner	Within 10 days of request
M6	Contract and deposit	Contract, payment schedule, cancellation and attrition terms; deposit paid	MICE sales + finance	By the hold date
M7	Planning	Rooming list, agenda, transport, food and drink, AV, branding, suppliers contracted	MICE planner	Weekly client call until the event
M8	Attendee communications	Invitations, registration, itineraries, reminders, on-site information	CRM + MICE planner	From 6 weeks before
M9	Event delivery	On-site desk, daily client check-in, live fixes	Event manager	During the event
M10	Post-event	Reconciliation, final invoice, attendee survey, photos and report	Finance + MICE planner	Report within 10 working days
M11	Rebook	Debrief, ideas for the next event, account plan updated	MICE sales	Within 30 days

MICE event, yes or no

A MICE event, decision by decision · gold = yes/no question · follow "yes" down, "no" to the right

MICE workflow (W9)

W9 · MICE event · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Enquire	Meeting, incentive, conference or exhibition.	Client	–	Enquiry
2	Agree the brief ♦ Workable? No → re-brief or refer	Goals, dates, size, budget, city, format.	MICE sales	3 working days	Brief
3	Propose ♦ Accepted? No → revise twice	Venues, rooms, travel, activities, full costs.	MICE planner	5 working days	Proposal
4	Contract and deposit	Payment schedule, attrition, cancellation.	Finance	By hold date	Signed contract

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
5	Contract suppliers	Venue, hotels, transport, AV, food.	Venues & suppliers	Per plan	Suppliers booked
6	Plan and invite	Rooming list, agenda, attendee comms.	MICE planner	Weekly client call	Event ready
7	Deliver	On-site desk, daily client check-in.	MICE planner	During event	Event delivered
8	Reconcile and report	Final invoice, survey, photos, report.	Finance	10 working days	Event report
9	Rebook	Debrief and next-event ideas.	MICE sales	30 days	Next brief

Corporate travel KPIs

LINE	KPI	FORMULA
Business trips	Active corporate accounts	Accounts with at least one trip this month
Business trips	Policy compliance	Trips within policy ÷ all trips × 100
Business trips	Approval time	Median working hours from request to approval (exceptions only)
Business trips	Savings vs benchmark	(Benchmark fare or rate – price paid) ÷ benchmark × 100
Business trips	Invoice accuracy	Invoices correct first time ÷ invoices × 100
Business trips	Account renewal rate	Accounts renewed ÷ accounts up for renewal × 100
MICE	Enquiry-to-proposal time	Median working days from enquiry to proposal
MICE	Proposal win rate	Proposals accepted ÷ proposals sent × 100
MICE	Event margin	(Event revenue – event cost) ÷ event revenue × 100
MICE	Attendee satisfaction	Satisfied attendees ÷ survey answers × 100
MICE	Repeat clients	Clients booking a second event within 12 months ÷ clients × 100

08

BENCHMARKS · ADDED

What we learn from leading travel platforms

Each flow in this document was checked against how India’s and the world’s leading online travel companies run the same moment: MakeMyTrip, Cleartrip, Yatra, EaseMyTrip, Booking.com, Expedia and Airbnb. We borrow what works and keep what makes Vacario different.

FLOW	WHERE	WHAT THEY DO	WHAT VACARIO DOES
Discovery and planning MakeMyTrip	L1–L2	Myra, MakeMyTrip’s AI assistant, takes a traveller from search to a paid booking in one conversation, by voice or text, in eight languages including Telugu and Hindi. MakeMyTrip reports over 45% of its use coming from tier-2 and smaller cities.	Offer planning and booking help on WhatsApp and in-app in Telugu, Hindi and English from launch; brief regional-language creators so discovery happens in the traveller’s own language.
Price transparency EaseMyTrip	L2–L4	Built its brand on “zero convenience fee” flight bookings, which earned trust and repeat use.	Show all-in prices from the first screen; no fee appears for the first time at checkout. Make it a Trust message in Consumer communications.
Loyalty Booking.com · Expedia · MakeMyTrip	L8–L9	Booking.com Genius has three levels earned by number of bookings (5 and 15 within two years) and keeps them for life. Expedia’s One Key pays OneKeyCash across Expedia, Hotels.com and Vrbo, with tiers based on trip elements rather than spend. MMTBLACK rewards MakeMyTrip’s highest-value customers (Gold and Platinum tiers, by trips and spend in 12 months) with upgrades and priority support.	Keep tiers simple and based on trips, so occasional travellers can progress; points work like cash on the next booking; the top tier gets a priority help line. Tie tier moves to the Repeat and Advocate stages.
Reviews Booking.com · Airbnb	L7	Booking.com only accepts reviews from guests who booked through it and stayed or arrived. Airbnb uses double-blind reviews: host and guest each have 14 days after check-out, and neither sees the other’s review until both are in or the window closes.	Verified-stay reviews only; for homestays, two-way reviews with a 14-day double-blind window; partners may reply publicly; negative reviews trigger service recovery (W4, W5).
Service recovery Airbnb	L6	AirCover for guests promises a comparable or better stay, or a refund, if the host cancels or the guest cannot check in and the host cannot fix it; issues are reported within 72 hours.	A “Vacario Assurance” promise in the Trust pillar: a human reply in 15 minutes during a trip, a fix within 2 hours, otherwise a comparable stay or refund (W5).
Supplier quality Airbnb	Supply	Superhost status is reviewed every quarter on the last 12 months: at least a 4.8 rating, 10 stays (or 3 stays totalling 100 nights), 90% response rate and under 1% cancellations.	A quarterly “Top Partner” badge with published criteria (proposed: 4.6+ rating, 98%+ availability accuracy, under 1% supplier cancellations, reply within 24 hours), rewarded with better placement.
Partner self-service Booking.com · Expedia Group	Supply	Both run partner portals where hotels manage rates, availability, reviews and payments, with help centres that explain every process.	A partner portal plus a named account manager for every partner in the first year; the monthly statement is the key message of the Supply channel.
Business trips MakeMyTrip myBiz · Cleartrip · EaseMyTrip	Corporate	MakeMyTrip’s myBiz offers configurable approvals, policy-based options, assured GST invoices and expense integrations. Flipkart-owned Cleartrip entered corporate travel with its “Out of Office” product. EaseMyTrip has served businesses (B2E) since 2013.	Business-trip flow: policy check first, approvals only for exceptions, GST invoice per trip and a monthly statement, 24/7 desk. Start with SMEs where speed and simplicity matter most.
MICE Yatra	Corporate	Yatra bought corporate-travel company Globe All India Services in 2024, adding about 360 corporate clients and strong MICE capability, calling MICE a fast-growing segment.	Treat MICE as a planned line: start with small meetings and incentive trips delivered through Vacario’s supply partners, using the MICE lifecycle and its yes/no checkpoints.

Public information checked in September 2026 (sources in the appendix). Other companies change their programmes; confirm details before quoting them outside the company.

09

CHANNEL 01

Consumer Communications

Consumer communications is how Vacario finds travellers, turns them into bookers and brings them back. It spends most of the marketing budget, so every step has to show what it returns.

Paid advertising, earned media, creator content, social channels, CRM/email, WhatsApp/SMS, push notifications, referral programmes and loyalty communications.

FROM THE PLAN

AUDIENCES

TravellersProspectsPast guests

OBJECTIVES

- Grow app users and first bookings at a falling cost per booking
- Turn every trip into a review and a piece of content
- Make repeat and referral bookings a growing share of the total

HOW THE WORKFLOW RUNS

Paid ads, press and creator content bring people to the app. From sign-up, CRM takes over: a welcome series learns what each person wants, and reminders bring back anyone who searched without booking. Once they book, messages switch from selling to helping: confirmation, trip preparation and support during the stay. After checkout the traveller is asked for a review and a referral, and after 30 days they move to Lifecycle, where the aim is the next booking.

Key messages

Discover

Inspiring destinations and real stays, chosen for how Indians travel now.

“Your next long weekend starts here.”

Trust

Verified stays, clear prices, instant confirmation and help within minutes.

“What you see is what you get, and we’re a message away.”

Rewards

Member prices, referral credit and loyalty points that add up.

“Book twice, and the third one is on your points.”

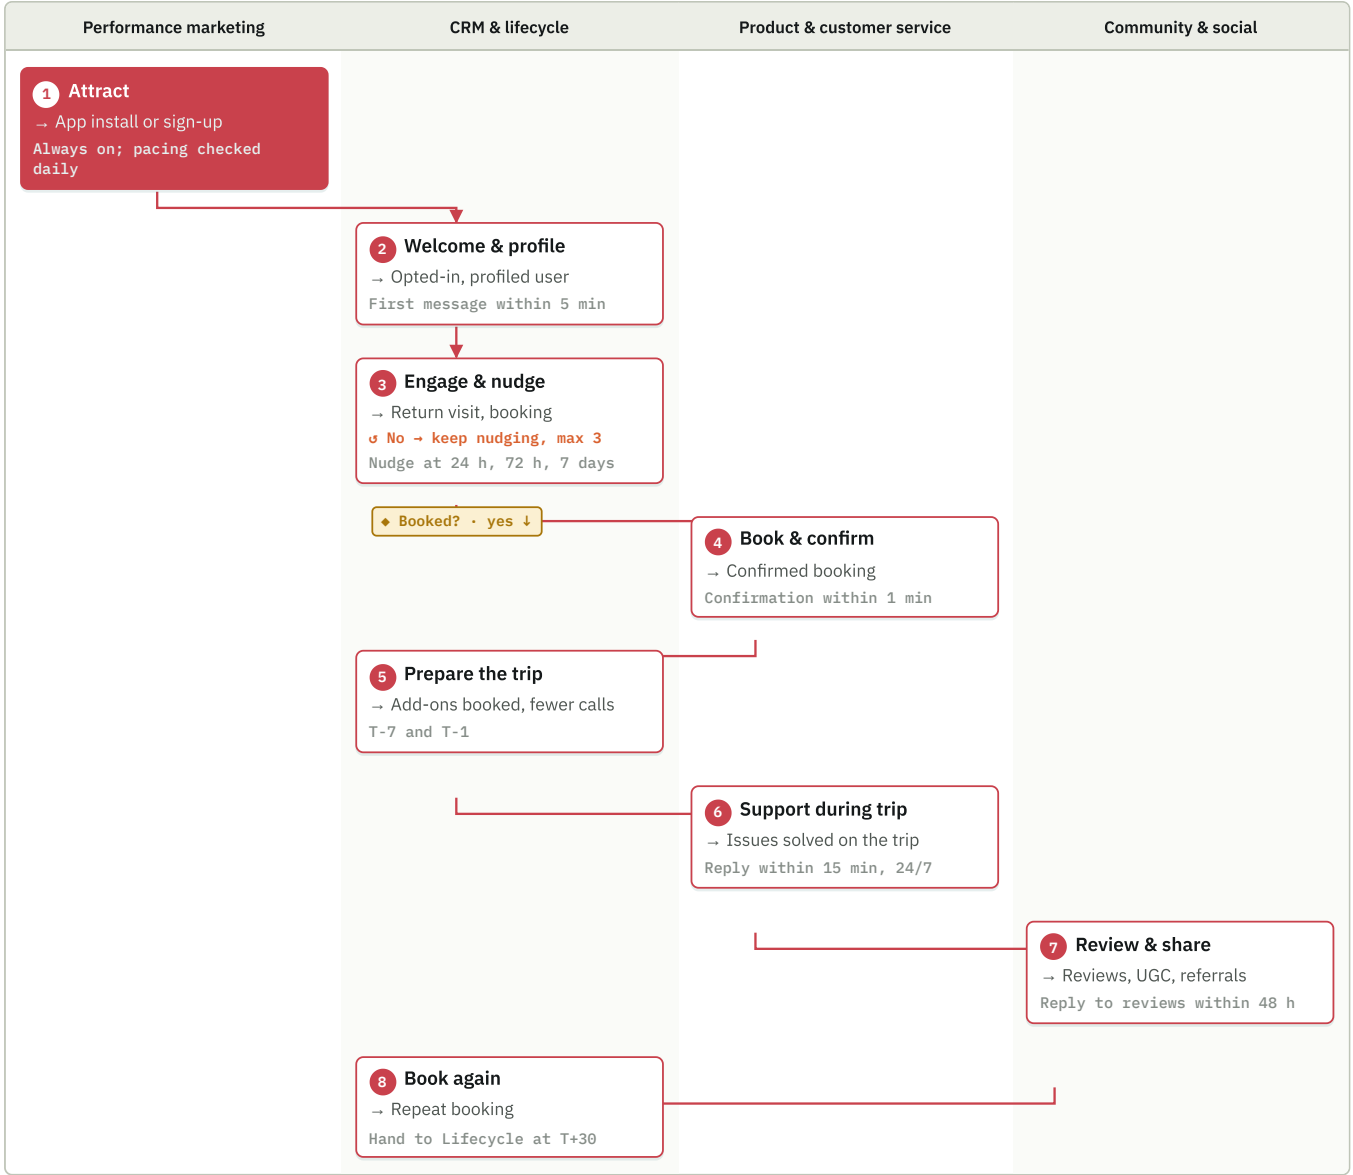

Tone: Warm, confident, plain. Local languages where we can.

Tactics and touchpoints

Paid search and shopping	Capture people already searching for destinations and stays
Paid social and video	Inspire and retarget on Meta and YouTube
Earned media	Stories about new destinations and the India-first launch
Creator content	Reused in ads, CRM and the in-app feed
CRM: email, WhatsApp, SMS, push	Welcome, nudges, confirmations, trip preparation
Referral and loyalty	Turn happy guests into the next bookings

The workflow

8 steps, from attract to book again. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

01 · Consumer Communications workflow · one column per team

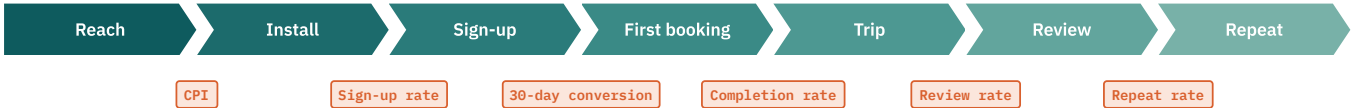

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Attract	- Set monthly spend by channel from the budget model - Run search, Meta, YouTube and app-install campaigns by destination - Point PR and creator content to tagged landing pages (UTM) Starts when: Monthly media plan	Performance marketing	Always on; pacing checked daily	App install or sign-up
2	Welcome & profile	- Day 0 welcome email and push - Preference quiz: destinations, budget, travel group, language - Ask WhatsApp and push consent; day 3 first-booking offer Starts when: Sign-up	CRM & lifecycle	First message within 5 min	Opted-in, profiled user
3	Engage & nudge ⚡ Booked? No → keep nudging, max 3	- Personal deals and destination content from profile - Abandoned search and cart reminders - Price-drop and festival alerts Starts when: Search or cart with no booking in 24 h	CRM & lifecycle	Nudge at 24 h, 72 h, 7 days	Return visit, booking

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
4	Book & confirm	- One message with itinerary, GST invoice and support contact - Add trip to in-app wallet - Flag high-value bookings for a welcome call Starts when: Payment success	Product & customer service	Confirmation within 1 min	Confirmed booking
5	Prepare the trip	- Check-in details, directions, weather - Offer experiences from Destination & Merchant - Packing and local tips content Starts when: 7 days and 1 day before arrival	CRM & lifecycle	T-7 and T-1	Add-ons booked, fewer calls
6	Support during trip	- Live WhatsApp and in-app chat - Hand in-trip offers to Destination & Merchant - Log every issue for supplier follow-up Starts when: Check-in date	Product & customer service	Reply within 15 min, 24/7	Issues solved on the trip
7	Review & share	- Rating and review request - Invite photos and short video for the in-app feed - Send referral link with credit for both sides Starts when: 1 day after checkout	Community & social	Reply to reviews within 48 h	Reviews, UGC, referrals
8	Book again	- Credit loyalty points - Next-trip ideas from past trip - Festival and long-weekend offers Starts when: Review received or 30 days after trip	CRM & lifecycle	Hand to Lifecycle at T+30	Repeat booking

Lead flow

The stages people or partners move through in this channel, with the conversion measured between each. A weak conversion shows which workflow step to fix first.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Cost per install (CPI) What one app install from paid ads costs. The first check on whether ad money is buying people at a sensible price.	Paid media spend ÷ Installs from paid campaigns	Weekly	Leading	Performance marketing
Sign-up rate The share of people who install the app and then create an account. A low rate means onboarding asks too much too early.	Sign-ups ÷ Installs × 100	Weekly	Leading	Product
Opt-in rate The share of new users who allow WhatsApp or push messages. Without opt-in, the CRM steps cannot reach them.	Users opted into WhatsApp or push ÷ Sign-ups × 100	Weekly	Leading	CRM

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
30-day booking conversion Of the people who signed up in a month, how many booked within 30 days. The main test of whether the Welcome and Engage steps work.	First bookings within 30 days of sign-up ÷ Sign-ups in the same month (cohort) × 100	Monthly	Leading	CRM
Blended CAC The full cost to win one paying customer: all marketing spend, including creators and content, divided by new customers. The same measure as cost per booking in the budget engine.	Total marketing spend ÷ New booking customers	Monthly	Lagging	Marketing lead
Average booking value The average value of one booking. Multiplied by completed bookings it gives the north star.	Gross booking value (GBV) ÷ Number of bookings	Monthly	Lagging	Marketing lead
Review rate The share of completed trips that leave a review. Reviews build trust for the next traveller and supply content for the feed.	Reviews received ÷ Completed trips × 100	Monthly	Leading	Community & social
Referral share How much of the business comes from guests recommending Vacario. Referral bookings have almost no media cost.	Bookings from referral links or credits ÷ All bookings × 100	Monthly	Lagging	CRM
12-month repeat rate The share of customers who booked two or more times in the last 12 months. The cheapest booking is from a past guest.	Customers with 2+ bookings in 12 months ÷ Customers who booked in the same 12 months × 100	Quarterly	Lagging	CRM

Worked example

Priya in Hyderabad sees a Reel about a Coorg homestay and taps the link (1). She installs the app and picks “hills, family, under ₹8,000” in the welcome quiz (2). She searches but does not book; next day a WhatsApp reminder shows a price drop (3) and she books (4). A week before arrival she gets directions and a coffee-plantation tour offer (5). She messages support about a late check-in and gets a reply in minutes (6). After checkout she leaves a review and sends her referral link to her sister (7). A month later she gets Diwali trip ideas and books again (8).

Rules that keep it working

- Every campaign link carries tracking tags, so each booking can be traced to its source.
- No more than one marketing message a day per person across all touchpoints.
- WhatsApp and SMS go only to people who have opted in.
- Service messages (confirmation, trip details) always go out, even to people who opted out of marketing.

Warning signs

- Installs rise but bookings do not:** Check sign-up rate and 30-day conversion before adding ad spend.
- Guests stop opening messages:** Cut frequency and base content on the preference quiz, not generic deals.
- Bad reviews after a stay:** Send to Supply the same day; fix the property before promoting it again.

Comes in from	Creator: content for ads, feed and CRM · Supply: new inventory and destinations to promote
Hands off to	Destination & Merchant: in-trip offers during the stay · Lifecycle: guests after the trip for loyalty and win-back
Review rhythm	Daily: paid campaign pacing · Weekly: CRM send plan and results · Monthly: channel mix vs. budget model

10

CHANNEL 02

Supply Communications

Supply communications brings in the rooms and stays that travellers book. Without accurate inventory in the right places, no amount of marketing produces bookings. The audience is business owners, so the messages are about revenue, reliability and ease.

A B2B acquisition and relationship-management channel. Its messaging differs from consumer advertising: commission, reach, payout reliability and ease of listing.

FROM THE PLAN

AUDIENCES

Property owners Property managers Hotels Travel suppliers

OBJECTIVES

- Build bookable inventory in the priority destinations
- Shorten the time from first contact to live listing
- Keep availability and pricing accurate so bookings do not fail

HOW THE WORKFLOW RUNS

Each month the supply lead compares what travellers search for with what Vacario can sell and names the gaps. Business development contacts suitable owners, hotels and managers and qualifies them. Finance and legal agree terms and sign. Supply operations builds and checks the listing, makes a test booking and switches it on. From then on, operations keeps prices and availability accurate every day, and an account manager sends monthly results and meets the best partners each quarter to add more inventory.

Key messages

New demand

Travellers from across India looking for stays like yours.

“Fill your quiet weeks with guests who want exactly what you offer.”

Fair and fast

Clear commission, no hidden fees, payouts on the agreed date.

“Know what you earn, and get it on time.”

Easy

Listing help, channel-manager and API connections, one account manager.

“We set it up with you, and one person looks after you.”

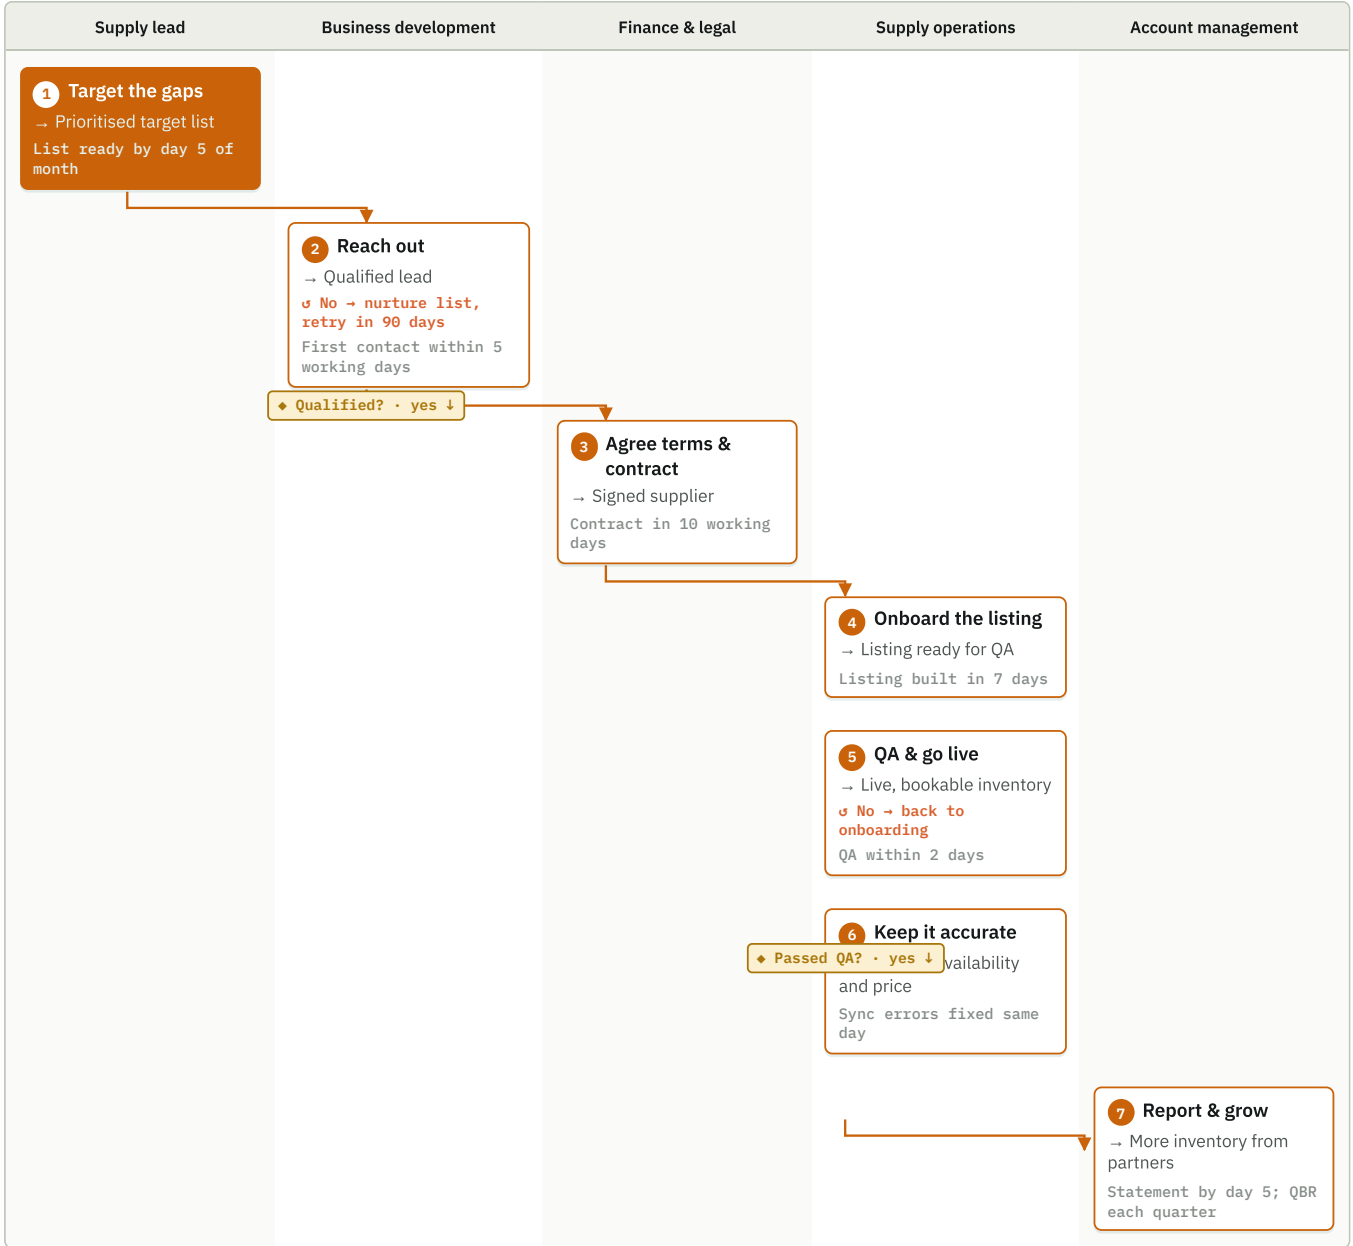

Tone: Businesslike, specific, respectful of the owner’s time.

Tactics and touchpoints

Direct outreach	Calls, email and LinkedIn to target properties
Associations and trade events	Hotel associations, travel fairs
Referrals from partners	Existing partners introduce neighbours
Partner portal	Self-serve updates, statements and promotions
Monthly statements	Results that show the value of staying
Quarterly reviews	Grow inventory with the best partners

The workflow

7 steps, from target the gaps to report & grow. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

02 · Supply Communications workflow · one column per team

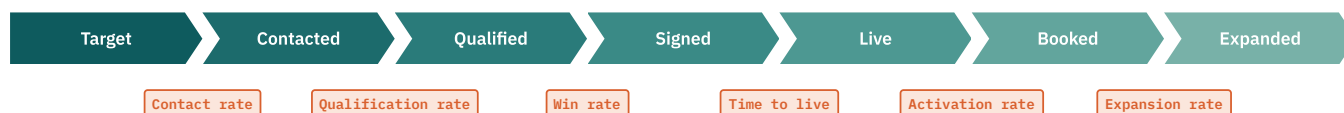

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Target the gaps	- Compare search demand with live inventory by destination - Rank property types and price bands with gaps - Set monthly signing targets per destination Starts when: Monthly demand review	Supply lead	List ready by day 5 of month	Prioritised target list
2	Reach out ♦ Qualified? No → nurture list, retry in 90 days	- Pitch: new Indian demand, commission, payout speed, marketing support - Calls, email, LinkedIn, hotel associations, trade fairs - Qualify on quality, location, API or channel manager Starts when: Target list approved	Business development	First contact within 5 working days	Qualified lead
3	Agree terms & contract	- Commission, cancellation policy, rate parity - Collect registration, PAN and GST documents - E-sign agreement, set payout details Starts when: Partner agrees in principle	Finance & legal	Contract in 10 working days	Signed supplier

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
4	Onboard the listing	- Photos, descriptions, amenities - Connect channel manager or API - Load rates, availability and policies Starts when: Contract signed	Supply operations	Listing built in 7 days	Listing ready for QA
5	QA & go live ♦ Passed QA? No → back to onboarding	- Check content, prices and policies - Make a test booking end to end - Switch on and announce to marketing Starts when: Listing complete	Supply operations	QA within 2 days	Live, bookable inventory
6	Keep it accurate	- Monitor sync errors and stale calendars - Check rate parity against other sites - Invite partners into seasonal promotions Starts when: Daily sync report	Supply operations	Sync errors fixed same day	Accurate availability and price
7	Report & grow	- Monthly performance statement per partner - Quarterly review with top partners - Ask for more rooms, dates and properties Starts when: Month end, quarter end	Account management	Statement by day 5; QBR each quarter	More inventory from partners

Lead flow

The stages people or partners move through in this channel, with the conversion measured between each. A weak conversion shows which workflow step to fix first.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Pipeline coverage Whether there are enough good leads to hit next month's signing target.	Qualified leads in the pipeline ÷ Monthly signing target	Weekly	Leading	Business development
Win rate The share of qualified leads that sign. Shows whether the pitch and terms work.	Suppliers signed ÷ Qualified leads × 100	Monthly	Leading	Business development
Time to live How long it takes from a signed contract to a bookable listing. Every day in between is inventory Vacario paid to win but cannot sell.	Median of (go-live date - contract date) for listings that went live this period	Weekly	Leading	Supply operations
Live listings by destination How much bookable inventory there is in each priority destination.	Count of listings that are live and bookable, per priority destination	Weekly	Lagging	Supply lead
Availability accuracy How often a booking goes through at the shown price and availability. Failed bookings lose the traveller and hurt trust.	(1 - Bookings that failed on availability or price ÷ Bookings attempted) × 100	Daily	Leading	Supply operations

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Supplier cancellation rate The share of bookings a supplier cancels. Each one strands a traveller and costs a rebooking.	Bookings cancelled by the supplier ÷ All bookings × 100	Monthly	Lagging	Account management
Rate parity Whether Vacario shows the same or better price than other sites for the same stay.	Listings at parity or better ÷ Listings checked × 100	Weekly	Leading	Supply operations
Bookings per live listing How productive the average listing is. Shows whether new inventory is in places travellers want.	Bookings in the month ÷ Live listings	Monthly	Lagging	Supply lead
Supplier satisfaction How happy partners are with Vacario, from a short quarterly survey.	Sum of scores ÷ number of responses (scale 1–10)	Quarterly	Lagging	Account management

Worked example

Search data shows many travellers looking for Munnar tea-estate stays but few listings **(1)**. BD calls ten estates and qualifies four **(2)**. Three sign on the standard commission, with GST documents collected **(3)**. Operations photographs one estate, connects its channel manager and loads rates **(4)**, then makes a test booking before switching it on **(5)**. A sync error one weekend is fixed the same day **(6)**. At month end the owner gets a statement showing 14 bookings and agrees to list a second cottage **(7)**.

Rules that keep it working

- No listing goes live without a successful test booking.
- Every partner has one named account manager.
- Payouts are made on the agreed date, every time.
- Rate parity is checked every week.

Warning signs

- Signed partners take weeks to go live:** Track time to live per listing; chase anything over 14 days.
- Bookings fail because rooms are not really free:** Move the partner to a channel manager or API and watch sync errors daily.
- Partners go quiet after signing:** Send the first monthly statement even with zero bookings, with a plan to change that.

Comes in from	Consumer: search demand and destination interest · Destination & Merchant: local introductions
Hands off to	Consumer: new inventory for campaigns · Internal: contract and inventory status in supply updates · Lifecycle: suppliers after go-live
Review rhythm	Daily: sync and parity exceptions · Weekly: pipeline review · Monthly: partner statements · Quarterly: top-partner reviews

CHANNEL 03

Creator Communications

Creators reach travellers who trust them more than ads. The plan treats creators as part of Vacario’s distribution: each has a link and a code, earns from bookings, and supplies content Vacario reuses.

The creator is not only an advertising medium. Creators become part of the Vacario distribution system, with their own links, content and bookings.

FROM THE PLAN

AUDIENCES

- Influencers
- Creators
- Campus ambassadors

OBJECTIVES

- Build a creator network that drives bookings, not only reach
- Keep content supply steady for the app feed and paid ads
- Pay creators on results they can see

HOW THE WORKFLOW RUNS

Each quarter the team finds creators who match target travellers by niche, region and language, and invites the best into the programme on one of three tiers. Onboarding gives them a kit, a tracking link and code, and the disclosure rules. For a campaign, the content lead briefs the trip and books the stay through Supply. Drafts are checked before posting. Social reshapes the posts and boosts the best as paid ads. Finance pays monthly from the attribution report, and the strongest creators move to long-term ambassador deals.

Key messages

Earn

Commission on every booking you drive, plus fees and hosted trips.

“Your audience books, you earn.”

Stories

Stays and destinations worth filming, with the details sorted.

“We handle the trip. You tell the story.”

Grow

Tiers, ambassador deals and early access to launches.

“The best creators help shape where we go next.”

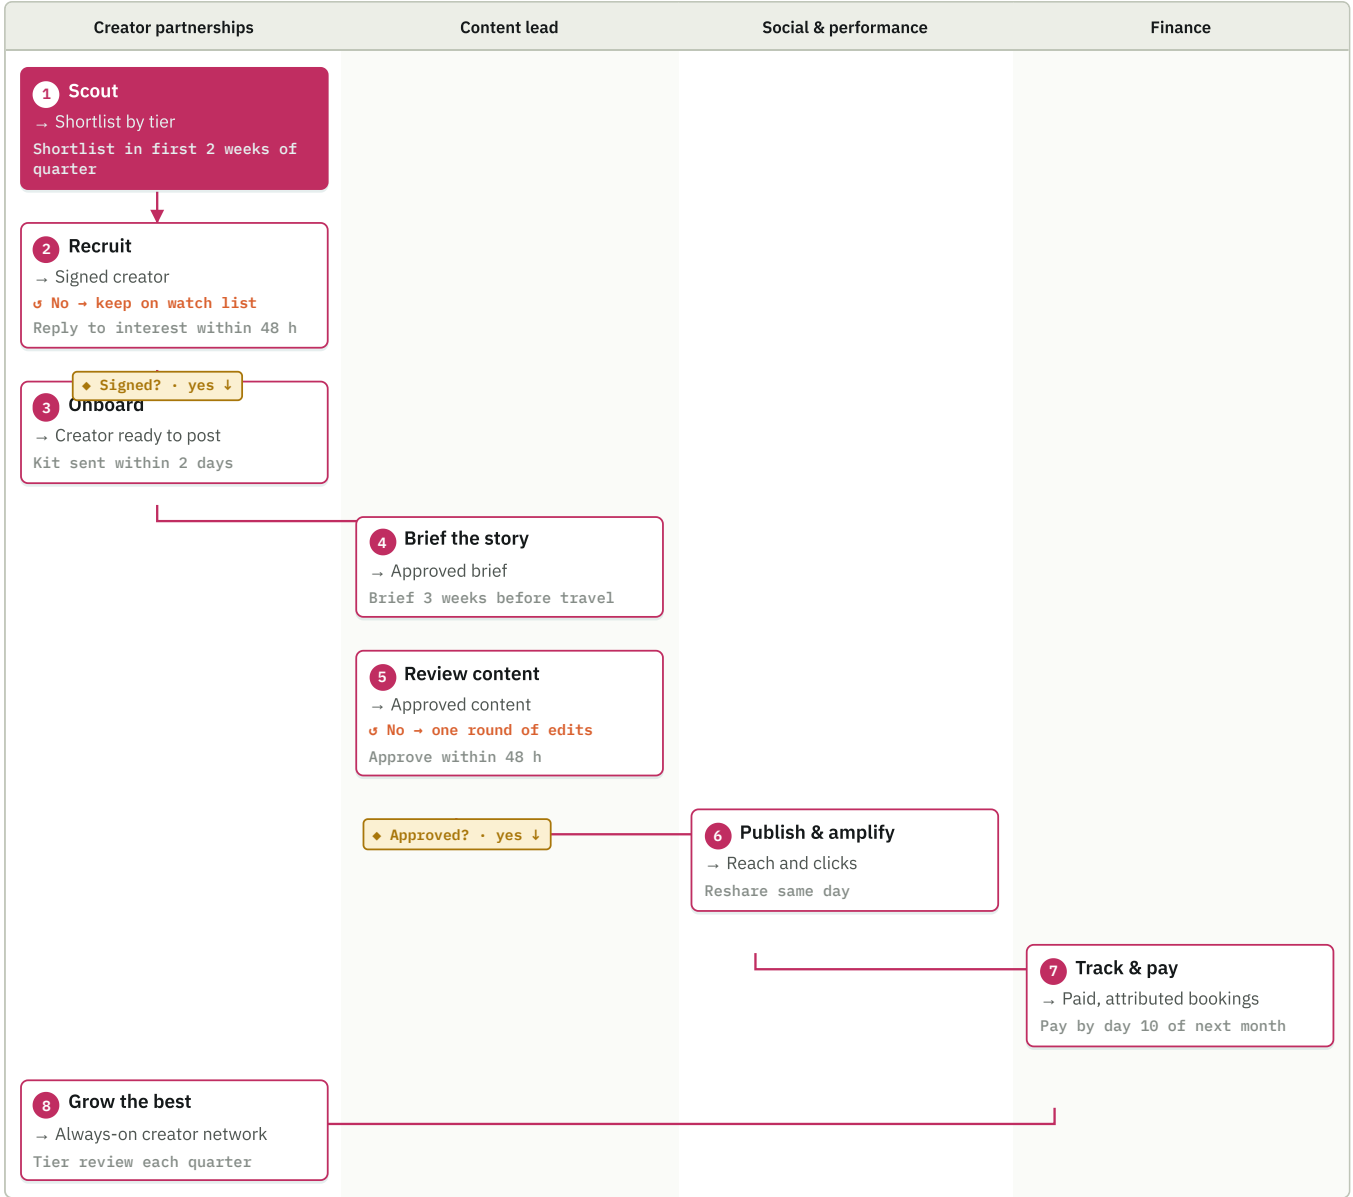

Tone: Friendly, collaborative, clear about money and rules.

Tactics and touchpoints

Scouting by language and region	Telugu, Hindi, Tamil and English creators
Creator programme	Tiers, links, codes, payouts
Hosted trips	Stays booked through Supply
Whitelisting	Best posts boosted as paid ads
Campus ambassadors	Students promoting group trips
Monthly statements	Clicks, bookings and earnings

The workflow

8 steps, from scout to grow the best. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

03 · Creator Communications workflow · one column per team

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Scout	- Search by travel niche, region and language (Telugu, Hindi, Tamil, English) - Check audience location and real engagement - Tier: nano, micro, macro Starts when: Quarterly creator plan	Creator partnerships	Shortlist in first 2 weeks of quarter	Shortlist by tier
2	Recruit ⚡ Signed? No → keep on watch list	- Invite to the creator programme - Offer: commission per booking, hosted trip or fixed fee - Agree usage rights for paid ads Starts when: Shortlist approved	Creator partnerships	Reply to interest within 48 h	Signed creator
3	Onboard	- Brand guidelines and tone - Unique tracking link and discount code - ASCI disclosure rules for paid and gifted posts Starts when: Agreement signed	Creator partnerships	Kit sent within 2 days	Creator ready to post

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
4	Brief the story	- Destination, property, dates, deliverables - Content calendar and key messages - Book the hosted stay through Supply Starts when: Campaign or destination launch	Content lead	Brief 3 weeks before travel	Approved brief
5	Review content ♦ Approved? No → one round of edits	- Check brand fit, facts and prices - Check disclosure label is present - Confirm link and code are correct Starts when: Draft received	Content lead	Approve within 48 h	Approved content
6	Publish & amplify	- Creator posts on agreed date - Reshare and add to in-app feed - Boost best posts as paid ads Starts when: Content approved	Social & performance	Reshare same day	Reach and clicks
7	Track & pay	- Attribute bookings to link and code - Monthly statement to each creator - Pay commission and fees Starts when: Month end	Finance	Pay by day 10 of next month	Paid, attributed bookings
8	Grow the best	- Move top performers to ambassador deals - Invite to launches and new destinations - Drop inactive creators Starts when: Quarterly review	Creator partnerships	Tier review each quarter	Always-on creator network

Lead flow

The stages people or partners move through in this channel, with the conversion measured between each. A weak conversion shows which workflow step to fix first.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Active creators by tier How many creators are actually posting, by size of audience.	Count of creators with at least one post in the last 30 days, by tier	Monthly	Leading	Creator partnerships
On-time delivery The share of agreed content that arrives on the agreed date.	Content delivered by the agreed date ÷ Content due × 100	Monthly	Leading	Content lead
Approval turnaround How fast Vacario approves creator drafts. Slow approvals delay posts and frustrate creators.	Median hours from draft received to approval	Weekly	Leading	Content lead
Engagement rate How strongly a creator's audience reacts to a post. A better guide to influence than follower count.	Likes + comments + saves + shares ÷ Reach (unique accounts that saw the post) × 100	Per post	Leading	Social
Link clicks How many people went from creator content to Vacario.	Sum of clicks on all creator tracking links in the period	Weekly	Leading	Social

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Attributed bookings Bookings Vacario can trace to a creator through their link or code.	Bookings made through a creator link (within 30 days of the click) + bookings using a creator code	Monthly	Lagging	Creator partnerships
Cost per attributed booking What it costs to get one booking through creators. The creator equivalent of CAC.	Creator fees + commission + hosted trip costs ÷ Attributed bookings	Monthly	Lagging	Creator partnerships
Disclosure compliance The share of paid or gifted posts with a correct disclosure label. Required under ASCI guidelines; the target is 100%.	Paid or gifted posts with a correct label ÷ Paid or gifted posts × 100	Monthly	Leading	Content lead
Creator retention How many creators who were active last quarter are still active this quarter.	Creators active in both quarters ÷ Creators active last quarter × 100	Quarterly	Lagging	Creator partnerships

Worked example

The team finds a Telugu travel creator with 80,000 engaged followers in Andhra Pradesh and Telangana (1) and signs her on the micro tier with commission per booking (2). She gets her link, the code VAC-ANU and the disclosure rules (3). The brief is a monsoon weekend in Araku Valley, booked through a supply partner (4). Her draft is approved in a day (5). The Reel posts, is reshared and boosted (6). Her code brings 22 bookings and she is paid on the 10th (7). After two strong quarters she becomes an ambassador (8).

Rules that keep it working

- Every paid or gifted post carries a clear disclosure label, in line with ASCI guidelines.
- Creators are paid on time from the monthly statement.
- Usage rights for paid ads are agreed before content is made.
- One review round only, so creators keep their own voice.

Warning signs

- **Big reach, no bookings:** Judge creators on cost per attributed booking, not followers.
- **Content late or off-brief:** Brief three weeks before travel; confirm deliverables in writing.
- **Posts missing the disclosure label:** Do not approve until the label is present.

Comes in from

Supply: hosted stays · Consumer: campaign themes and destinations

Hands off to

Consumer: content for ads, CRM and app feed · Lifecycle: creator onboarding and renewal track

Review rhythm

Weekly: content calendar and approvals · Monthly: attribution and payouts · Quarterly: tier review and scouting

12

CHANNEL 04

Destination & Merchant Communications

Most travel apps go quiet once the stay is booked. This channel keeps Vacario useful during the trip, with things to do, places to eat and offers nearby, and earns extra revenue from each trip.

Lets Vacario talk to the traveller through the whole trip, instead of disappearing once the stay or flight is booked.

FROM THE PLAN

AUDIENCES

- Tourism boards
- Attractions
- Restaurants
- Experiences
- Local merchants

OBJECTIVES

- Stay in contact with the traveller through the whole trip
- Add revenue per trip from experiences and local offers
- Win tourism board co-marketing and sponsorship

HOW THE WORKFLOW RUNS

For each priority destination the team maps the tourism board, attractions, restaurants and experience operators. Tourism boards are offered co-marketing and traveller insight; merchants are offered visitors who are already in town. Each offer has clear terms and a code or QR for redemption. Content builds guides and offer cards in the app. CRM puts offers in the pre-trip message and sends timely suggestions during the stay. Redemptions are recorded, partners are settled monthly and offers are refreshed before each season.

Key messages

Reach

Visitors already in your town, at the moment they are choosing what to do.

"Guests nearby, looking for tonight's plan."

Results

Every redemption counted and visible to you.

"You see the same numbers we do."

Partnership

Co-marketing with a platform growing across India.

"Grow with the next generation of travel."

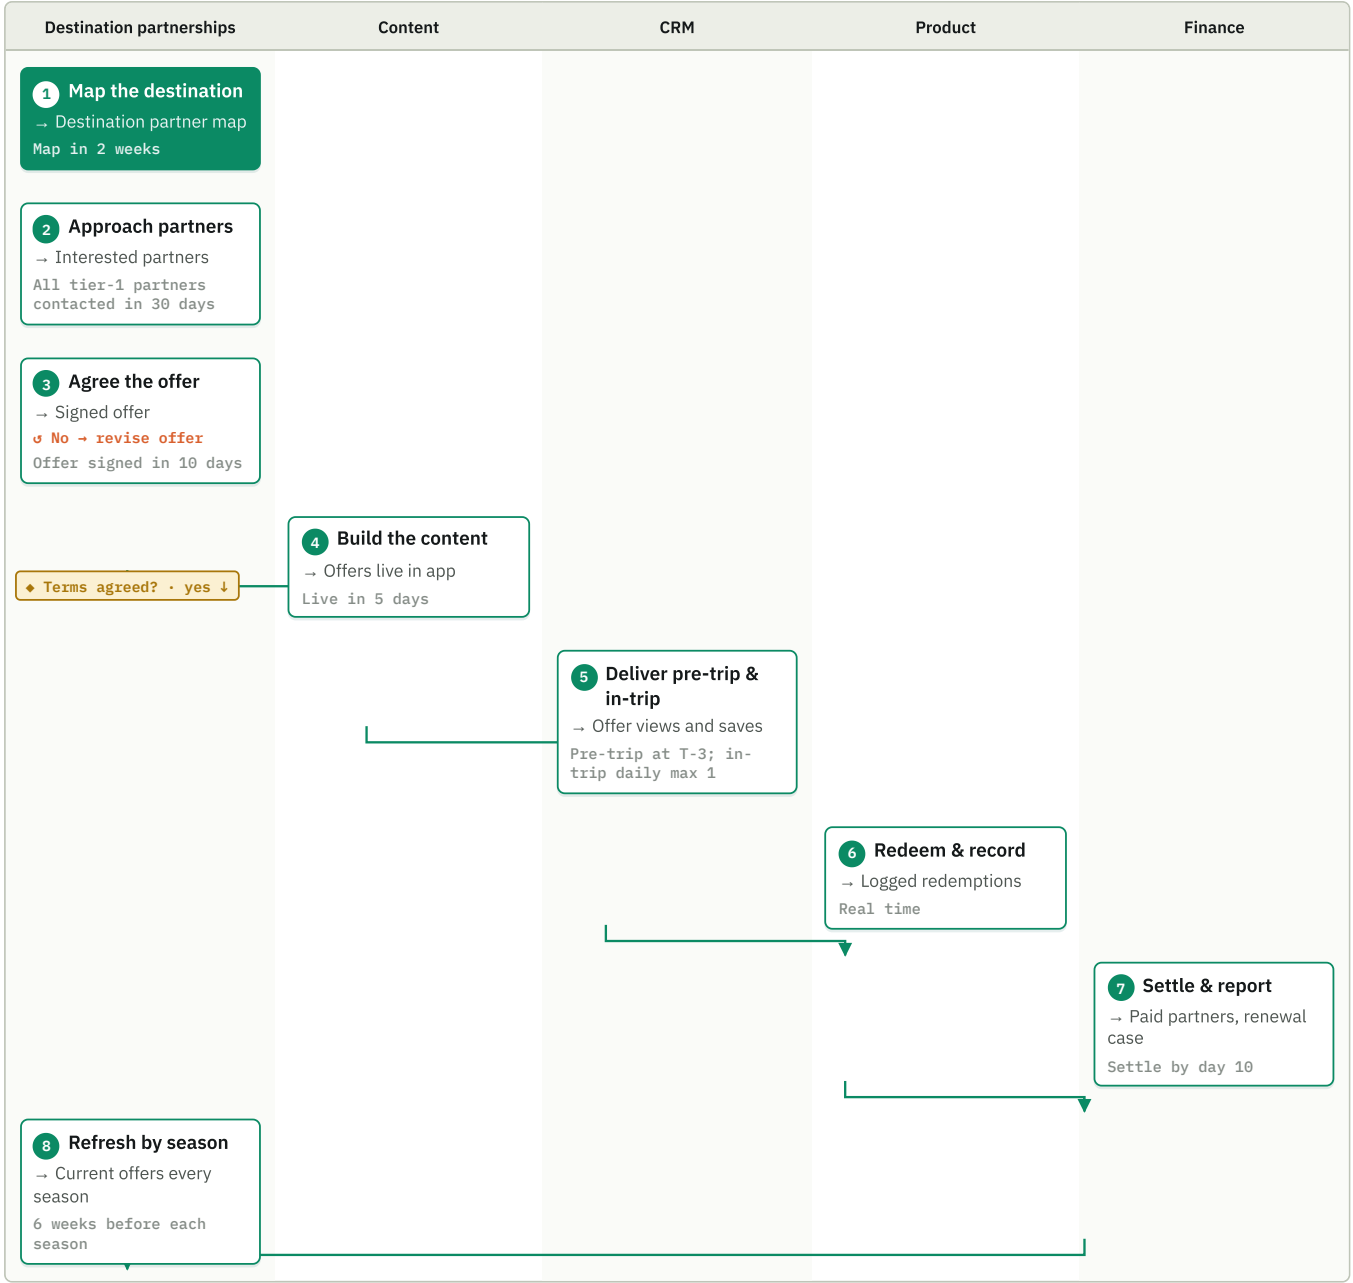

Tone: Local, practical, partnership-minded.

Tactics and touchpoints

Destination mapping	Tourism boards, attractions, restaurants, experiences
Offer programme	Codes and QR redemption
In-app guides	Itineraries and offer cards
Pre-trip and in-trip messages	Timely offers, one a day at most
Tourism board campaigns	Co-funded and reported
Seasonal refresh	Festivals, winter, summer, monsoon

The workflow

8 steps, from map the destination to refresh by season. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

04 · Destination & Merchant Communications workflow · one column per team

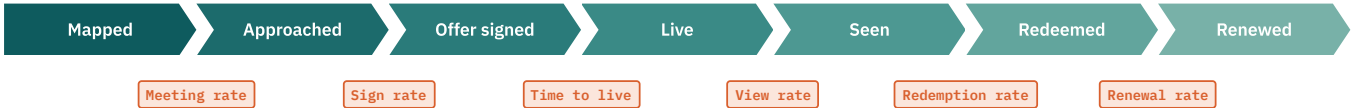

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Map the destination	- Tourism board and state tourism department - Top attractions, restaurants, experience operators - Merchants useful to visitors Starts when: Destination added to plan	Destination partnerships	Map in 2 weeks	Destination partner map
2	Approach partners	- Tourism boards: co-marketing and traveller insight - Merchants: reach visitors already in town - Local visits in priority cities Starts when: Map ready	Destination partnerships	All tier-1 partners contacted in 30 days	Interested partners
3	Agree the offer ◆ Terms agreed? No → revise offer	- Offer, validity dates, limits - Redemption by code or QR - Commission, sponsorship or co-funding Starts when: Partner agrees	Destination partnerships	Offer signed in 10 days	Signed offer

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
4	Build the content	- Destination guide and itineraries - Offer cards tagged by place and season - Photos from partner and creators Starts when: Offer signed	Content	Live in 5 days	Offers live in app
5	Deliver pre-trip & in-trip	- Suggest offers in pre-trip message - Timely offer while in destination - Concierge answers on WhatsApp Starts when: Booking, check-in, arrival	CRM	Pre-trip at T-3; in-trip daily max 1	Offer views and saves
6	Redeem & record	- Record each redemption - Same number visible to merchant and Vacario - Flag failed redemptions to support Starts when: Code or QR scanned	Product	Real time	Logged redemptions
7	Settle & report	- Monthly commission settlement - Campaign report for tourism boards - Merchant performance summary Starts when: Month end, campaign end	Finance	Settle by day 10	Paid partners, renewal case
8	Refresh by season	- Festive season (Oct–Nov), winter holidays, summer, monsoon getaways - Renew best offers, drop weak ones - Pitch seasonal sponsorships Starts when: Season calendar	Destination partnerships	6 weeks before each season	Current offers every season

Lead flow

The stages people or partners move through in this channel, with the conversion measured between each. A weak conversion shows which workflow step to fix first.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Destination coverage How many priority destinations have enough local partners to fill a trip with offers.	Priority destinations with 5+ live partners ÷ Priority destinations × 100	Monthly	Leading	Destination partnerships
Active offers How many offers a traveller can use in each destination.	Count of offers live in the app, per destination	Weekly	Leading	Content
In-trip view rate The share of travellers in a destination who open at least one offer.	Travellers who viewed an offer ÷ Travellers in the destination × 100	Weekly	Leading	CRM
Redemption rate The share of travellers in a destination who use an offer.	Offer redemptions ÷ Travellers in the destination × 100	Monthly	Lagging	Destination partnerships
Ancillary revenue per trip The extra revenue earned on each trip beyond the stay.	Commission + experience revenue ÷ Completed trips	Monthly	Lagging	Destination partnerships

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Settlement on time The share of partners paid by the 10th of the following month.	Partners paid by day 10 ÷ Partners due payment × 100	Monthly	Leading	Finance
Sponsorship revenue Money from tourism boards and sponsors for campaigns and placement.	Sum of tourism board, co-marketing and sponsor fees recognised in the period	Quarterly	Lagging	Destination partnerships
Partner renewal rate The share of destination partners who renew for the next season.	Partners who renewed ÷ Partners up for renewal × 100	Seasonal	Lagging	Destination partnerships

Worked example

Jaipur is a priority destination, so the team maps the tourism department, Amber Fort guides and ten restaurants **(1)**. A food-walk operator and three restaurants agree to offers **(2–3)**. Guides and offer cards go into the app **(4)**. A family booked for November gets the food walk in their pre-trip message and a restaurant offer on arrival evening **(5)**. They scan the QR at dinner **(6)**. The restaurant is paid its commission on the 10th **(7)**, and offers are refreshed for winter **(8)**.

Rules that keep it working

- At most one in-trip offer message a day.
- Every offer has an end date and a redemption method before it goes live.
- Merchants see the same redemption count Vacario sees.
- Tourism boards get a report within two weeks of each campaign.

Warning signs

- Offers go unused:** Send them at the right moment (arrival day, near the place) and drop weak ones.
- Merchants dispute numbers:** Use QR redemption logged in real time and visible to both sides.
- Stale offers after the season:** Refresh six weeks before each season.

Comes in from	Consumer: bookings and trip dates · Supply: local introductions from hotels
Hands off to	Consumer: offers inside pre-trip and in-trip messages · Corporate: tourism board partnerships for announcements · Lifecycle: merchant and sponsor renewals
Review rhythm	Weekly: offer performance · Monthly: settlement and partner reports · Seasonal: offer refresh

13

CHANNEL 05

Corporate Communications

Corporate communications tells the story of the company rather than the product: what Vacario is building, how fast it is growing, its technology and its partners. It builds the trust needed for funding, partnerships and government support.

The message changes from “book your next trip” to the corporate story: what Vacario is building, growth, technology, partnerships, milestones and market expansion.

FROM THE PLAN

AUDIENCES

InvestorsMediaGovernmentsStrategic partnersEmployees

OBJECTIVES

- Build trust with investors, media, government and partners
- Announce every milestone with one consistent story
- Make sure employees always hear news first

HOW THE WORKFLOW RUNS

Leadership approves one message house every six months. Communications keeps a calendar of milestones and prepares a pack for each: press release, fact sheet, investor note, partner brief, internal note and Q&A. Finance checks the numbers, legal checks the claims and the CEO signs off. Employees are briefed first; then each audience hears the news through its own route on the same day. One spokesperson handles questions, and results are logged.

Key messages

What we’re building

The next generation of travel, launching in India before any other country.

“Built for how India travels next.”

Growth and proof

Milestones, partnerships and numbers checked by finance.

“Every number we share is one we can stand behind.”

Partnership

Working with governments, tourism bodies and industry.

“Good for travellers, hosts and local economies.”

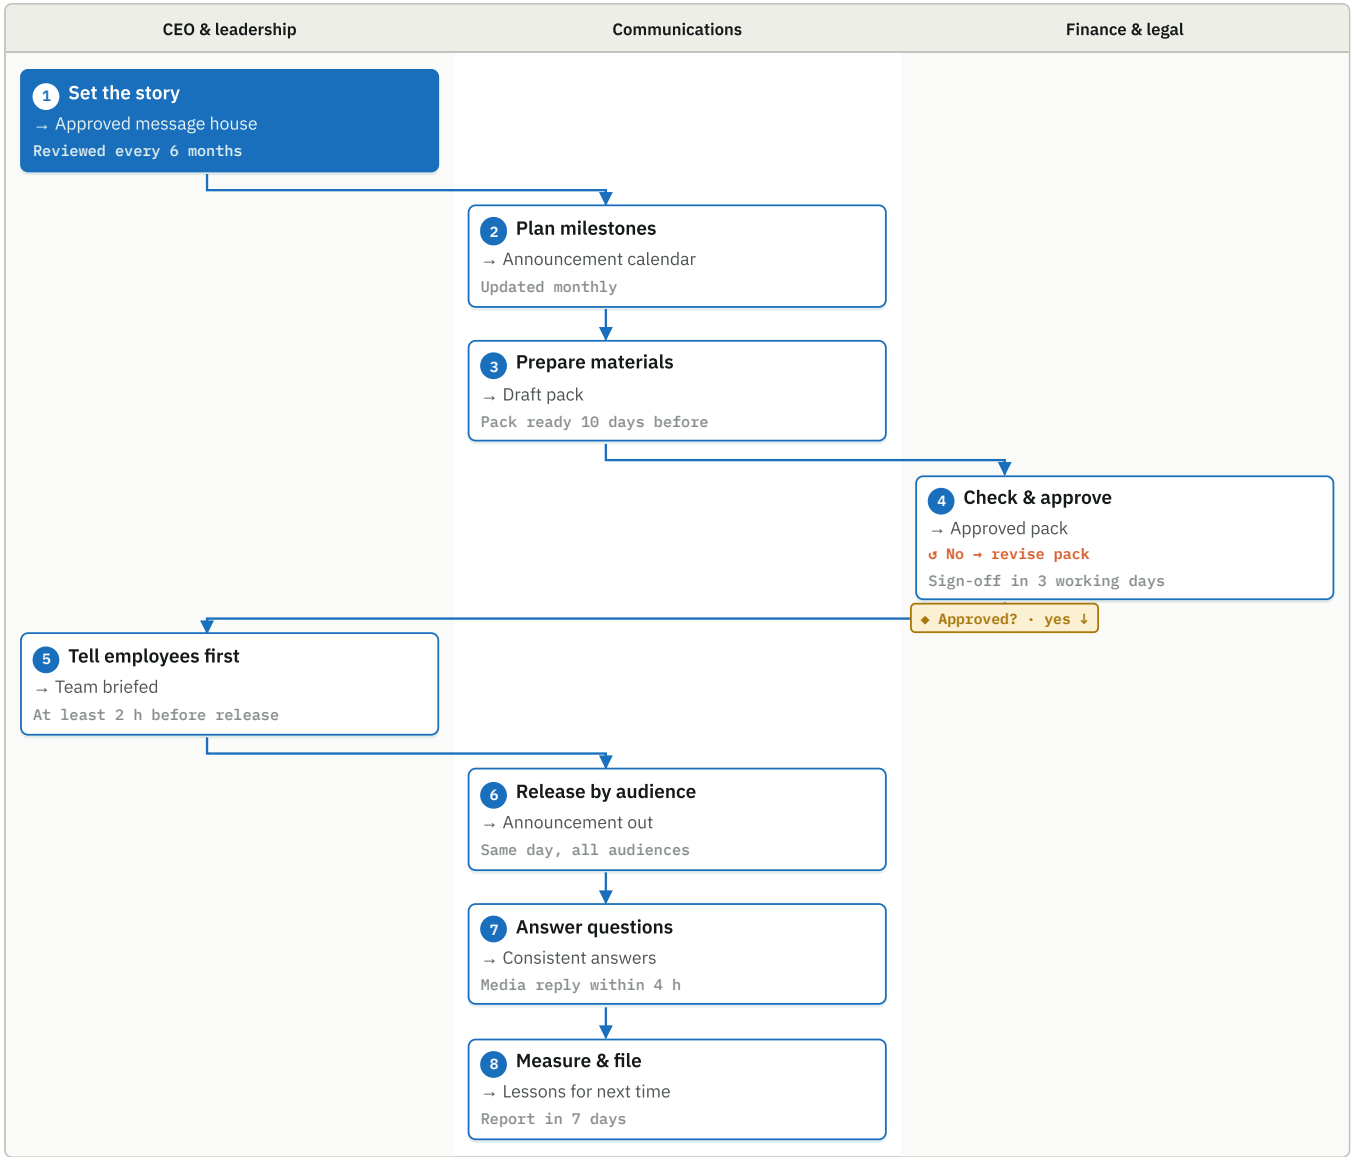

Tone: Clear, factual, confident, never inflated.

Tactics and touchpoints

Message house	One story, three proof points each
Milestone calendar	One major story a month
Investor updates	Monthly, on time
Press and interviews	Through one spokesperson
Government and tourism relations	Meetings, MoUs, joint campaigns
LinkedIn and owned channels	Company news and hiring

The workflow

8 steps, from set the story to measure & file. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

05 · Corporate Communications workflow · one column per team

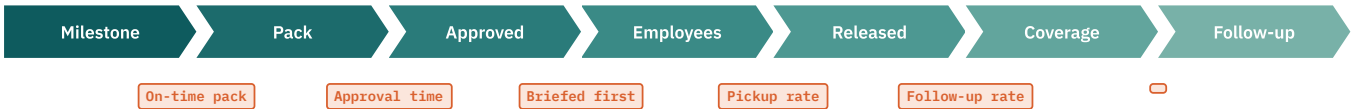

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Set the story	- What Vacario is building and why India first - Technology, growth, partnerships - Three proof points per message Starts when: Start of each half-year	CEO & leadership	Reviewed every 6 months	Approved message house
2	Plan milestones	- Launches, city expansion, partnerships - Funding, awards, hires - Earliest date each can be announced Starts when: Monthly business review	Communications	Updated monthly	Announcement calendar
3	Prepare materials	- Press release and fact sheet - Investor note and partner brief - Internal note and Q&A Starts when: Milestone confirmed	Communications	Pack ready 10 days before	Draft pack
4	Check & approve ◆ Approved? No → revise pack	- Finance checks every number - Legal checks claims and partner names - CEO final sign-off Starts when: Draft pack ready	Finance & legal	Sign-off in 3 working days	Approved pack

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
5	Tell employees first	- Brief Canada, India and Philippines teams - Share the Q&A - Remind: only the spokesperson speaks to media Starts when: Pack approved	CEO & leadership	At least 2 h before release	Team briefed
6	Release by audience	- Investors: update email - Media: release, interviews - Government and tourism departments: letter or meeting - Partners: direct brief Starts when: Release date	Communications	Same day, all audiences	Announcement out
7	Answer questions	- One named spokesperson - Use the prepared Q&A - Log every enquiry Starts when: Inbound enquiry	Communications	Media reply within 4 h	Consistent answers
8	Measure & file	- Coverage and message pull-through - Investor and partner responses - File the pack in the knowledge base Starts when: 1 week after release	Communications	Report in 7 days	Lessons for next time

Lead flow

The stages people or partners move through in this channel, with the conversion measured between each. A weak conversion shows which workflow step to fix first.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Milestones on schedule Whether announcements go out on the planned date.	$\text{Announcements made on the planned date} \div \text{Announcements planned} \times 100$	Monthly	Leading	Communications
Media mentions How often Vacario appears in the media.	Count of articles, broadcasts and posts naming Vacario, from the coverage log	Monthly	Lagging	Communications
Tier-1 coverage share The share of coverage in national business and travel media.	$\text{Mentions in tier-1 media} \div \text{All mentions} \times 100$	Monthly	Lagging	Communications
Message pull-through Whether coverage carries Vacario's own key messages.	$\text{Coverage carrying at least one key message} \div \text{All coverage} \times 100$	Per release	Lagging	Communications
Investor update on time Whether investors get their update on the agreed date. Target 100%.	$\text{Updates sent by the agreed date} \div \text{Updates due} \times 100$	Monthly	Leading	CEO
Investor meetings Interest the updates and releases create among investors.	Count of investor meetings or calls that came from an update or release	Quarterly	Lagging	CEO

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Government and tourism MoUs Formal partnerships with government and tourism bodies.	Count of MoUs or formal partnerships signed with government or tourism bodies	Quarterly	Lagging	CEO
Employees briefed first Whether staff heard the news before the public. Target 100%.	$\text{Releases with a staff briefing beforehand} \div \text{Releases} \times 100$	Per release	Leading	CEO

Worked example

Vacario signs a co-marketing agreement with a state tourism department, which fits the “India first” message **(1)**. It goes on the calendar for the second week of the month **(2)**. The pack is drafted **(3)**; finance checks the numbers, legal approves the department’s name and the CEO signs off **(4)**. Staff in Canada, India and the Philippines are briefed that morning **(5)**. The release goes to media, investors and partners **(6)**. The CEO takes two interview requests **(7)**, and the coverage report is filed a week later **(8)**.

Rules that keep it working

- Employees hear news before anyone outside.
- Finance checks every number before release.
- Only the named spokesperson speaks to media.
- Partner names are used only with written approval.

Warning signs

- **Different people quote different numbers:** The fact sheet is the only source; log every figure released.
- **Staff learn news from social media:** Hold the release until the internal briefing has gone out.
- **Announcements bunch up or slip:** Update the milestone calendar monthly; plan one major story a month.

Comes in from	Destination & Merchant: tourism board partnerships · Supply: large hotel partnerships · Internal: milestones and numbers
Hands off to	Internal: staff briefing before release · Consumer: earned media for campaigns
Review rhythm	Monthly: investor update · Per milestone: release pack · Quarterly: story and message review

14

CHANNEL 06

Lifecycle Communications

The plan says communication should not stop once somebody joins, spends, sells or sponsors. Keeping a guest or partner costs far less than finding a new one, so this is where Vacario should shine.

Directly tied to guest and partner retention. Communication should not stop once someone joins, spends, sells or sponsors. This is where Vacario should shine.

FROM THE PLAN, EXPANDED

AUDIENCES

GuestsSuppliersCreatorsMerchants & sponsors

OBJECTIVES

- Keep guests booking again
- Keep suppliers, creators and sponsors active and renewing
- Make every message relevant to where the person is in their journey

HOW THE WORKFLOW RUNS

Guests, suppliers, creators and merchants each follow the same five stages on their own track. They are welcomed and pointed to one first action. Anyone without a first result in 14 days gets reminders, then a personal call. Each month they receive something useful. Milestones are recognised and rewarded. Feedback is collected at key moments and detractors are called back. Anyone going quiet is flagged and contacted with a personal offer or a renewal conversation.

Key messages

Welcome

Help every new member or partner to a first result.

“Here’s one thing to do first.”

Value

Something useful every month, never just a sale.

“Here’s what’s new for you.”

Recognition

Notice milestones and reward loyalty.

“Five trips with us. Thank you.”

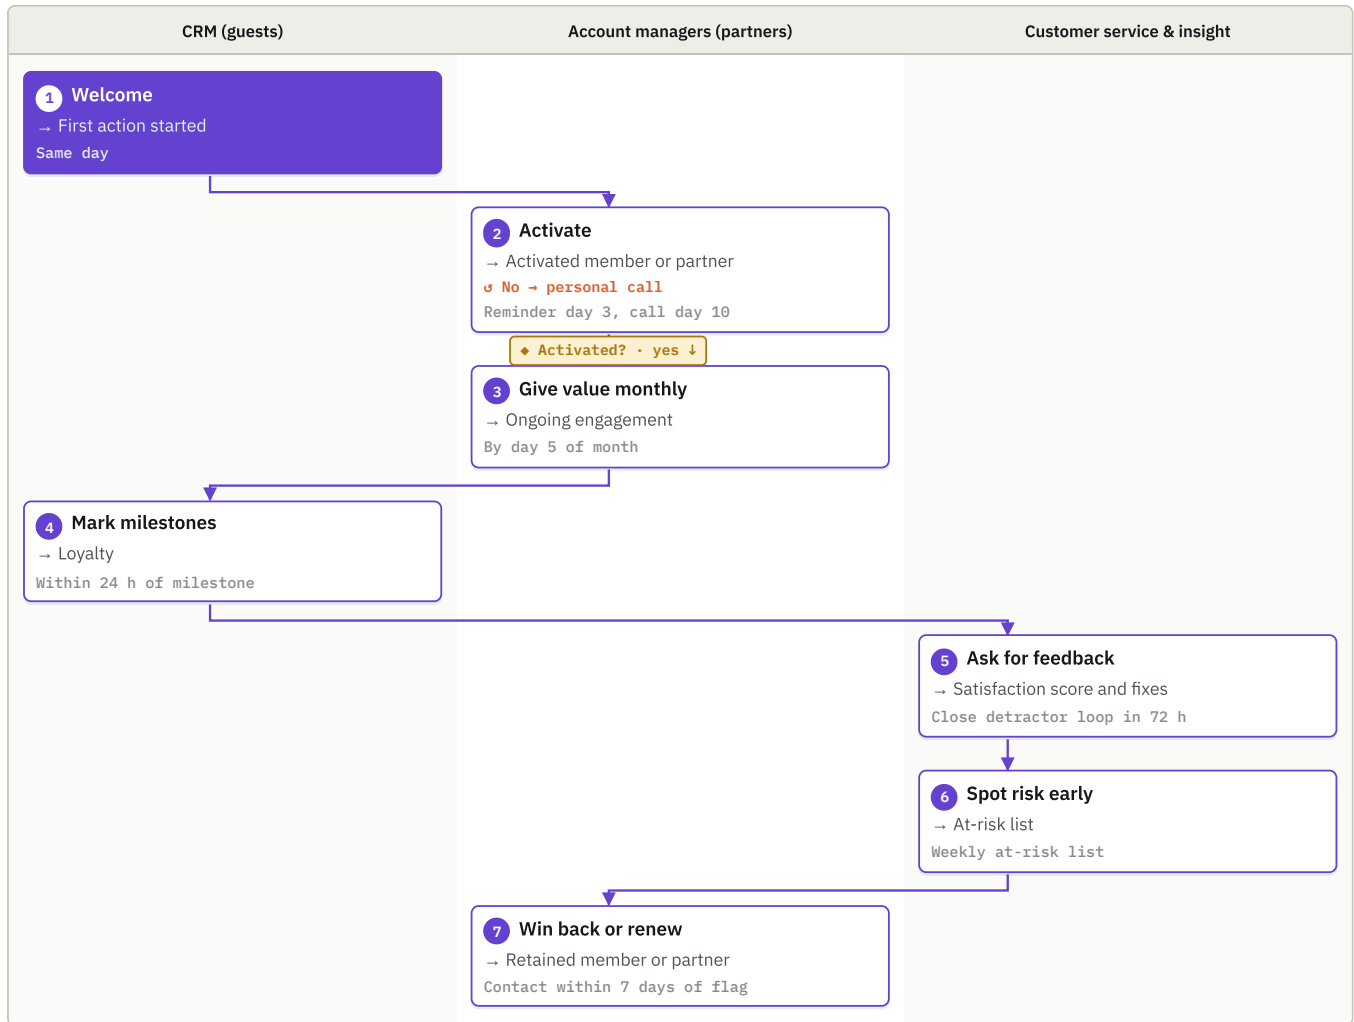

Tone: Personal, helpful, never pushy.

Tactics and touchpoints

Triggered journeys	Welcome, activation, at-risk, win-back
Monthly value updates	Trip ideas, statements, earnings
Loyalty and milestones	Points, badges, member prices
Feedback	NPS and follow-up calls
Renewals	Partners and sponsors, 60 days early
Contact policy	Frequency caps and quiet hours

The workflow

7 steps, from welcome to win back or renew. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

06 · Lifecycle Communications workflow · one column per team

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Welcome	- One welcome track per audience - One clear next action - Set contact preferences Starts when: Sign-up or contract signed	CRM (guests)	Same day	First action started
2	Activate ♦ Activated? No → personal call	- Guest: first booking - Supplier: listing live; creator: first post - Merchant: first redemption Starts when: Days 1–14 with no first result	Account managers (partners)	Reminder day 3, call day 10	Activated member or partner
3	Give value monthly	- Guests: trip ideas and member prices - Partners: performance statement - Creators: earnings and new briefs Starts when: Monthly	Account managers (partners)	By day 5 of month	Ongoing engagement
4	Mark milestones	- First trip, 5th booking 100th night sold, top-partner badge - Tier upgrades and rewards Starts when: Milestone reached	CRM (guests)	Within 24 h of milestone	Loyalty
5	Ask for feedback	- Short NPS question - Call every detractor - Share themes with product and supply Starts when: After trip; quarterly for partners	Customer service & insight	Close detractor loop in 72 h	Satisfaction score and fixes

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
6	Spot risk early	- Guest: no visit in 60 days - Supplier: falling availability - Creator: no post in 45 days Starts when: Inactivity rules	Customer service & insight	Weekly at-risk list	At-risk list
7	Win back or renew	- Personal offer or call - Renewal review for sponsors - Exit reason logged if lost Starts when: At-risk flag; 60 days before renewal	Account managers (partners)	Contact within 7 days of flag	Retained member or partner

Lead flow

The stages people or partners move through in this channel, with the conversion measured between each. A weak conversion shows which workflow step to fix first.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Activation rate The share of new guests or partners who reach their first result within 14 days: first booking, listing live, first post or first redemption.	Reached first result within 14 days ÷ Joined in the same period × 100	Weekly	Leading	CRM / account managers
Time to first value How long it takes a new member or partner to get their first result.	Median days from joining to first result	Monthly	Leading	CRM / account managers
90-day retention The share of people who joined in a month and are still active 90 days later.	Still active at day 90 ÷ Joined in the same month (cohort) × 100	Monthly	Lagging	CRM
Repeat booking rate The share of guests with two or more bookings in 12 months. The same measure as Consumer's 12-month repeat rate, owned jointly.	Guests with 2+ bookings in 12 months ÷ Guests who booked in the same 12 months × 100	Quarterly	Lagging	CRM
Partner churn The share of suppliers or creators who left during the period.	Partners lost in the period ÷ Partners active at the start of the period × 100	Quarterly	Lagging	Account managers
Sponsor renewal rate The share of sponsors who renew.	Sponsors who renewed ÷ Sponsors up for renewal × 100	Quarterly	Lagging	Account managers
NPS by audience How likely people are to recommend Vacario, on a 0–10 scale. Promoters answer 9–10, detractors 0–6.	% promoters (9–10) – % detractors (0–6)	Monthly	Lagging	Customer service & insight

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Win-back rate The share of at-risk members who come back after being contacted.	At-risk members who returned within 30 days ÷ At-risk members contacted × 100	Monthly	Leading	CRM
Loyalty share The share of bookings made by loyalty members.	Bookings by loyalty members ÷ All bookings × 100	Monthly	Lagging	CRM

Worked example

A new homestay owner signs up and gets a welcome with one task: upload photos **(Join)**. By day 10 the listing is not live, so the account manager calls and finishes it with them **(Activate)**. Each month they get a statement with bookings and reviews **(Engage)**. At 100 nights sold they get a top-partner badge and featured placement **(Reward)**. When availability drops in the off-season they are flagged and invited into a monsoon promotion **(Retain)**.

Rules that keep it working

- One track per audience; nobody gets another audience's messages.
- Every message has one clear next action.
- Detractors are contacted within 72 hours.
- Renewals start 60 days before the end date.

Warning signs

- **Many join, few activate:** Shorten the path to the first result and call at day 10.
- **Partners leave without warning:** Act on early signs (falling availability, no posts) from the weekly at-risk list.
- **Too many messages:** Cap marketing messages; let triggered messages replace scheduled ones.

Comes in from

Consumer: guests after their trip · **Supply:** suppliers after go-live · **Creator:** creators after onboarding

Hands off to

Consumer: returning guests into campaigns · **Internal:** retention numbers into performance reporting

Review rhythm

Always on: triggered messages · Monthly: statements and value updates · Quarterly: retention review by track

15

CHANNEL 07

Internal Communications

Internal communications keeps a team spread across Canada, India and the Philippines working from the same priorities and the same numbers. The plan’s rule: one company, one source of truth, one communications path from strategy to execution.

The systems and routines that keep the organisation aligned, informed, accountable and moving quickly across Canada, India, technology, operations, marketing and leadership.

FROM THE PLAN, EXPANDED

AUDIENCES

LeadershipCanadaIndiaPhilippinesAll functions

OBJECTIVES

- Everyone works from the same priorities and numbers
- Decisions are made fast and written down
- Nothing waits overnight because of time zones

HOW THE WORKFLOW RUNS

Leadership sets priorities each month and records decisions. Finance turns them into approved budgets. Each week the management review checks progress against KPIs and assigns actions, and each function plans its week. Because the regions are hours apart, each ends its day with a handoff note so work continues overnight. Operations runs daily check-ins where needed. Finance publishes one dashboard every Monday. Everything is filed in the knowledge base, and incidents follow a set escalation path.

Key messages

One source of truth

One dashboard, one knowledge base, one decision log.

“If it isn’t written down, it wasn’t decided.”

Clear paths

Everyone knows who decides, who acts and who is told.

“Every action has one owner and a date.”

Across time zones

Canada, India and the Philippines hand over every day.

“Nothing waits overnight.”

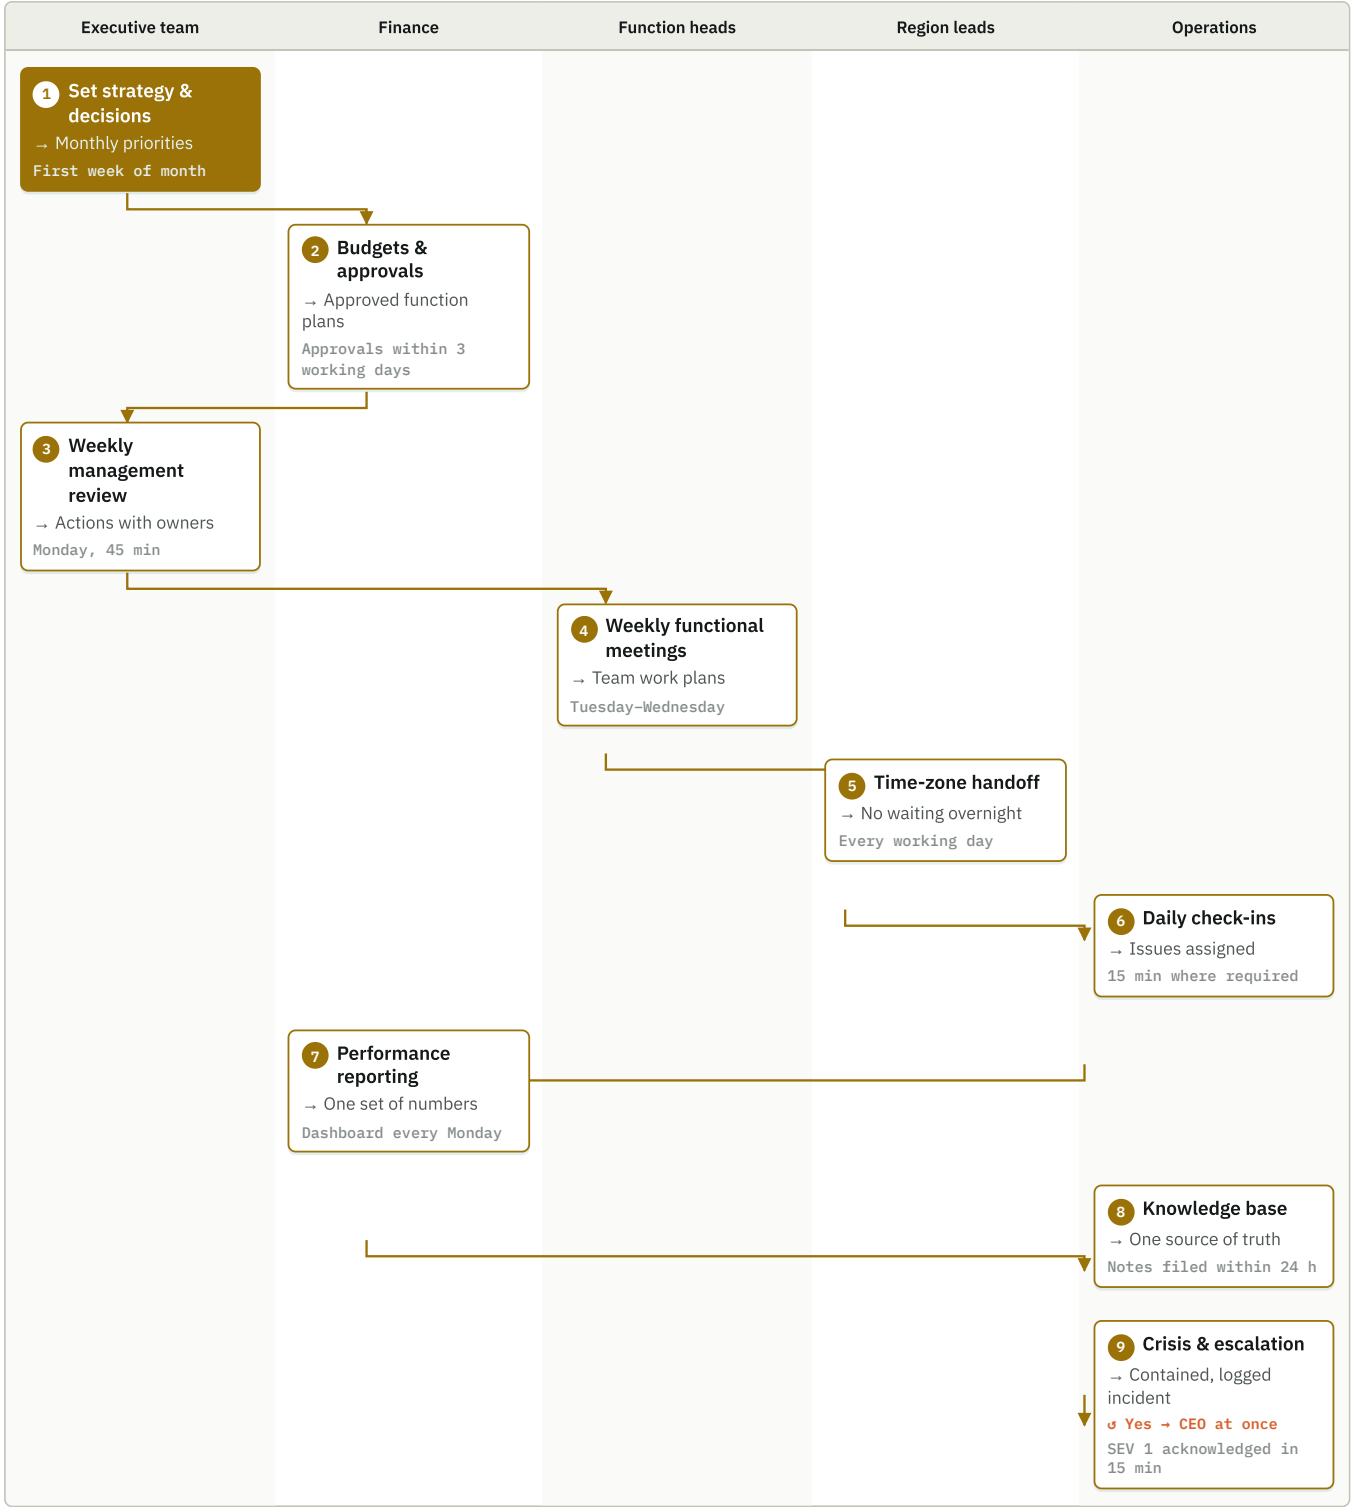

Tone: Direct, brief, written down.

Tactics and touchpoints

Meeting rhythm	Daily, weekly, monthly
Handoff notes	End of each region’s day
Dashboard	Every Monday
Knowledge base	Contracts, SOPs, notes, decisions
Escalation path	SEV 1–3
Policies	Brand, approvals, data and security

The workflow

9 steps, from set strategy & decisions to crisis & escalation. Each box is one step in the column of the team that owns it; gold tags are yes/no checkpoints.

07 · Internal Communications workflow · one column per team

Each step, defined

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Set strategy & decisions	- Priorities, major decisions, approvals - Investor and shareholder matters - Every decision written in the decision log Starts when: Monthly strategic review	Executive team	First week of month	Monthly priorities
2	Budgets & approvals	- Budget per function against the model - Cash need and forecast - Spend approval limits Starts when: Priorities set	Finance	Approvals within 3 working days	Approved function plans

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
3	Weekly management review	- Each head: progress, blockers, KPIs - Decisions and owners recorded - Escalations reviewed Starts when: Weekly	Executive team	Monday, 45 min	Actions with owners
4	Weekly functional meetings	- Tech & product, supply, marketing & social - Finance, customer service, BD - Actions onto the shared task board Starts when: Weekly	Function heads	Tuesday–Wednesday	Team work plans
5	Time-zone handoff	- Handoff note: done, open, needs decision - Overlap call when needed - Owner named for every open item Starts when: End of each region's day	Region leads	Every working day	No waiting overnight
6	Daily check-ins	- Priorities and staffing - Customer-service and vendor issues - Compliance and admin Starts when: Daily	Operations	15 min where required	Issues assigned
7	Performance reporting	- Users, bookings, engagement, conversion - Inventory, creator activity, revenue - Marketing results vs. budget Starts when: Weekly and monthly	Finance	Dashboard every Monday	One set of numbers
8	Knowledge base	- Contracts, decks, brand assets, specs - SOPs, research, meeting notes - Decision log and policies Starts when: After every meeting or decision	Operations	Notes filed within 24 h	One source of truth
9	Crisis & escalation ♦ SEV 1? Yes → CEO at once	- Detect, log, set severity - Escalate, contain, communicate - Resolve and file post-mortem Starts when: Incident detected	Operations	SEV 1 acknowledged in 15 min	Contained, logged incident

The path from strategy to execution

Internal work moves from strategy to a written record. The measures between stages show where it slows down.

KPIs and how they are calculated

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Decision log completeness Whether decisions made in reviews are written down.	Decisions recorded in the decision log ÷ Decisions made in reviews × 100	Monthly	Leading	Executive team
Action close rate The share of actions finished by their due date.	Actions closed by the due date ÷ Actions due × 100	Weekly	Leading	Function heads
Spend approval turnaround How fast spend requests are approved.	Median working days from request to approval	Monthly	Leading	Finance
Dashboard on time Whether the weekly dashboard comes out by Monday. Target 100%.	Weeks the dashboard was published by Monday ÷ Weeks in the period × 100	Monthly	Leading	Finance

KPI	FORMULA	HOW OFTEN	TYPE	OWNER
Handoff compliance Whether each region sends its end-of-day handoff note.	Handoff notes sent ÷ Region working days (3 regions × working days) × 100	Weekly	Leading	Region leads
SEV 1 response time How fast a critical incident is acknowledged by its owner. Target 15 minutes or less.	Minutes from detection to acknowledgement, for each SEV 1 incident	Per incident	Leading	Operations
Time to resolve How long incidents take to fix, by severity.	Median hours from detection to resolution, per severity level	Monthly	Lagging	Operations
Post-mortems filed Whether lessons from serious incidents are written down.	SEV 1-2 incidents with a post-mortem within 5 working days ÷ SEV 1-2 incidents × 100	Monthly	Lagging	Operations
SOP freshness Whether procedures are kept up to date.	SOPs reviewed in the last 6 months ÷ All SOPs × 100	Quarterly	Lagging	Operations

Worked example

At the monthly review, leadership decides to open Goa inventory first (1). Finance approves the extra supply budget in two days (2). Monday’s management review gives the Goa target to the supply lead (3), and the supply team plans its week (4). India’s evening handoff note tells Canada which contracts need sign-off (5). A payments outage at 2 am IST is logged as SEV 1 and the CEO is alerted within 15 minutes (9). Monday’s dashboard shows Goa listings rising (7), and the decision and post-mortem are filed (8).

Rules that keep it working

- If a decision is not in the decision log, it has not been made.
- Every action has one owner and a due date.
- One dashboard; nobody presents their own version of the numbers.
- SEV 1 incidents reach the CEO at once, at any hour.

Warning signs

- **Work waits overnight between regions:** Handoff note every working day, with an owner for each open item.
- **Meetings end without decisions:** Close every meeting by reading back decisions and owners.
- **Files scattered across inboxes:** Nothing counts as shared until it is in the knowledge base.

Comes in from

All channels: results, issues, decisions needed

Hands off to

Corporate: staff briefed before external news · **All channels:** priorities, budgets and one set of numbers

Review rhythm

Daily: operational check-ins where required · Weekly: functional meetings and management review · Monthly: strategic / business review

The twelve internal streams

STREAM	COVERS	HOW OFTEN	RUNS IT
Executive & leadership	Strategy, priorities, major decisions, budgets, approvals, investor and shareholder matters	Monthly	CEO
Cross-functional	Technology, product, inventory, marketing, social, finance, customer service, BD	Weekly	COO / GM
Canada ↔ India ↔ Philippines	Reporting lines, decision authority, handoffs, time zones, escalation	Daily	Region leads
Product & technology	App progress, bugs, releases, API integrations, AI tools, testing, launch readiness	Weekly + each release	Head of product
Sales & marketing	Campaign calendar, promotions, partnerships, influencers, earned media, content, results	Weekly	Marketing lead

Proposed operating version · for review

65 / 88

STREAM	COVERS	HOW OFTEN	RUNS IT
Travel supply	Hotels, vacation properties, airlines, API suppliers, availability, pricing, contracting	Weekly	Supply lead
Operational	Priorities, staffing, customer-service issues, vendors, compliance, admin	Daily where required	Operations lead
Financial	Budgets, spend approvals, cash needs, forecasts, KPIs, department performance	Weekly + monthly	Finance
Policies & procedures	Policies, brand standards, approvals, data and security, employee guidelines	On change	Operations
Performance reporting	Users, bookings, engagement, conversion, inventory, creator activity, revenue, marketing	Weekly + monthly	Finance + analytics
Meeting structure	Daily check-ins, weekly functional, weekly management, monthly strategic	As listed	COO / GM
Knowledge base	Contracts, decks, brand assets, specs, SOPs, research, notes, decisions	After every meeting	Operations

Crisis and escalation

- 1 Detect
- 2 Log in escalation channel

- 4 Escalate to owner
- 5 Contain
- 6 Communicate
- 7 Resolve
- 8 Post-mortem & file

LEVEL	FOR EXAMPLE	ANSWER WITHIN	ESCALATE TO	WHO IS TOLD	UPDATES
SEV 1	App or payments down, travellers stranded, safety incident, legal threat, press story	15 min, any hour	CEO + function head at once	Affected customers and partners; media only through the spokesperson	30 min
SEV 2	Supplier overbooking, API sync failure, complaint going public on social	1 h, working hours	Function head, same day	Affected customers and partners	4 h
SEV 3	Single customer issue, minor bug, vendor delay	Next check-in	Team lead	The customer involved	Daily

16

WORKFLOWS W1-W7 · ADDED

New cross-channel workflows

The seven channel workflows cover what each team does. Some work crosses every channel and had no defined path in the plan: capturing leads, launching campaigns, running referrals, handling reviews, fixing problems, managing consent and approving promotions. Each is defined here the same way, with a swimlane, step definitions and KPIs.

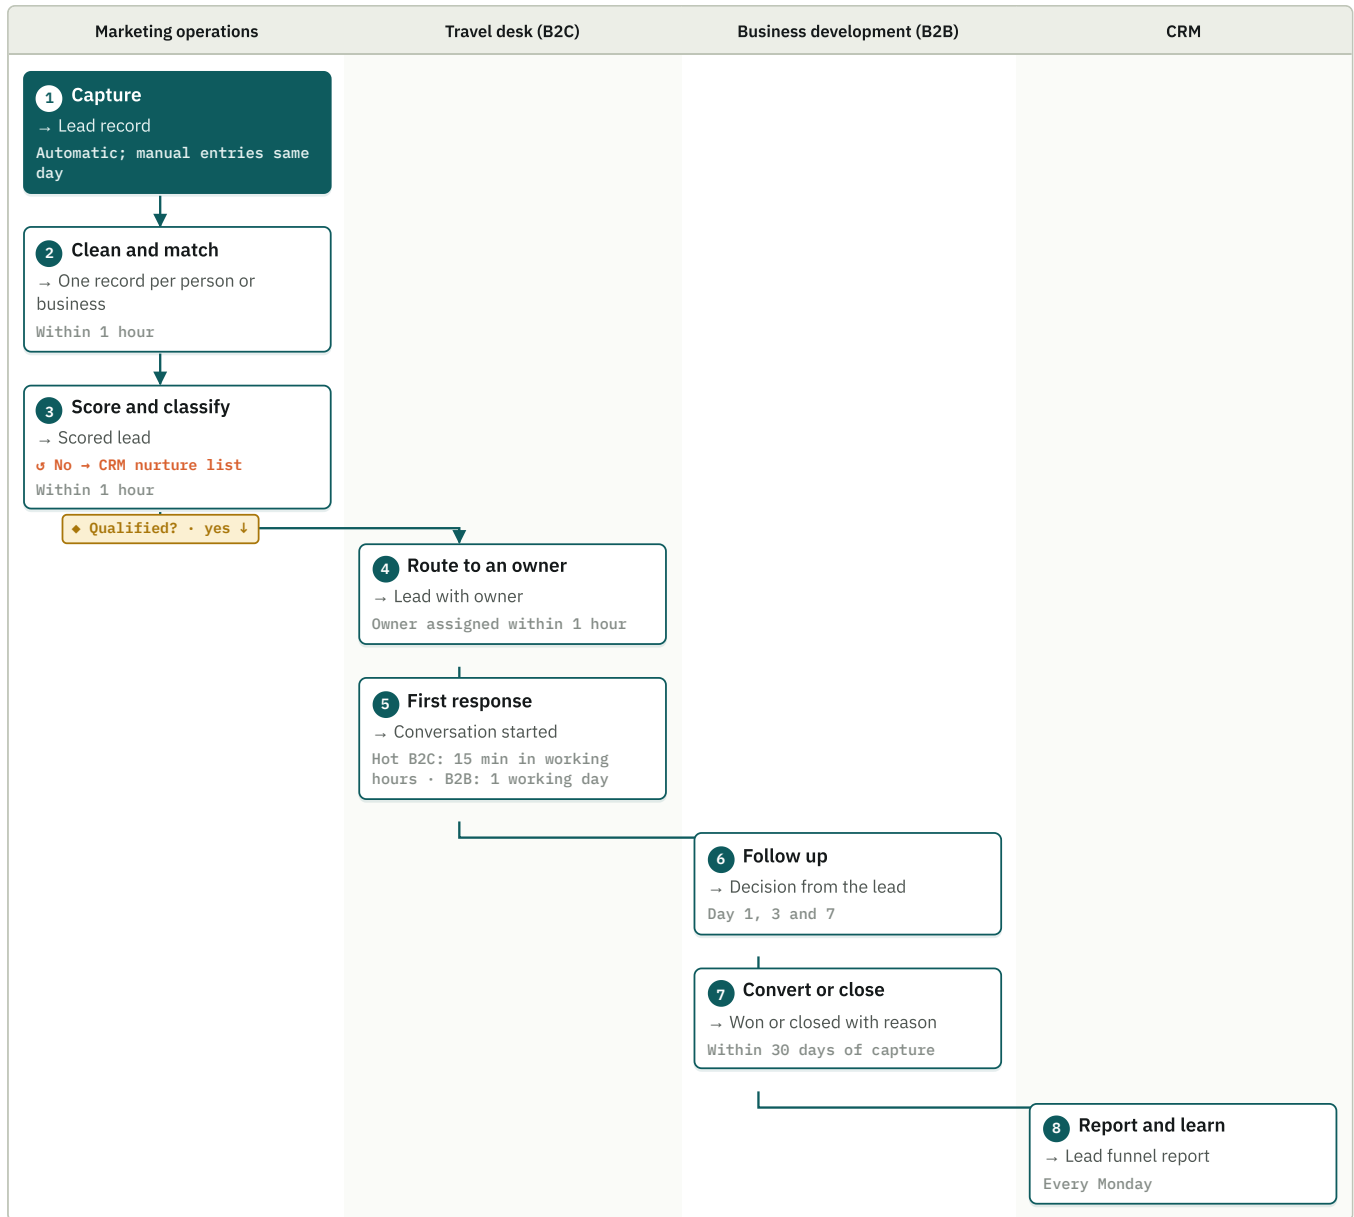

#	WORKFLOW	SERVES
W1	Lead management & routing	Consumer · Supply · Creator · Destination & Merchant · Corporate
W2	Campaign launch	Consumer · Creator · Destination & Merchant · Internal
W3	Referral programme	Consumer · Lifecycle
W4	Reviews and user photos & videos (UGC)	Consumer · Supply · Creator
W5	Customer support & service recovery	Consumer · Supply · Lifecycle · Internal
W6	Consent & data privacy	Consumer · Lifecycle · Internal
W7	Promotions & offer approval	Consumer · Supply · Destination & Merchant · Internal
W8	Business trip	Corporate travel chapter
W9	MICE event	Corporate travel chapter
S1–S3	Sales cycles: properties, agencies, enquiries	Sales lifecycles chapter

W1 · Lead management & routing

The plan runs several lead flows at once: travellers who enquire, suppliers, creators, merchants, partners and investors. Without one way to capture, score and route them, leads wait, get lost or get two replies. This workflow gives every lead one owner and a response time.

Serves: Consumer Supply Creator Destination & Merchant Corporate

Benchmark: Corporate OTAs (myBiz, Cleartrip's Out of Office) route business enquiries to dedicated teams; Vacario routes every lead to one owner.

W1 · Lead management & routing · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Capture	Every enquiry becomes one lead record, whatever the source: web form, WhatsApp, call, event, email or partner referral. Source and campaign are tagged.	Marketing operations	Automatic; manual entries same day	Lead record
2	Clean and match	Remove duplicates and link to any existing member, supplier or partner record so nobody is contacted twice.	Marketing operations	Within 1 hour	One record per person or business
3	Score and classify ♦ Qualified? No → CRM nurture list	B2C: hot (dates and budget given), warm, cold. B2B: supplier, creator, merchant, partner or investor.	Marketing operations	Within 1 hour	Scored lead
4	Route to an owner	Hot B2C leads to the travel desk; B2B leads to the named BD owner for that type; cold leads to CRM nurture.	Travel desk (B2C)	Owner assigned within 1 hour	Lead with owner
5	First response	Reply personally with something useful: options, a price, a call slot.	Travel desk (B2C)	Hot B2C: 15 min in working hours · B2B: 1 working day	Conversation started

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
6	Follow up	Three touches over seven days, each adding value (a stay idea, a case study, an answer). Stop if they say no.	Business development (B2B)	Day 1, 3 and 7	Decision from the lead
7	Convert or close	Won leads move to the right workflow (booking, supplier onboarding, creator onboarding). Lost leads are closed with a reason.	Business development (B2B)	Within 30 days of capture	Won or closed with reason
8	Report and learn	Weekly lead funnel by source and owner; reasons for losses feed campaigns and pitches.	CRM	Every Monday	Lead funnel report

KPIs

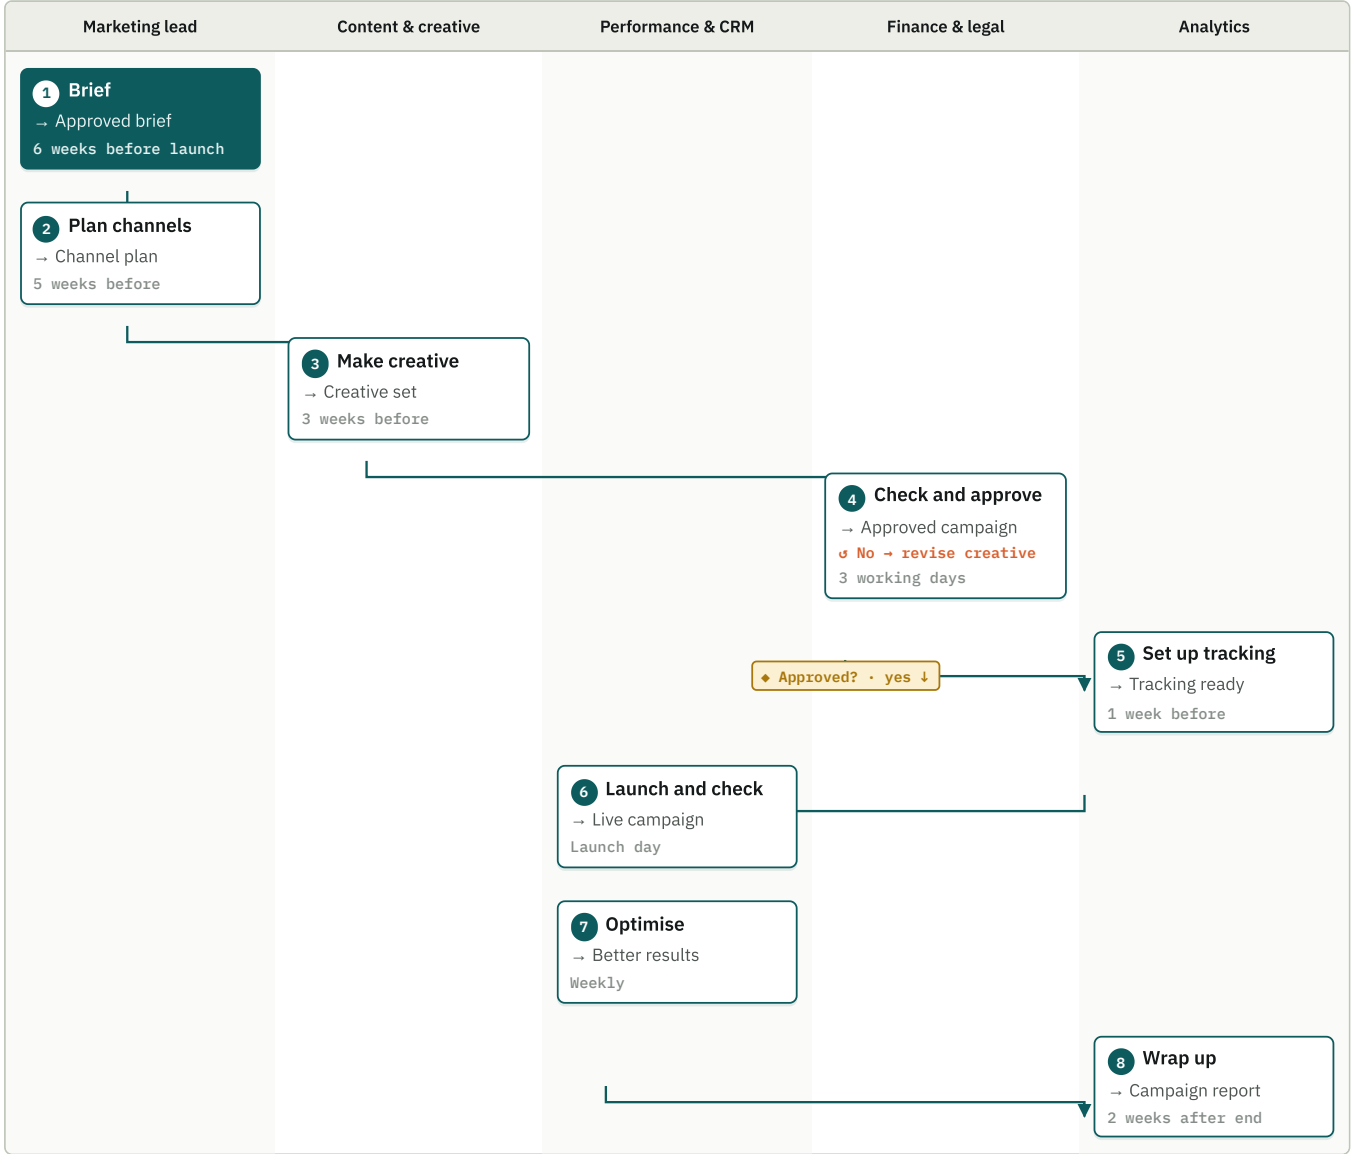

Lead response time	Median minutes (B2C) or hours (B2B) from capture to first reply
Owner assigned within 1 hour	Leads with an owner within 1 h ÷ leads captured × 100
Lead-to-qualified rate	Qualified leads ÷ leads captured × 100
Qualified-to-won rate	Won ÷ qualified leads closed × 100
Cost per qualified lead	Spend on lead generation ÷ qualified leads

W2 · Campaign launch

Campaigns cross channels: an offer needs creative, paid media, CRM, creators, sometimes suppliers and legal checks. This workflow makes every campaign start from one brief and end with a written result.

Serves: Consumer Creator Destination & Merchant Internal

Benchmark: Large OTAs run sale events on a calendar; Vacario books every campaign into the Lifecycle calendar first.

W2 · Campaign launch · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Brief	One page: goal, audience, offer, budget, dates, the KPI that decides success and its target.	Marketing lead	6 weeks before launch	Approved brief
2	Plan channels	Choose channels and the calendar slot with Lifecycle so no audience is over-messed.	Marketing lead	5 weeks before	Channel plan
3	Make creative	Copy and assets for every touchpoint, in English and the chosen regional languages.	Content & creative	3 weeks before	Creative set
4	Check and approve ♦ Approved? No → revise creative	Brand check, legal check of claims and terms, finance check of budget and discount cost.	Finance & legal	3 working days	Approved campaign

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
5	Set up tracking	Campaign tags, promo codes, dashboard view and a baseline to compare against.	Analytics	1 week before	Tracking ready
6	Launch and check	Go live, test every link and code, confirm the first results are recording.	Performance & CRM	Launch day	Live campaign
7	Optimise	Move budget to what works, pause what does not, refresh creative that tires.	Performance & CRM	Weekly	Better results
8	Wrap up	Results against the target, what we learned, and what to do next time, filed in the knowledge base.	Analytics	2 weeks after end	Campaign report

KPIs

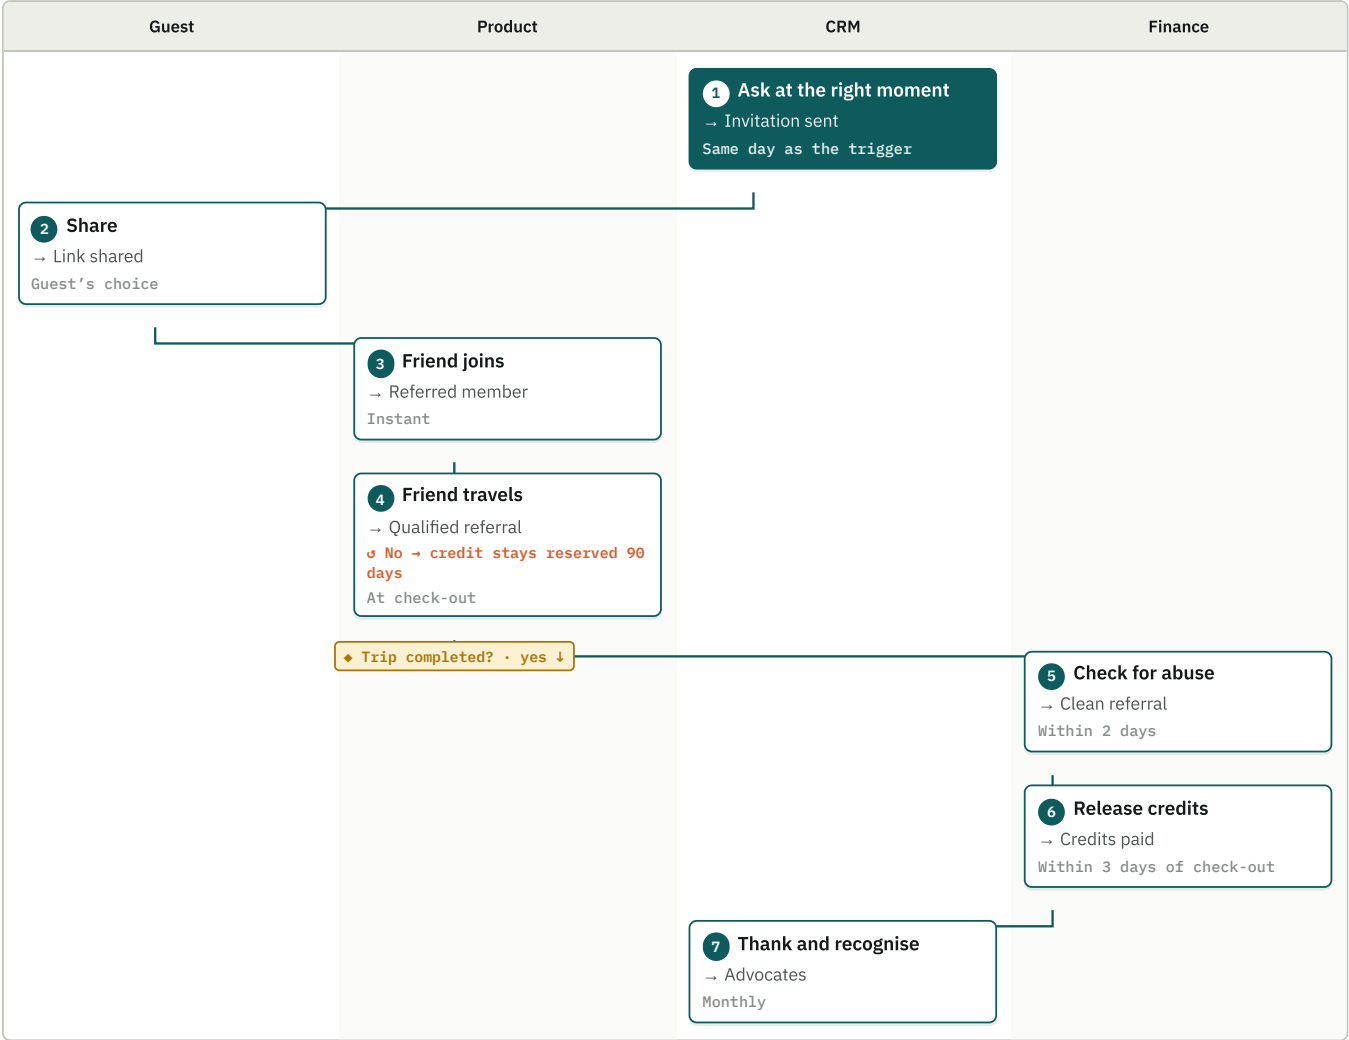

Campaigns launched on time	$\text{On-time launches} \div \text{campaigns planned} \times 100$
Return on ad spend	$\text{Gross booking value from the campaign} \div \text{campaign spend}$
Cost per booking vs plan	$\text{Actual cost per booking} \div \text{planned cost per booking}$
Reports filed	$\text{Campaigns with a wrap-up report} \div \text{campaigns ended} \times 100$

W3 · Referral programme

Referral bookings cost almost nothing in media and come with trust built in. The plan names referral programmes as a consumer channel; this workflow defines when to ask, when to pay out and how to stop abuse.

Serves: Consumer Lifecycle

Benchmark: Credits pay only after the friend’s first completed trip, the safeguard most travel referral schemes use against cancellation abuse.

W3 · Referral programme · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Ask at the right moment	Invite after a 4–5 star review, after a milestone, or when the guest shares a trip.	CRM	Same day as the trigger	Invitation sent
2	Share	The guest shares a personal link or code by WhatsApp or social.	Guest	Guest’s choice	Link shared
3	Friend joins	The friend signs up with the link; a welcome credit is reserved for both.	Product	Instant	Referred member
4	Friend travels ⚡ Trip completed? No → credit stays reserved 90 days	Credit becomes payable only after the friend’s first trip is completed, which prevents cancellation abuse.	Product	At check-out	Qualified referral
5	Check for abuse	Same device, payment card or address, or self-referral, blocks the credit.	Finance	Within 2 days	Clean referral

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
6	Release credits	Credit both wallets and tell both people.	Finance	Within 3 days of check-out	Credits paid
7	Thank and recognise	Top referrers are thanked, rewarded and invited to become advocates.	CRM	Monthly	Advocates

KPIs

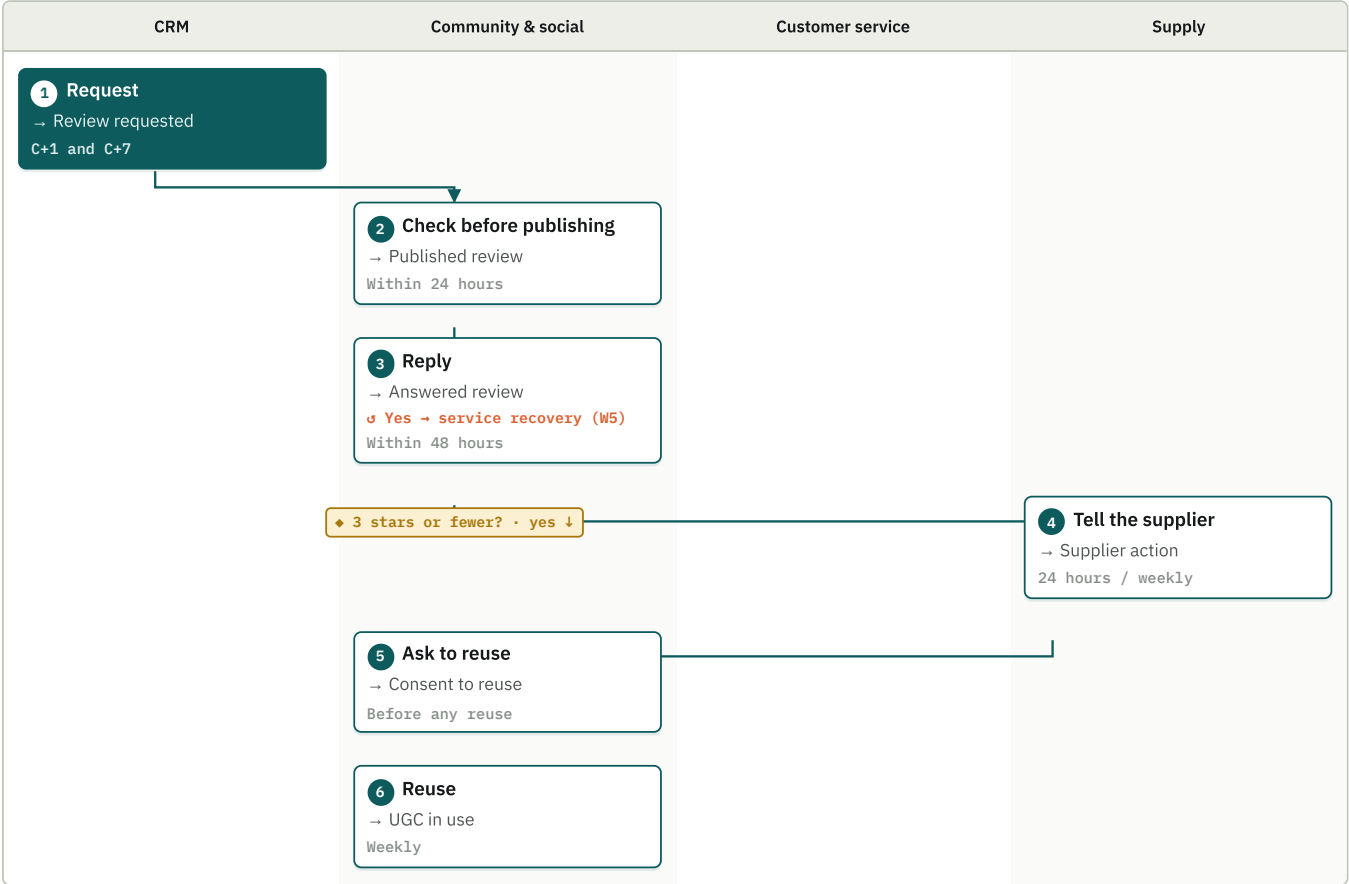

Invite rate	$\text{Guests who shared a link} \div \text{guests invited} \times 100$
Referral sign-ups	Sign-ups through referral links
Referral share	$\text{Referral bookings} \div \text{all bookings} \times 100$
Cost per referral booking	$\text{Referral credits paid} \div \text{referral bookings}$
Referral abuse rate	$\text{Blocked referrals} \div \text{referrals checked} \times 100$

W4 · Reviews and user photos & videos (UGC)

Reviews build trust for the next traveller, show suppliers what to fix and supply content for the feed and ads. This workflow covers collecting, checking, answering and reusing them fairly.

Serves: Consumer Supply Creator

Benchmark: Booking.com accepts reviews only from verified guests; Airbnb reviews are double-blind for 14 days.

W4 · Reviews and user photos & videos (UGC) · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Request	One-tap rating the day after check-out, then an invite to add photos or video.	CRM	C+1 and C+7	Review requested
2	Check before publishing	Remove personal data and abuse. Never edit the meaning or hide a fair negative review.	Community & social	Within 24 hours	Published review
3	Reply ⬆ 3 stars or fewer? Yes → service recovery (W5)	Reply to every review. Three stars or fewer get a personal reply and a support ticket.	Community & social	Within 48 hours	Answered review
4	Tell the supplier	Negative issues go to the supplier within a day; a weekly digest covers everything else.	Supply	24 hours / weekly	Supplier action
5	Ask to reuse	Ask permission before using a guest’s photo or video in marketing, and credit them.	Community & social	Before any reuse	Consent to reuse
6	Reuse	Best content goes to the in-app feed, social and ads.	Community & social	Weekly	UGC in use

KPIs

Review rate	Reviews ÷ completed trips × 100
-------------	---------------------------------

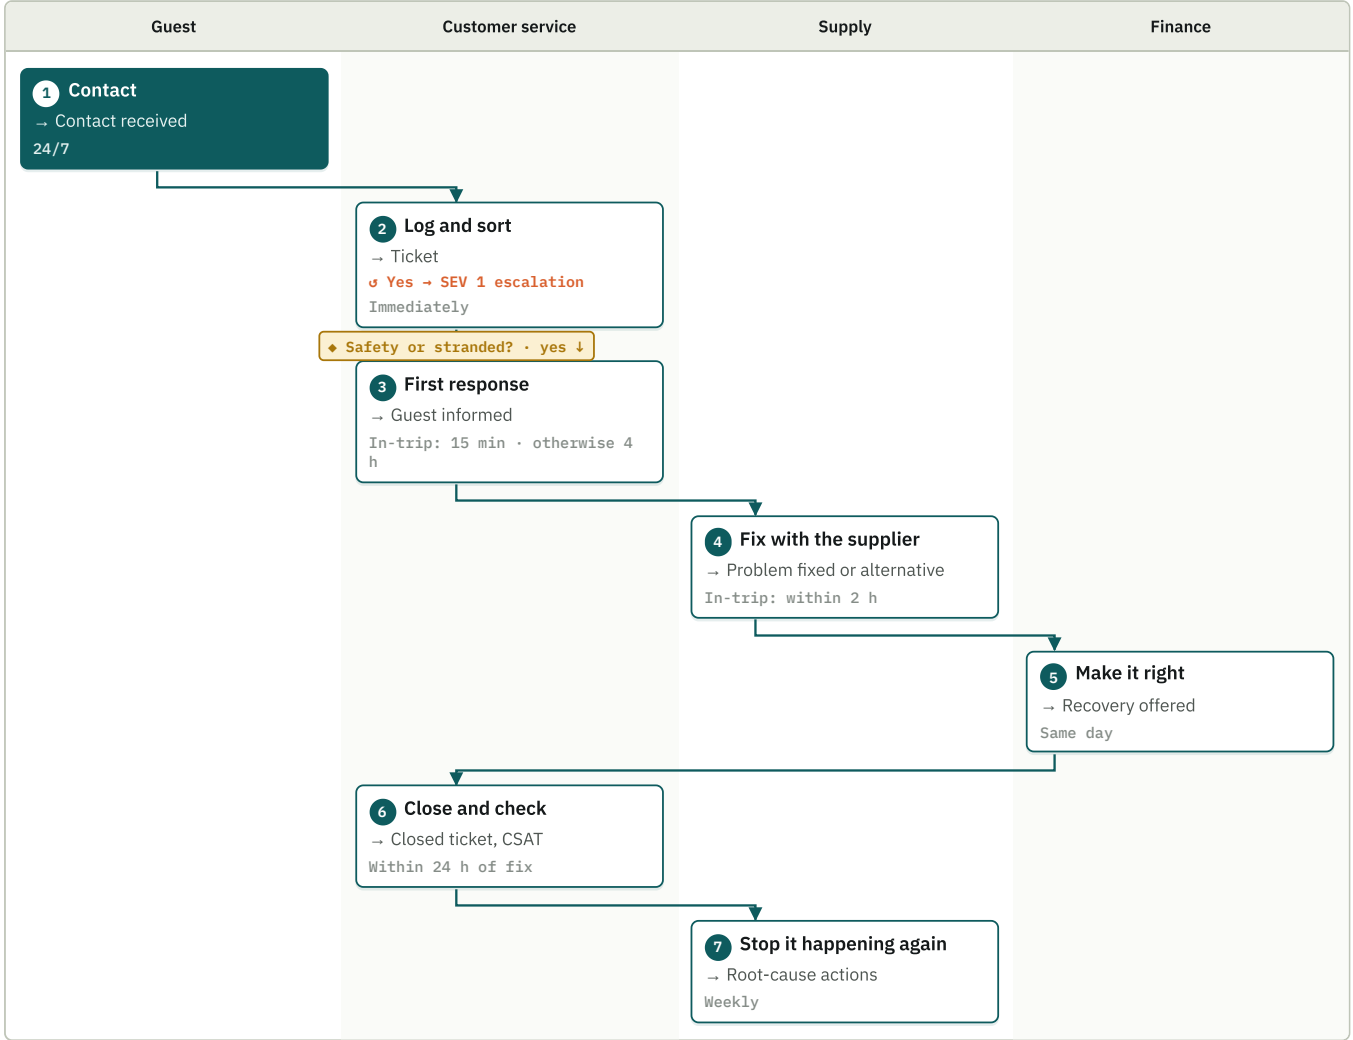

Average rating	Sum of ratings ÷ number of ratings
Review reply time	Median hours from publish to reply
Negative reviews resolved	Negative reviews with a closed support ticket ÷ negative reviews × 100
UGC pieces reused	Guest photos and videos used with permission

W5 · Customer support & service recovery

The plan promises communication through the whole trip. When something goes wrong, how fast and how fairly Vacario fixes it decides whether the guest comes back. This workflow sets response times, limits for compensation and the loop back to suppliers.

Serves: Consumer Supply Lifecycle Internal

Benchmark: Airbnb AirCover sets the expectation: rebook or refund when check-in fails.

W5 · Customer support & service recovery · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Contact	By WhatsApp, in-app chat, phone or email. One number and one chat everywhere.	Guest	24/7	Contact received
2	Log and sort ⚡ Safety or stranded? Yes → SEV 1 escalation	Every contact is a ticket with a type: booking change, payment, stay problem, safety.	Customer service	Immediately	Ticket
3	First response	A person replies, confirms they understand and says what happens next.	Customer service	In-trip: 15 min · otherwise 4 h	Guest informed
4	Fix with the supplier	Call the supplier, find another room or stay, or arrange what is needed.	Supply	In-trip: within 2 h	Problem fixed or alternative
5	Make it right	Refund, credit or upgrade within set limits: the agent up to a set amount, the team lead above it, finance above that.	Finance	Same day	Recovery offered

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
6	Close and check	Close only when the guest confirms; send a short satisfaction question.	Customer service	Within 24 h of fix	Closed ticket, CSAT
7	Stop it happening again	Weekly review of causes; repeat supplier issues go to Supply's account manager.	Supply	Weekly	Root-cause actions

KPIs

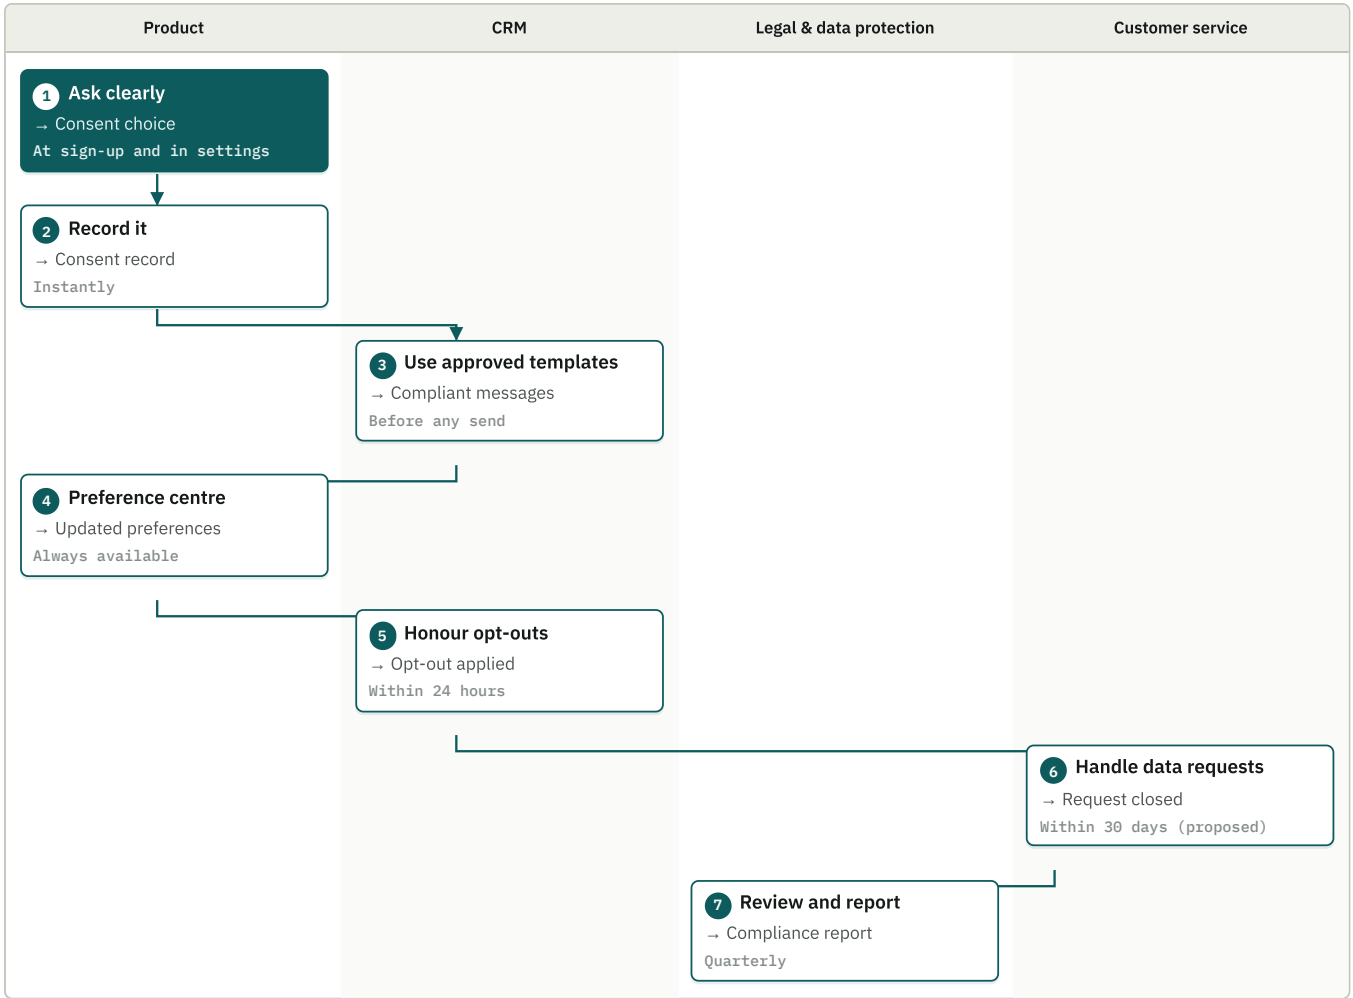

First response time	Median minutes from contact to first human reply
Resolution time	Median hours from contact to closed ticket
First-contact resolution	$\text{Tickets solved in one contact} \div \text{tickets} \times 100$
Customer satisfaction (CSAT)	$\text{Satisfied answers} \div \text{all answers} \times 100$
Refunds and credits as % of GBV	$\text{Refunds} + \text{credits} \div \text{gross booking value} \times 100$

W6 · Consent & data privacy

CRM, WhatsApp, SMS and push only work with permission, and India’s Digital Personal Data Protection Act, 2023 sets rules for collecting and using personal data. This workflow makes consent clear, recorded and easy to withdraw, which also keeps messages welcome.

Serves: Consumer Lifecycle Internal

Benchmark: Indian OTAs send booking messages on WhatsApp and SMS; marketing needs separate, recorded consent.

W6 · Consent & data privacy · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Ask clearly	A plain notice for each purpose (email, WhatsApp, SMS, push marketing), in English and the user’s language. No pre-ticked boxes.	Product	At sign-up and in settings	Consent choice
2	Record it	Store what was agreed, when, where and the wording version.	Product	Instantly	Consent record
3	Use approved templates	SMS through registered DLT headers and templates; WhatsApp through approved message templates.	CRM	Before any send	Compliant messages
4	Preference centre	Change or withdraw consent at any time, as easily as it was given.	Product	Always available	Updated preferences
5	Honour opt-outs	Stop marketing on that touchpoint at once; confirm to the user.	CRM	Within 24 hours	Opt-out applied
6	Handle data requests	Access, correction and erasure requests are logged and answered.	Customer service	Within 30 days (proposed)	Request closed

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
7	Review and report	Quarterly review of notices, vendors and records; any breach follows the SEV 1 path and the Act’s notification duties.	Legal & data protection	Quarterly	Compliance report

KPIs

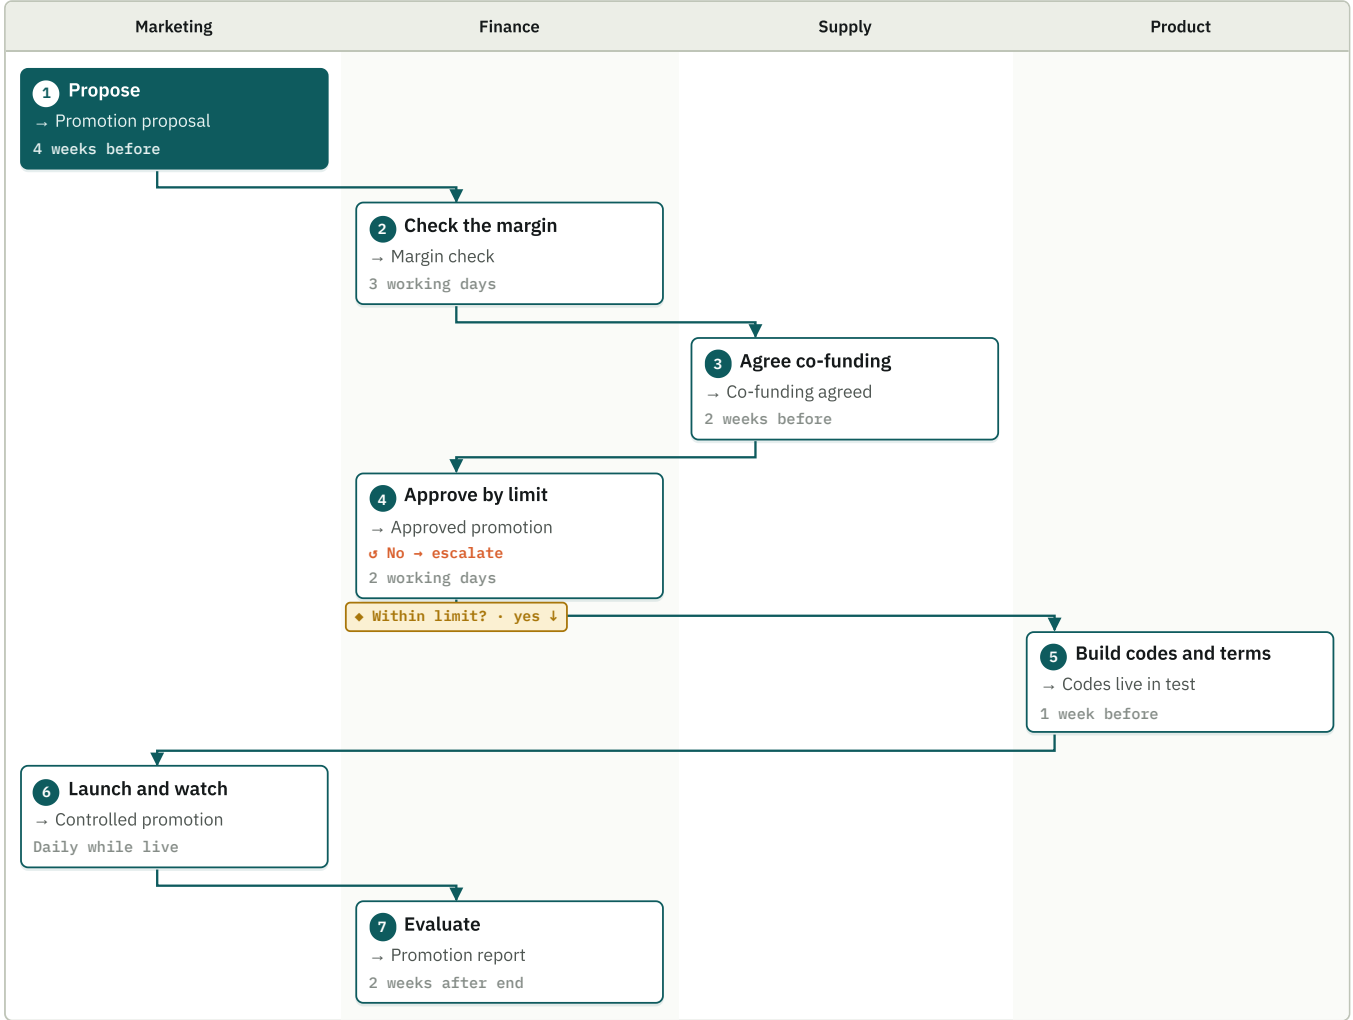

Opt-in rate	$\text{Users opted in (per touchpoint)} \div \text{sign-ups} \times 100$
Opt-outs honoured in 24 hours	$\text{Opt-outs applied within 24 h} \div \text{opt-outs} \times 100$
Data requests on time	$\text{Requests closed within the deadline} \div \text{requests} \times 100$
Messages on approved templates	$\text{Sends using approved templates} \div \text{sends} \times 100$

W7 · Promotions & offer approval

Discounts can buy bookings or simply give away margin. This workflow makes every promotion prove its cost per extra booking, agree who pays, and follow approval limits.

Serves: Consumer Supply Destination & Merchant Internal

Benchmark: EaseMyTrip's no-convenience-fee promise shows a simple, permanent value message can beat constant discounts.

W7 · Promotions & offer approval · one column per team

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
1	Propose	Goal, audience, offer, dates, expected extra bookings and cost.	Marketing	4 weeks before	Promotion proposal
2	Check the margin	Cost per extra booking against contribution per booking; who funds the discount.	Finance	3 working days	Margin check
3	Agree co-funding	Where suppliers or merchants share the cost, agree it in writing.	Supply	2 weeks before	Co-funding agreed
4	Approve by limit ♦ Within limit? No → escalate	Proposed limits: up to 10% off by the marketing lead, up to 20% by finance, above that by the CEO.	Finance	2 working days	Approved promotion
5	Build codes and terms	Codes, caps, expiry and plain terms and conditions.	Product	1 week before	Codes live in test
6	Launch and watch	Daily check of redemptions, cost and abuse; stop early if abused.	Marketing	Daily while live	Controlled promotion

#	STEP	DEFINITION: WHAT HAPPENS	OWNER	TIME ALLOWED	OUTPUT
7	Evaluate	Extra bookings against a baseline, true cost and whether to repeat.	Finance	2 weeks after end	Promotion report

KPIs

Promotion booking share	$\text{Bookings using a promotion} \div \text{all bookings} \times 100$
Discount cost as % of GBV	$\text{Discounts given} \div \text{gross booking value} \times 100$
Cost per extra booking	$\text{Discount cost} \div \text{extra bookings over baseline}$
Promotion abuse rate	$\text{Blocked or reversed redemptions} \div \text{redemptions} \times 100$

17

OPERATING MODEL

The operating model

How the seven channels and nine new workflows are run week to week: who is accountable, when the team meets, and what happens when something goes wrong.

Who owns what

A = accountable (one per channel, signs off) · R = does the work · C = asked before · I = told after

CHANNEL	CEO & LEADERSHIP	MARKETING (PERFORMANCE + CRM)	COMMUNITY, SOCIAL & CONTENT	CREATOR PARTNERSHIPS	SUPPLY & BD	DESTINATION PARTNERSHIPS	COMMUNICATIONS	FINANCE & LEGAL	PRODUCT & TECH	CUSTOMER SERVICE & OPS
01 Consumer	I	A	R	C	C	C	I	C	R	R
02 Supply	I	C	I	I	A	C	I	R	R	C
03 Creator	I	C	R	A	C	I	I	R	I	I
04 Destination & Merchant	I	C	R	I	C	A	I	R	R	C
05 Corporate	A	C	I	I	C	C	R	R	I	I
06 Lifecycle	I	A	R	C	R	R	I	I	R	R
07 Internal	A	R	R	R	R	R	C	R	R	R

Meeting rhythm

WHEN	WHAT	WHO
Daily	Operational check-ins where required; India → Canada handoff note at 6 pm IST	Operations, region leads
Monday	Dashboard published; weekly management review	Finance; function heads
Tue – Fri	Functional meetings: marketing & social, supply pipeline, creator content, destination offers, tech & product, finance, customer service & BD	Each function head
Monthly	Strategic / business review; investor update; partner statements	Executive team
Quarterly	Partner, creator and sponsor reviews; message house review; consent and data review; KPI targets reset	Account managers, communications, legal

Handoffs across time zones

INDIA (IST)	CANADA EASTERN	PHILIPPINES	WHAT HAPPENS
6:00 pm	8:30 am EDT (from 1 Nov: 7:00 pm IST = 8:30 am EST)	8:30 pm	India hands over to Canada
3:30 am	6:00 pm EDT	6:00 am	Canada closes with its handoff note
9:30 am	12:00 am EDT	12:00 pm	India and the Philippines start from Canada's note

Assumes the Canada team works Eastern Time.

18 MEASUREMENT

Measurement: every KPI and its formula

Sixty-one channel KPIs, each calculated the same way every month from raw counts and amounts, plus the workflow KPIs above. Targets are set from the budget model and reviewed each quarter. The KPI Workspace calculates all of them automatically once the monthly numbers are entered.

	KPI	FORMULA	HOW OFTEN	GOOD
01	Cost per install (CPI)	$\text{Paid media spend} \div \text{Installs from paid campaigns}$	Weekly	↓ lower
01	Sign-up rate	$\text{Sign-ups} \div \text{Installs} \times 100$	Weekly	↑ higher
01	Opt-in rate	$\text{Users opted into WhatsApp or push} \div \text{Sign-ups} \times 100$	Weekly	↑ higher
01	30-day booking conversion	$\text{First bookings within 30 days of sign-up} \div \text{Sign-ups in the same month (cohort)} \times 100$	Monthly	↑ higher
01	Blended CAC	$\text{Total marketing spend} \div \text{New booking customers}$	Monthly	↓ lower
01	Average booking value	$\text{Gross booking value (GBV)} \div \text{Number of bookings}$	Monthly	↑ higher
01	Review rate	$\text{Reviews received} \div \text{Completed trips} \times 100$	Monthly	↑ higher
01	Referral share	$\text{Bookings from referral links or credits} \div \text{All bookings} \times 100$	Monthly	↑ higher
01	12-month repeat rate	$\text{Customers with 2+ bookings in 12 months} \div \text{Customers who booked in the same 12 months} \times 100$	Quarterly	↑ higher
02	Pipeline coverage	$\text{Qualified leads in the pipeline} \div \text{Monthly signing target}$	Weekly	↑ higher
02	Win rate	$\text{Suppliers signed} \div \text{Qualified leads} \times 100$	Monthly	↑ higher
02	Time to live	Median of (go-live date – contract date) for listings that went live this period	Weekly	↓ lower
02	Live listings by destination	Count of listings that are live and bookable, per priority destination	Weekly	↑ higher
02	Availability accuracy	$(1 - \text{Bookings that failed on availability or price} \div \text{Bookings attempted}) \times 100$	Daily	↑ higher
02	Supplier cancellation rate	$\text{Bookings cancelled by the supplier} \div \text{All bookings} \times 100$	Monthly	↓ lower
02	Rate parity	$\text{Listings at parity or better} \div \text{Listings checked} \times 100$	Weekly	↑ higher
02	Bookings per live listing	$\text{Bookings in the month} \div \text{Live listings}$	Monthly	↑ higher
02	Supplier satisfaction	$\text{Sum of scores} \div \text{number of responses (scale 1-10)}$	Quarterly	↑ higher
03	Active creators by tier	Count of creators with at least one post in the last 30 days, by tier	Monthly	↑ higher

	KPI	FORMULA	HOW OFTEN	GOOD
03	On-time delivery	Content delivered by the agreed date ÷ Content due × 100	Monthly	↑ higher
03	Approval turnaround	Median hours from draft received to approval	Weekly	↓ lower
03	Engagement rate	Likes + comments + saves + shares ÷ Reach (unique accounts that saw the post) × 100	Per post	↑ higher
03	Link clicks	Sum of clicks on all creator tracking links in the period	Weekly	↑ higher
03	Attributed bookings	Bookings made through a creator link (within 30 days of the click) + bookings using a creator code	Monthly	↑ higher
03	Cost per attributed booking	Creator fees + commission + hosted trip costs ÷ Attributed bookings	Monthly	↓ lower
03	Disclosure compliance	Paid or gifted posts with a correct label ÷ Paid or gifted posts × 100	Monthly	= hold
03	Creator retention	Creators active in both quarters ÷ Creators active last quarter × 100	Quarterly	↑ higher
04	Destination coverage	Priority destinations with 5+ live partners ÷ Priority destinations × 100	Monthly	↑ higher
04	Active offers	Count of offers live in the app, per destination	Weekly	↑ higher
04	In-trip view rate	Travellers who viewed an offer ÷ Travellers in the destination × 100	Weekly	↑ higher
04	Redemption rate	Offer redemptions ÷ Travellers in the destination × 100	Monthly	↑ higher
04	Ancillary revenue per trip	Commission + experience revenue ÷ Completed trips	Monthly	↑ higher
04	Settlement on time	Partners paid by day 10 ÷ Partners due payment × 100	Monthly	↑ higher
04	Sponsorship revenue	Sum of tourism board, co-marketing and sponsor fees recognised in the period	Quarterly	↑ higher
04	Partner renewal rate	Partners who renewed ÷ Partners up for renewal × 100	Seasonal	↑ higher
05	Milestones on schedule	Announcements made on the planned date ÷ Announcements planned × 100	Monthly	↑ higher
05	Media mentions	Count of articles, broadcasts and posts naming Vacario, from the coverage log	Monthly	↑ higher
05	Tier-1 coverage share	Mentions in tier-1 media ÷ All mentions × 100	Monthly	↑ higher
05	Message pull-through	Coverage carrying at least one key message ÷ All coverage × 100	Per release	↑ higher
05	Investor update on time	Updates sent by the agreed date ÷ Updates due × 100	Monthly	= hold
05	Investor meetings	Count of investor meetings or calls that came from an update or release	Quarterly	↑ higher
05	Government and tourism MoUs	Count of MoUs or formal partnerships signed with government or tourism bodies	Quarterly	↑ higher
05	Employees briefed first	Releases with a staff briefing beforehand ÷ Releases × 100	Per release	= hold

	KPI	FORMULA	HOW OFTEN	GOOD
06	Activation rate	Reached first result within 14 days ÷ Joined in the same period × 100	Weekly	↑ higher
06	Time to first value	Median days from joining to first result	Monthly	↓ lower
06	90-day retention	Still active at day 90 ÷ Joined in the same month (cohort) × 100	Monthly	↑ higher
06	Repeat booking rate	Guests with 2+ bookings in 12 months ÷ Guests who booked in the same 12 months × 100	Quarterly	↑ higher
06	Partner churn	Partners lost in the period ÷ Partners active at the start of the period × 100	Quarterly	↓ lower
06	Sponsor renewal rate	Sponsors who renewed ÷ Sponsors up for renewal × 100	Quarterly	↑ higher
06	NPS by audience	% promoters (9–10) – % detractors (0–6)	Monthly	↑ higher
06	Win-back rate	At-risk members who returned within 30 days ÷ At-risk members contacted × 100	Monthly	↑ higher
06	Loyalty share	Bookings by loyalty members ÷ All bookings × 100	Monthly	↑ higher
07	Decision log completeness	Decisions recorded in the decision log ÷ Decisions made in reviews × 100	Monthly	↑ higher
07	Action close rate	Actions closed by the due date ÷ Actions due × 100	Weekly	↑ higher
07	Spend approval turnaround	Median working days from request to approval	Monthly	↓ lower
07	Dashboard on time	Weeks the dashboard was published by Monday ÷ Weeks in the period × 100	Monthly	= hold
07	Handoff compliance	Handoff notes sent ÷ Region working days (3 regions × working days) × 100	Weekly	↑ higher
07	SEV 1 response time	Minutes from detection to acknowledgement, for each SEV 1 incident	Per incident	↓ lower
07	Time to resolve	Median hours from detection to resolution, per severity level	Monthly	↓ lower
07	Post-mortems filed	SEV 1–2 incidents with a post-mortem within 5 working days ÷ SEV 1–2 incidents × 100	Monthly	↑ higher
07	SOP freshness	SOPs reviewed in the last 6 months ÷ All SOPs × 100	Quarterly	↑ higher

Rules for every KPI

- One owner and one data source per KPI.
- Enter raw counts and amounts, never percentages; the formula does the rest.
- Rates that follow people over time are measured by cohort, the month they joined.
- Leading KPIs are managed weekly, lagging KPIs reviewed monthly or quarterly.
- Money is in Indian rupees; periods are calendar months unless stated.

20 APPENDIX

Glossary and sources

GBV	Gross booking value: the total value of bookings before costs, refunds excluded.
North star	The one number the whole company steers by: completed bookings × average booking value.
CAC	Customer acquisition cost: marketing spend ÷ new customers who booked.
CPI	Cost per install: paid spend ÷ app installs from paid campaigns.
Cohort	A group that joined in the same period, followed over time, e.g. everyone who signed up in October.
Attribution	Linking a booking to what caused it: a campaign tag, a creator link or a code.
Conversion	The share of people who move from one stage to the next, e.g. sign-up to first booking.
Median	The middle value when sorted. Used for times so that one extreme case does not distort the result.
Leading KPI	Moves first and can be changed this week, e.g. opt-in rate. Managed weekly.
Lagging KPI	Confirms the result later, e.g. repeat rate. Reviewed monthly or quarterly.
NPS	Net Promoter Score: % answering 9–10 minus % answering 0–6 to “How likely are you to recommend us?”.
Rate parity	Vacario’s price for a stay is the same as or better than other sites.
SLA	Service level: the time allowed for a step, e.g. reply within 15 minutes.
UGC	User-generated content: photos, videos and reviews made by travellers.
Tier-1 media	National business and travel outlets on an agreed, fixed list.
ASCI	Advertising Standards Council of India, whose guidelines require paid creator posts to be clearly labelled.
MICE	Meetings, incentives, conferences and exhibitions: company group travel and events.
OTA	Online travel agency, such as MakeMyTrip, Cleartrip, Yatra, EaseMyTrip, Booking.com or Expedia.
Duty of care	A company’s responsibility for its employees’ safety and wellbeing while travelling for work.
Attrition clause	Contract terms for how many booked rooms or places a group may release before a penalty applies.
DLT	Distributed ledger registration that Indian telecom rules require for commercial SMS senders and templates.
DPDP Act	India’s Digital Personal Data Protection Act, 2023.

What came from the plan, and what was added

From the plan: the seven channels, their flows, the descriptions of Consumer, Supply, Creator, Destination & Merchant, Corporate, Lifecycle and Internal communications, the twelve internal streams and the closing principle. Added in this document: the customer lifecycle, journey, decision paths and mind maps; partner lifecycles; sales lifecycles for properties, travel agencies and enquiries; corporate travel and MICE; benchmarks; every workflow step, owner and time limit; the new workflows; KPIs, formulas and targets process; the operating rhythm and rollout. All additions are proposals for the team to adjust and approve.
